These here for the convention of the Travelers' Protective Association, which is being held in Norfolk, were again at the exposition in great force.

CARLIN'S VICTORY SURPRISE TO SOME

Others Who Were Acquainted With Energy He Put Into Contest Expected It.

[From Our Regular Correspondent.] WASHINGTON, D. C., June 20.—The nomination of C. C. Carlin to Congress by the Democrats of the Eighth Virginia District yesterday surprised some and simply fulfilled the expectations of others.

The remarkable amount of energy Mr. Carlin put into the canvass, and the readiness of his friends in all counties of the district to get out and pull off their coats for him caused many who were supporting other candidates to think he would win.

Indications are that John Orr Danton, of Evergreen Mills, defeated Major E. W. Lynn, by 100 votes for district delegate in Loudoun and Fauquier counties. E. E. Garrett for Commonwealth's Attorney, J. L. Gill for Treasurer and T. W. Edwards for Sheriff had no opposition. About 1,650 votes were cast.

Carlin Wins Both Counties. FREDERICKSBURG, Va., June 20.—The official vote of Stafford county gives Carlin 164, Gordon 98 and Nicol 85.

Returns from King George county have not yet been received, but it is known that county gives Carlin a majority.

NEWPORT NEWS CO. THE LOWEST BIDDER

Will Get Contract for Building Twenty-Thousand-Ton Battleship.

ESTIMATE SURPRISINGLY LOW

Virginia Concern Submitted Several Designs and Prices.

WASHINGTON, June 20.—The Newport News Shipbuilding Company, of Newport News, Va., with one bid at \$3,987,000, and the Fore River Shipbuilding Company, of Quincy, Mass., with a bid at \$4,377,000, were the successful bidders to-day for the building of the big 20,000-ton battleships.

The officials of the Navy Department were gratified and surprised at the lowness of the bids, considering conditions in the industrial world. They pointed out that the bid of the Newport News company for one of the great 20,000-ton ships was not only between \$400,000 and \$500,000 less than corresponding bids from any other company, but actually covered building the 16,000-ton battleship Minnesota, and \$3,000 less than the price paid for the battleship Louisiana.

The Newport News company alone submitted no less than seven sets of plans, and it may be noted that they were all at the lowest at all points with all combinations. But as the law provides that no company shall receive the contract for more than one ship, the second lowest bidder also is assured an award in this case.

The lowest bids in substance were as follows: Fore River Shipbuilding Company, Quincy, Mass., one ship on the department's plans, to be delivered in thirty-six months, \$4,377,000. Hull and outfitting, \$1,150,000. Hull and outfitting, \$1,150,000. Hull and outfitting, \$1,150,000.

Newport News Shipbuilding Company, Newport News, Va., department designs \$3,987,000. Department's hull and equipment, bidders: Parsons, turbine engines; Thorneycroft-Schultz boilers \$4,100,000, including cruising turbines. Another design, department hull and equipment, bidders: Parsons turbines; same boilers as above, \$4,050,000. Design includes separate cruising turbines.

Another design, same hull and turbines, \$4,100,000, including cruising turbines. Another design, same hull and turbines, \$4,050,000, including cruising turbines. The bids were referred for examination to the Board of Naval Construction, which will recommend proper awards.

PINE BEACH WILL BE INVESTIGATED

(Continued from First Page.) Jamestown Exposition opened, Sheriff Cromwell, of Norfolk county, who, with Judge Portlock, has practically supreme power in the county, told the board that there were gathered in and around Pine Beach (the "Outside Warpath," as it is called), the greatest collection of evil characters in the United States.

He said that every game known to the blackleg profited here would be worked, and that it was being made a "tough joint." That his prediction has been fulfilled seems to be verified by his own statement made last Monday that he was powerless to control the evil at Pine Beach, and that he could not stop the sale of liquor or the operation of gambling schemes and amusements at the resort on Sundays.

