

WOMAN ON TRAIN PUT UNDER ARREST AS MRS. GUINNESS

(Continued From First Page.) detailed to search neighboring farms for information regarding Mrs. Guinness's establishment. The others are working under the direction of the sheriff.

The woman frequently changed her signature, sometimes signing "Guinness" and often writing "Guinness." The generally accepted spelling of the name however, in Laporte, is "Guinness."

Search at Austin. It became public to-day that Roy Lamphere made a statement to Mayor Darrow, who is the partner of Lamphere's attorney, a day or two ago, that a man from Chicago, whose name he did not know, came to the Guinness farm several months ago and remained there for several days. He disappeared suddenly, leaving a trunk and a few belongings behind.

From Lamphere questioning Mrs. Guinness as to what had become of her visitor, she replied that he had come South for his health, and that probably he would not return. She ordered Lamphere to carry the trunk and other effects of the stranger to an upper story of the farmhouse.

Nothing was ever heard of this person after he left the Guinness place, and he is supposed to have met the same fate as those whose bodies are now being dug up at the Guinness farm.

The Search at Austin. The local police decided to-day that they will not dig up the premises occupied by Mrs. Guinness in the suburb of Austin until they have received some further proof that crimes were committed while she lived there. There is at present no evidence in that direction.

Say Max Sorenson Was Murdered. PROVIDENCE, R. I., May 8.—Ivan Sorenson has asserted his belief that his brother, Max Sorenson, formerly of this city, was killed by his wife, Mrs. Bella Guinness, of Laporte, Ind. Relatives of Max Sorenson, who died suddenly under suspicious circumstances at Austin, Ill., say that they spent

a small fortune in attempting to obtain the woman's arrest on a charge of murder, but failed through the apparent lack of interest by the authorities in the Chicago suburb. It is also asserted here that Max Sorenson was murdered through the medium of a poisoned cup handed to him by his wife, and that with his last breath he accused the woman of the deed.

News Gathered From Southside..

As a result of a discussion over the ordinance introduced some time ago, combining the offices of Sealer of Weights and Measures and Weighmaster, Councilmen W. B. Bradley and R. Brown made some proposals at the meeting of the City Assembly last night, and only the intervention of friends prevented trouble.

Mr. Brown brought the matter up and asked that the body take some action upon it. To this Mr. Bradley objected, wishing to give the committee, which was then considering the subject, more time. While Mr. Brown was on his feet Mr. Bradley jumped up and made a motion that the matter be passed over. "I have the floor, I think," said Mr. Brown. Well, say something," replied Mr. Bradley. "We don't want a figure head upon the floor," "I am sure," answered Mr. Brown, "that there is no greater figure head in this Council than Mr. Bradley." Quickly jumping to his feet, Mr. Bradley inquired of the chairman what remark Mr. Brown had made. Receiving no answer, he rushed over towards Mr. Brown's seat. Mr. Brown stood in a defensive attitude and awaited his coming. Several members stood between the two, and President Reams called upon the sergeant at arms to remove order from the hall. Reams had somewhat subsided, Mr. Bradley dropped into the seat next to Mr. Brown, where he sat during the balance of the meeting, and the incident was soon forgotten.

Said for Hoke's Pokey. An art in his little diversion the meeting was practically without debate, though a short discussion was brought on by an ordinance raising the license of peddlers of certain articles to \$50. Said to say, under this list comes the hoke pokey man. Mr. C. C.

Jones did not see why the license on this man, who peddles ice cream to the children at 1 cent a block, should be raised so much. He asked what license was paid by the ice cream dealers who sold it at 5 cents a saucer, and was told \$5. Mr. Jones could not see why there should be such a vast difference, and he fought the proposition. As a compromise, the regular ice cream dealers' license was raised to \$10, while the hoke-pokey man was put out of the business at the prohibitive price of \$50 per year.

\$500 for City Attorney. An important ordinance passed was a raising of the salary of the City Attorney from \$3,000 to \$5,000. The Finance Committee recommended \$500, and on a motion of Mr. Bradley the extra \$200 was put on and the measure passed without opposition. This is an increase of \$400. On an ordinance laid over from the last meeting, which was taken up and adopted, the Street committee gets \$4,000 for improvements. The proposition presented by the Southside Water and Sewerage Company was rejected on an unfavorable report from the Building and Lands committee, which has had the matter under consideration for the past few weeks. The question of water rationing, as it has been constantly before the public for some time.

Mr. D. L. Toney presented an ordinance requiring peddlers of fish, vegetables, etc., to pay a tax of 25 cents each wagon per quarter, but it was shown that this class of merchants already paid \$100 for transacting their business, and the motion was laid on the desk. When Mr. Toney's resignation was again brought up, it was, by unanimous vote, laid over until the next meeting. After hearing various committee reports and a communication from the Board of Water Commissioners the Council adjourned.

Wants to Install a Crematory. A representative of a firm that installs crematories appeared before the members of the City Assembly last night after the meeting had adjourned, and with blue prints, drawings, and statistics showed the advantages of the system which he wishes to install. It was explained by Mr. Nutting, who represents the firm, that no coal would be used for consuming the garbage, which would burn itself by forced draught, and that from the steam thus generated a municipal lighting plant, consisting of 100 arc lamps, could be run for eight hours a day. When the day's garbage supply had been entirely consumed the generator of the lighting plant could be switched to another boiler and the lights furnished by motive power generated by coal for the balance of the time that lights were desired. The original cost of installing the plant would be about \$50,000, and the running expenses after that would be only a small amount. The Board of Health is in favor of the plan and it will probably be considered about the middle of next month. Delegates to Reunion Apportioned. Joe Johnston Camp, Confederate Veterans, met Thursday night, and after a lengthy discussion as to the ways and means of raising a sum sufficient to carry the camp to Petersburg on a special trip, decided, owing to lack of work and tightness of money at present, to drop the matter for a while. Many of the old veterans are temporarily out of work and were unable to promise any contribution towards the trip at present. It has not been entirely abandoned, however, and will be taken up later by the camp. Besides this discussion other routine matters were enacted and delegates to the United Confederate Veterans' Reunion at Birmingham, Ala., were elected. B. M. Robertson and R. A. Bauch were chosen as delegates, and they appointed as alternates E. J. Howlett and C. P. Waltham. Horse Hauls in Front of Car. While crossing Hull Street at Tenth yesterday evening, Mr. John Martin, a rural mail carrier, who was driving a young horse, narrowly escaped injury. Mr. Martin had almost cleared the track in front of a moving car when the horse balked, and before the motorist, who saw the danger, could bring the car to a stop the vehicle was struck. However, the car was barely moving, and no damage was done. The survey was lifted clear of the ground by the frightened driver, the horse, becoming for a few moments, looked as if damage might result. After becoming clear of the tender Mr. Martin, who was not the least bit disconcerted by the accident, drove off, with the horse plunging frantically at every stride. Schools Closed.
