

American Soldiers Encampment

Jamestown Exposition

Hotel Accommodations in Tents for Everybody and Their Friends

ONE DOLLAR PER DAY

Stock in this Company is non-assessable and is offered at One Dollar per share. Each holder of Five or more Shares of stock will be furnished lodging and one admission ticket to the Exposition at One Dollar per day for as many days as he holds shares of stock. Thus paying him an advance dividend of 50 per cent. on his investment. Buy at least as many shares as you expect to stay days at the Exposition, and get in at once. This offer will not last long. We expect to make plenty of money for our stockholders. We will declare a dividend within 30 days after the close of the Exposition, and will sell all our property as soon thereafter as the board of directors can to the advantage of the company (certainly within six months), when a final dividend will be made, our charter surrendered and the company dissolved. You should get back at least two for one. Our prospects are good for even better results.

Get Your Stock at Once, or You May be Too Late!

Stockholders will be given preference and be shown every consideration by the committee in charge. Our tents will be well equipped, where our comrades and friends can find home comforts within their means. There is no doubt but that many will be pleased to avail themselves of this excellent opportunity to make sure of accommodations convenient to the Exposition at our exceedingly low rate to stockholders. It will cost less to buy this stock and see the Exposition than to see the Exposition without buying stock, then the stockholder is likely to receive back as a dividend and a final settlement several times his investment. Our stock is transferrable. Make up a club of as many as may desire to avail themselves of this opportunity and forward a list of their names, P. O. address, etc., with the money to cover each subscription at One Dollar per share, designating the amount that each one buys. Notify us at once of your intention, then make up your club as soon as you can, that you may be sure of a place. Upon request we will hold stock open for a while that you may have time to make up your list or club. Lose no time if you want to both save and make money while you spend it.

You Won't Live Long Enough to See Another Jamestown Centennial

It will be the Grandest War and Navy Display this world has ever seen

Make remittances by P. O. Money Order or Draft to O. E. GELBRICH, Treasurer, 911 East Main Street, Richmond, Va. Office open from 9 A. M. to 9 P. M.

- Colonel Joseph V. Bidgood.

Hotel Accommodations in Tents for Everybody and Their Friends

General Grant's Army Camp adjoins our property. We are just outside the Exposition Grounds, and on a double track Street Car Line. We have a fine location, good drainage, good water, and sanitary in every respect.

STANDARD OIL TUG SINKS IN THE BAY

Radiant Goes to Bottom of Chesapeake Bay Near Baltimore.

MEMBERS OF CREW SAVED

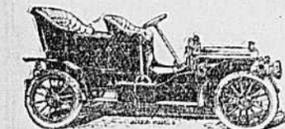

Was Towing Oil-Laden Barges to Alexandria and Latter Escape.

BALTIMORE, MD., April 27.—The Standard Oil tug Radiant sank in Chesapeake bay, about twenty miles below Baltimore, today. The Radiant sailed from this port last night with two oil-laden barges for Alexandria, Va., and Washington. When at the mouth of the Magdohy river the tug crossed on the heavy swell that was running. Passing the new light-house at the river mouth just before the craft went down, four of the crew of the tug men clambered on to the pier surrounding that structure, the remaining five men jumping overboard, and were picked up by the steamer Atlanta and brought to this city.

"JOKE" ON A NEWSPAPER.

Man Who Wired for a Reporter Asked About Thaw Trial.

The curiosity of R. S. Mills, a manufacturer of St. Louis, to learn how the Thaw trial was progressing caused great excitement in the office of a Pittsburgh newspaper early yesterday morning. Shortly after midnight a telegram was received from Mills saying that he would be aboard the Pullman car Manhattan, attached to the Pennsylvania railroad train due to arrive at 5:30 o'clock that morning, and asked that a reporter meet him, saying the meeting was important. A reporter was assigned to meet the train, and the paper held back its last edition in expectation of a big story. When the reporter finally dug Mills out of his bunk, the man explained that he merely wanted to know whether Stanford White's son had been placed on the witness stand.—Pittsburgh Dispatch in New York Times.

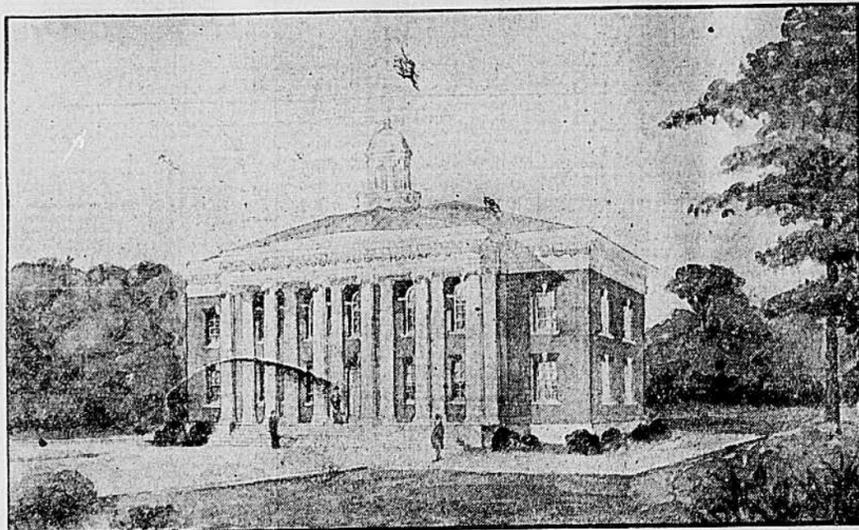

Automobiles For Sale, Hire and Repair.