Captain Carpenter, commandant of the Powhatan Guards at Jamestown, who has jurisdiction for a mile outside the grounds, also said to the writer that he knew of the evils of the place, but on account of the small number of his command, could not do

more than protect visitors entering and leaving the Exposition grounds on the Pine Beach side. So it is that, according to those who have authority to uphold the law, no attempt is made to interfere with those who ply their trade at Pine Beach.

Defeat and Robbed. When the Virginia troops first encamped near the resort Colonel Perry, of Staunton, commanding the Seventieth Regiment, informed General Vaughan that a man had been beaten nearly to death and robbed at Pine Beach, and later three staff officers, Major Wright, Major Truxton and Major Forcy, who made an inspection on the night of the 9th of June (Sunday), informed General Vaughan that the barroom was wide open and that gambling was carried on openly. With this information before him General Vaughan gave orders that the men under his command should be warned to keep order and to be careful in their conduct.

On Sunday night, June 16th, a party of three enlisted men were arrested, charged with disorder and resisting an officer, and a lieutenant, who was passing and who inquired, as he should have done, why his men were under arrest, was also arrested, charged with interfering.

What Stevenson Did. The policeman, Stenwick, who made the arrests, put a steel wrist chain on one of the enlisted men, clubbed another and nearly killed Sergeant Koiner, an innocent bystander, by striking him twice over the head with his club. He was passing and who inquired, as he should have done, why his men were under arrest, was also arrested, charged with interfering.

WESTERN UNION TO MEET ALL DEMANDS

Salary Increase Order Really Effective, and Operators Won't Strike.

POSTAL IS NOT INVOLVED

Employs Say They Gain All Points Except Typewriters and Eight Hours.

NEW YORK, June 20.—As a result of the visit of Mr. Neill, Commissioner of Labor, and following suggestions made by him, an adjustment of the difficulties between the Western Union Telegraph Company and its operators has been reached, and there will be no strike. This morning Colonel Clowry, president of the Western Union, addressed a letter to Mr. Neill, outlining the position of his company, and this is admittedly satisfactory to all parties concerned.

The union leaders said they looked upon the letter as a concession by the Western Union of all their demands with the exception of the eight-hour day, and the request that typewriters for operators be furnished by the company.

The Postal Telegraph Cable Company takes the position that it was not directly involved in the controversy. Edward J. Nally, vice-president and general manager, gave out the following statement to-day as to his company's attitude: "I wish to say for the Postal Telegraph Cable Company that the statement to the effect that this company refused to consider requests or complaints from its employees, either individually or as a committee, is entirely untrue. We have always been very glad to meet any of our employees and to consider any matter which they might care to present."

President Clowry's letter to Mr. Neill is in part as follows: "As to the statements made by persons in no way connected with this company that the ten per cent. increase granted by the telegraph company on March last has not been applied to all salaried telegraphers, I desire to say that the telegraph company announced this increase in good faith, and is carrying it out in good faith, and that if any case can be found in which the increase was not granted it will be corrected at once."

"The standard salaries for regular positions established by the company on March last will be maintained, and the company will pay to any man appointed or promoted to any position the salary attached to that position after that increase, and will pay to extra men the salaries in effect for their work as of March last, inclusive of the 10 per cent. increase."

"This company has not discriminated against, nor will it discriminate against, any employee of the company because of affiliation or non-affiliation with any organization, and if it can be shown to me that any subordinate has discriminated against any telegrapher because of affiliation with any organization such telegrapher shall be restored to his position without prejudice."

"If any telegrapher feels that he has any grievance under any of the foregoing conditions, and if he can secure a satisfactory adjustment of his complaint with the officers of the company, we will submit the matter to the arbitration of three parties, one to be selected by the telegraphers, one by the telegraph company, and the third to be selected by the two so chosen, and in the event that they cannot agree upon a third arbitrator within one week, we will be very glad to have such third arbitrator to be chosen by the chairman of the Interstate Commerce Commission and the Commissioner of Labor, acting jointly."

To Consider Grievances. "As a further evidence of our entire willingness to deal fairly and preserve amicable relations directly with our own employees, any telegrapher who at any time has a grievance can take it up with his superior, either in person, or if he wishes, by any committee he may select from the other employees of this company in the same district."

