of placing the criminal expenses upon the county or city where the crime is committed. It was tabled on motion of Mr. Pendleton, of Scott. This is a tender point with certain counties, especially those in the Southwest and all the members from that section voted to take the fray.

Pass Some Bills Now. The House was notified of the adoption of a Senate joint resolution cutting off the introduction of bills after February 20th. The matter was referred to the Committee on Rules. The plan will likely be adopted. The legislators will now turn their attention to the introduction to the passage of bills. Eighteen bills appeared on the printed calendar yesterday. Those were all on their second reading, and many of them were advanced. The various committees reported a number of others, and these went upon the calendar in the regular course of business.

Mr. Bowman got through House bill No. 2 under suspension of the rules requiring various constitutional amendments. This measure provides for the payment of the contingent expenses of the General Assembly. When House bill No. 4, providing for the confederate cemeteries in various cities and towns, came up for its second reading, a number of amendments were adopted, increasing the amount in many instances. The bill was finally reported on motion of Mr. Churchman in order that it might be perfected.

Mr. Oliver moved that when the House adjourn to-day it adjourn on (1) Tuesday in honor of Lee-Jackson Day. Mr. Bowman moved to amend on adding that when the House adjourn on Monday in honor of the day, to this Mr. Churchman moved another amendment which was adopted, increasing the amount in many instances. The bill was finally reported on motion of Mr. Churchman in order that it might be perfected.

SENATE. The session of the Senate was opened with prayer by the Rev. J. W. C. Day. Chicago. They terminate at Dolton, from which point entrance is made over the Illinois, Whiting, where the oil freight originates, is not on the lines of the Chicago and Eastern Illinois, which receives its Whiting freight from the Belt Line at Dolton. The former practice, now discontinued, in filing tariffs was to make them read from a point on the line of the filing road, and it was also general to state on the same sheet that the tariff would apply to other points, e.g., Whiting. This practice, now discontinued, in filing tariffs was to make them read from a point on the line of the filing road, and it was also general to state on the same sheet that the tariff would apply to other points, e.g., Whiting.

Our readers remember that the chief points in the defense of the Standard Oil Company, as presented by President Moffett, were, (1) that the rate of 6 cents on oil from Whiting to East St. Louis had been issued to the Standard Oil Company as the lawful rate by employees of the Aiton; (2) that the 18-cent rate on oil with the Interstate Commerce Commission was a class and not a commodity rate, never being intended to apply to oil; (3) that oil was shipped in large quantities between Whiting and East St. Louis over the Chicago and Eastern Illinois, at 54 cents per 100 pounds, which has been filed with the Interstate Commerce Commission as the lawful rate, and (4) that the 18-cent rate on oil was entirely out of the question as to other commodities between these points of a similar character, and of greater value—such, for example, as lard oil, the lawful rate on which was 8 cents. President Moffett also stated that thousands of tons of freight had been sent by other shippers between these points under substantially the same conditions as governed the shipments of the Standard Oil Company.

This defense of the Standard Oil Company was widely quoted and has undoubtedly exerted a powerful influence upon the public mind. Naturally, the administration, which has staked the success of its campaign against the "trusts" upon the result of its attack upon this company, is not at all surprised that the industry has the new deliverance of Commissioner Smith.

We need hardly point out that his rebuttal argument is extremely weak, although as strong, no doubt, as the circumstances would warrant. It answers the points made by President Moffett substantially as follows: (1) The Standard Oil Company had a traffic department, and should have known that the 6-cent rate had not been filed; (2) no answer; (3) the Chicago and Eastern Illinois rate was a secret rate, because it read, not from Whiting, but from Dolton, which is described as "a village of about 1,500 population, just outside of Chicago. Its only claim to note is that it has been for many years the point of origin for this so-called secret rate." The commissioner admits in describing this rate that there was a note attached stating that the rate could also be used from Whiting.

The press has quite generally hailed this statement of the Commissioner of Corporations as a conclusive refutation of what is evidently recognized as the strongest rebuttal argument advanced by the Standard.