I will move into my new Garage, 519-521 W. Main Street, on April 29th. I want to place agencies in every city in the State of Virginia. I am placing them very fast. Answer quick if you want to represent a good honest line of cars. I am distributing agent for the Jackson, and expect a carload in about Monday. The Jackson has demonstrated to the world the past six years its wonderful power, strength and simplicity. The Model D is a two cylinder, 24 H. P., 5 passenger about drive, motor under hood. There is no car on the market that can equal it for the same price. No sand to deep, no hill too steep. Model C, two cylinder chain drive. Model G, four cylinder shaft drive. Catalogue on application, and discount to agents. D. W. VAUGHN, 519-521 W. Main Street, Richmond, Va. PHONE 5277.

NEW COURTHOUSE FOR SURRY COUNTY

The new courthouse for Surry county will be a two-story building, constructed of concrete and red brick, with white trimmings, in Colonial design. There will be offices for the various county officials and a large fireproof record-room on the first floor. The second floor has been devoted mainly to the requirements of the court, there being a courtroom 31x47 feet in size; also witness, judge and jury rooms. Ample provision has been made for toilets, both for the public and for the jury.

REAL ESTATE AND BUILDING NEWS

(Continued from First Page.)

Highland Park. The Highlands Park Realty Corporation reports more activity in lots and houses in Highland Park than at any time in the history of that beautiful suburb. Several new houses were started during the past week, and many more lot-owners have plans now in the hands of architects, and everything points to a great activity in building on the park during this summer.

Wasted Sarcasm. Dr. Wiley, the Government food expert, has been connected with the Agricultural Department for a good many years. When "Uncle Jerry" Rusk of Wisconsin was Secretary of Agriculture, Dr. Wiley brought him a letter to sign. It had been written to an impertinent but influential correspondent and was couched in cuttingly sarcastic vein. Mr. Rusk read it with delight, scooped out his laughing approval and then tore it up. In answer to Dr. Wiley's look of amazement he said: "That was a lully letter. Now go and write one that we can send to the blame fool." Dr. Wiley learned there and then that witty and sarcastic letters are not in favor in the Government service.—Baltimore News.

Whale Nets. At Waingamumu Bay, on the north-east coast of New Zealand, whales are caught in big steel nets. The nets are made of three-quarter-inch wire rope in six-foot mesh, and have barrel buoys along the edges to hold them close to the surface. A whale cruising along the shore strikes the net and gets his head through a mesh, and instead of balking out he rushes forward and entangles

himself in the wire ropes. He may carry the net away from his anchorage with the momentum of his rush, but the buoys impede him, and instead of heading out the whale thrashes about furiously and soon gets the wire ropes round about his fins and flukes. The animal thrashes around until worn out, then the boats of the fishermen creep in upon him and the harpoon and the lance are used. When the whalers give chase in the old-fashioned way nowadays power launches are used instead of rowboats. At Waingamumu all the parts of the whale are utilized, the bones and refuse being converted into fertilizers.—Popular Science Sittings.

One for the Barrister. A certain well-known judge was once violently attacked by a young and very impudent counsel. To the surprise of every one the judge heard him right through, unconscious of what was said by those present, and made no reply. After the adjournment for the day, and when all were assembled at the hotel where the judge and many of the court folk had their refreshments, some one asked the judge why he did not rebuke the impudent fellow.

"Permit me," said the judge, loud enough to attract the attention of the whole company, among whom was the barrister in question. "Permit me to tell you a little story. My father, when he lived in the country, had a dog—a mere puppy, I may say. Well, this puppy would go out every moonlight night and bark at the moon for hours together." The judge paused as if he had finished.

"Well, what of that?" exclaimed half a dozen of the audience at once. "Oh, nothing—nothing; but the moon kept on shining just as if nothing had happened.—Tetter.

CASTORIA. The Kind You Have Always Bought Bears the Big Name *Castoria* PIMPLES AND ERUPTIONS. There are three great facts concerning pimples and other eruptions. The first is that they all proceed from an impure condition of the blood. The second is that they are all cured by correcting that condition, and in no other way, as thousands who have bothered with powders, lotions and other external preparations have found out. And the third is that Hood's Sarsaparilla and Pills correct that condition as no other medicines do, make the blood pure and rich, and in so doing radically and permanently cure pimples and all other eruptions. Hood's Sarsaparilla and Pills are the medicines that will do you the most good. Accept no substitutes.

of the autonomy of the archipelago. We have quite enough on our hands in Cuba and Porto Rico. They are our neighbors, and it is not even possible for us to be indifferent to their career and destiny. With the Philippines, however, the case is different. No matter whether the distant islands are independent or become the property of Japan or a European power, they can do us no harm whatever. As long as we hold them they will be a source of worry, expense, and even danger to us, and in any event we will never be able adequately to defend them, except at a tremendous cost, an outlay which is not justified by the interests involved.—New Orleans Picayune.

Guarding a Great Heiress. They do say that an American heiress of well known name is never