COL. MOSBY SMASHED IDOLS

Monograph on Stuart Will Be Rather Severe on Some Officers.

BY WALTER EDWARD HARRIS. WASHINGTON, D. C., June 20.—Colonel John S. Mosby, who has for a considerable time been engaged in writing a monograph on General Stuart in the Gettysburg campaign, completed the last chapter of the work to-day. He will also the manuscript at once send it to the publishers. The MacMillans will probably bring out the volume in the early fall.

"I smash some idols," said Colonel Mosby to-day, "but the book will contain nothing but the truth. Incidentally, I have had to be rather severe upon certain officers. This was from no animus towards them. In writing the book I was moved solely by a desire to tell the truth and defend the memory of General Stuart."

Some of the Testimony. Captain Gale and Captain Jones, both of the Seventy-second Regiment, and residents of Norfolk, testified that the bar-rooms and gambling-houses were being operated in the barracks at night by a sergeant and five men of the Culpeper Minute Men testified that they were in the bar and saw Stevenson bring in his prisoner on last Sunday night, and that roulette was being played, and a half-dozen other witnesses testified to bar-rooms and gambling places being open on Sunday.

One witness, on cross-examination, was asked: "Are you sure that liquor was sold?" His reply was: "I drank three bottles of beer, and I paid for them."

Another said that the crowd was lined up two deep at the bar, and that fully 100 men were in the gambling-room.

Policeman Stevenson was asked if the other witnesses could see the bars open. He replied that they could.

On being asked to name the amusements that were open on Sunday, he recited a list beginning at peanuts and ending with the "honchee couchee."

To Press the Matter. It is said that Governor Swanson will use the contingent fund freely to restore order at Pine Beach, and will appeal to Judge Portlock and Colonel Marshall, Commonwealth's attorney, to see that no further lawlessness is allowed there.

In addition to this it is known that General Vaughan has instructed Judge Advocate Shelton to bring the matter of Stevenson's assault on Mr. Kohler before the grand jury and to push the matter to an issue.

It looks as though the truth, good or bad, regarding Pine Beach, will be brought to light, and that those who are responsible for conditions that prevail there, will be dragged into the glare of public notice.

HAYWOOD WANTED STEUNENBURG SHOT

(Continued from First Page.) drafts sent by Haywood to Simpkins, and among them was one for \$100 sent on some date in the 20s of December, 1905, but the particular day could not be made out, because the second figure had been cut out by the perforator.

Has Important Hearing. Detectives were detailed to trace further the \$100 draft, and the telegram from Denver to-day states that the bank records show that December 21 was the date of issue. The testimony is of such importance that the State may delay closing its case until it can produce it, or it may close with the reservation that it be permitted to make later proof.

Which established a new record, securing the fastest time in the Wilkesbarre Hill Climb, making the run up "Giant's Despair," a frightful and dangerous ascent of 6,000 feet in 1:49 4-5, a record for the hill. This is ten seconds faster than the best time made by the Matheson, a 60 H. P. Gasoline Car, costing \$6,000. Some of the other Cars that competed were the Stanley, Thomas and Stearns.

It holds the world's track record. The Eagle Rock Hill Climbing record. And the Wilkesbarre Hill Climbing record. It won the economy road test against the Packard and all other 4 or 6 cylinder Gas Cars, and has won every endurance road test that is entered since 1903. The Man From New York rather than "the man from Missouri" was the one who said "show me" as to life insurance. Everyone knows that the New York Legislature investigated the insurance situation but everyone may not know that the insurance laws of New York are now recognized as the best in the world. Other states will doubtless follow, but New York has led the way in laws made in the interest of the insured. The Mutual Life Insurance Company operates under these laws. Its policies have the state's approval. It is with a mutual company belonging to its policy holders and they must therefore participate in the vast savings and economies which have been put into effect by the new management. Things are bound to be good for the Mutual Life policy holder. The Time to Act is NOW.