In fact, it is as weak and inconclusive as the remainder of his argument. The lines of the Chicago and Eastern Illinois do not run into

there will probably be no opposition. Senator Saunders offered a bill making it the duty of the State Chemist to analyze mixtures supposed to contain opium, and to report the results to the State Board of Health. The bill is aimed at the sale of "dope" and of liquor in disguise.

oil official said that other large shippers in the territory had been guilty. Considering the fact that these shippers included the packers and elevator men of Chicago, the action of the grand jury in calling upon President Moffett to furnish evidence of their wrongdoing may be interpreted as a demand for an elaboration of the obvious but the fact that a rate book containing these freight rates for other shippers was offered in evidence during the trial and ruled out by Judge Landis was kept out of sight. President Moffett would not, of course, accept the invitation of the grand jury, although he might have been pardoned if he had referred them to various official investigations by the Interstate Commerce Commission and other departments of the government.

We come back, therefore, to the conclusion of the whole matter, which is that the Standard Oil Company of Indiana was fined an amount equal to seven or eight times the value of its entire property, because its traffic department did not verify the statement of the Aiton rate on oil shipped over the Chicago territory had been entered with the 18-cent rate, nor that the failure of the Aiton to file its 6-cent rate had resulted in any discrimination against any independent shipper; we must take this on the word of the Commissioner of Corporations and of Judge Landis. Neither is it denied even by Mr. Smith that the "independent" shippers of oil, whom he pictures as being driven out of business by this discrimination of the Aiton, could have shipped all the oil he desired to ship from Whiting via Dolton over the lines of the Chicago and Eastern Illinois to East St. Louis. In short, President Moffett's defense is still good, and we predict will be so declared by the higher court.

The Standard Oil Company has been charged with all manner of crimes and misdemeanors. Beginning with the famous Rice, of Marietta, Ga., case, and the Standard Oil Company's ownership of the Standard Oil Company, owned by Henry Demarest Lloyd, with his "Wealth Against Commonwealth," descending by easy stages to Miss Tarbell's offensive personalities, we find the Standard Oil Company's record in the public opinion of the people of this country, and in the eyes of the Commissioner of Corporations, the Standard has been charged with every form of commercial piracy and with most of the crimes of the corporation calendar. After long years of the Standard Oil Company's leadership of the President of the United States, the corporation is at last dragged to the bar of justice to answer for its misdoings. The whole strength of the government is directed against it, and at last we are told the Standard Oil Company will be convicted of having failed to verify the statement of a rate clerk, and is forthwith fined a prodigious sum, measured by the car. Under the old criminal law, the theft of property to the amount of two dollars and over was by death. Under the interpretation of the Interstate Commerce law by Theodore Roosevelt and Judge Kenesaw Landis, a technical error of a traffic official is made the excuse for the confiscation of a vast amount of property.

age of seventy-five years. Colonel Hood was a native of Southampton county, Va., and was colonel of the 1st Virginia Cavalry, and was a brave and gallant soldier throughout the war. He was brilliant. The colonel had been in the best health for several years, but had suffered an attack of paralysis from which he never recovered. His remains were brought to Henderson on Tuesday and interred in the cemetery.

He is survived by two sons—Mr. Morgan L. Hood, of Henderson, and three daughters—Mrs. Jas. L. Farham, of Granville, and Misses Emma and Mary Hood, of Washington, D. C. James W. Hogner. [Special to The Times-Dispatch.] LYNCHBURG, VA., January 17.—A telegram received in the city early this morning announced the death in Baltimore of Mr. James W. Horner, at the residence of Mrs. James W. Horner, at 1414 North Main Street, in that city, aged sixty-seven. Mr. Horner was a native of Lynchburg, and was a son of the late James P. Horner. His early manhood was spent here.

About thirty-five years ago he moved to Baltimore, where he engaged successfully in the wholesale clothing business. Mr. Horner was a brave and loyal Confederate soldier, being a member of Kirkpatrick's Battery. He was never married, and is survived by one sister, Mrs. A. V. Dunington. The remains will be brought here for burial.

Major D. H. Druin. [Special to The Times-Dispatch.] SPOTSVYLVANIA, VA., January 17.—Major Don M. Druin, of Missouri, died at a few days since of pneumonia in that State. Major Druin was visiting in Virginia at the outbreak of the Civil War, and enlisted and did military service for several years. He was until the strife began to wax warm in his native State, when he went to England, being in the service of the General Sterling Price and other Confederate leaders till the end of the war. He was a civil engineer at the time of the construction of the railroad service. The particulars as to whether he left a family have not been ascertained.
