Wife Had Too Many Gowns.

PARIS, January 2.—The courts have decided that there should be a limit to a woman's expenditures on gowns. A fashionable dressmaker demanded \$3,300 for twenty-one gowns supplied to a woman in two months, and sued the wife and husband to recover. The court points out that even if the husband gives his wife authority to purchase toilettes it must be presumed that he intends her to be reasonable. It rules that it is the duty of the dressmaker to inquire whether orders given by the wife accord with the husband's financial and social status. The court awarded \$3,300 to the plaintiff.
