CITY MINISTERS DISCUSS PLANS

Will Attempt to Bring Out Entire Vote of Those Interested in Good Government.

Ministers of Richmond, in special session at the Y. M. C. A. yesterday, declined to take any action relative to the present liquor agitation in Richmond or to endorse any of the proposed restraining ordinances.

The meeting developed into an earnest conference on the part of the forty or more city pastors of all denominations present, and a wide divergence of views as to what was best to be done under the circumstances was soon evident.

The Rev. F. T. McFadden, D. D., pastor of the First Presbyterian Church, finally voiced general sentiment by stating that he did not think it advisable for a conference of ministers to go on record as favoring any ordinance which permitted the sale of liquor in any form.

Mr. A. von Rosenek denied yesterday that he had made the statement attributed to him by the Rev. Dr. Ryland Knight, pastor of Calvary Baptist Church, in a recent issue of the Christian Association mass meeting at the Academy of Music Sunday afternoon.

Mr. Rosenek, who ought to know, says that the liquor dealers are seeing to it that the poll taxes are paid of the men friendly to the Dabney ordinance.

Asked about this statement yesterday, Mr. Rosenek said: "I was surprised to see in this morning's issue of your paper the Rev. Ryland Knight, D. D., is quoted as saying in an address at the Academy of Music yesterday that he is face to face with the most critical situation in the history of Richmond. Mr. Rosenek, who ought to know, says that the liquor taxes are paid of the men friendly to the Dabney ordinance."

If the critical situation that confronted Richmond means an attempt at the prohibition party to carry Richmond dry in the next election, then I wish to say that the merchants and conservative element of Richmond have met this situation once before, and looked upon such a movement as disastrous to the interests of the growing and flourishing city of the South, and carried the city wet by an overwhelming majority.

It is a well known fact that previous to each election and just before the time fixed for the payment of poll taxes, a large number of citizens prepare themselves to exercise the right of suffrage. Citizens who do this are generally known as the "good citizens" of the community; but the Rev. Dr. Knight took occasion yesterday to say in no many words that of these humble citizens who have been manifesting themselves to exercise the right of suffrage in the coming election, few of them are men of the Christian name, and therefore could not have examined the list of those good citizens who believe in participating in the government, and therefore pay their poll taxes, and that he spoke thoughtlessly when he slandered these citizens."

Payment of Taxes. Officials of the City Treasurer's office said yesterday that there was no rush on just now for the payment of poll taxes. Lines of tax-payers were not seen at each of the windows during the earlier part of the day, but many of them were settling for State and city taxes and paying the poll tax at the same time.

It is generally thought that the liquor interests have rallied their full strength. Certainly the list of those who have already paid poll taxes is the longest in the history of the city.

Information for Voters. If you do not find your name on the books of the Treasurer, Room 6, First Floor, City Hall, go to the office of the Commissioner of Revenue, Room 5, First Floor, City Hall, and demand that he assess you and give you the necessary papers.
