

### NEW BUILDING AT NORMAL INSTITUTE

Important Addition to This Negro Industrial Institution, Near Petersburg.

### MEMORIAL TO NOBLE SONS

Pagoda Stand Erected at Blandford in Memory of Petersburg Soldiers.

Times-Dispatch Bureau, 109 North Byramore Street, Petersburg, Va., July 9.

Important improvements are being made at the colored State Normal and Industrial Institute near this city. Among these is the erection of a brick building 100x50 feet, to be known as the agricultural and industrial building, and to cost about \$14,000. It will be completed and equipped by the 1st of November. The cellar of this building, which will have a granolithic floor, will be used for a dairy, cheese and butter department, where the students, under a practical and experienced instructor, will be taught the art of handling milk and making cheese and butter. The floor above will be used for instruction in currenting, blackening, chair caning and basket making. On the top story will be thirty-six dormitory rooms for the seniors in the female department. The institute has a farm of sixteen acres under cultivation, but the board of visitors contemplates purchasing additional farming lands in the vicinity. Instructions in the institute, which formerly embraced a higher education, has gradually been brought down to a practical industrial system, and in this line has accomplished a great deal of good.

### Interesting Dedication Ceremony.

The Ladies' Memorial Association of this city has had erected on "Memorial Hill," in Blandford Cemetery, a handsome and costly iron pagoda stand as a permanent memorial of the soldiers of Petersburg who fell in the war of 1861-1865. This stand will be dedicated with impressive ceremonies on the 20th of July, the anniversary of the battle of the Crater, in which the Petersburg troops took active and prominent part. Through the president of the association, Mrs. Louis L. Marks, an invitation was sent to Colonel W. Gordon McCabe, of Richmond, to deliver the dedicatory address. A letter has been received from Colonel McCabe, in which, among other things, he says: "It would give me the most unaffected pleasure to perform this service for the women of the Ladies' Memorial Association, from whom I have received so many tokens of generous partiality, and a majority of whom are old and valued personal friends, but I am sailing for Europe on Wednesday, the 11th instant, to be gone several months, and am, therefore, unable to accept the most flattering invitation. No city in ancient or modern times ever sent forth to battle more superbly gallant troops than did this heroic Virginia town (Petersburg), and none were ever worthier of commemoration for all time by the women of the South."

Much regret is expressed at Colonel McCabe's inability to deliver the address.

### Sudden Death of a Young Man.

Mr. Don Hishop, only son of Mr. and Mrs. Carter R. Hishop, died quite suddenly of heart disease last night at the home of his parents, on Marshall Street, aged twenty years. His health had been delicate for some time on account of heart trouble, but he was able to be out and about until the fatal attack. The young man was genial and kind-hearted and a favorite with all who knew him.

Mr. Charles E. Davis, a respected citizen and merchant, died last night at his residence, corner of Halifax and Haring Streets. He was esteemed in the community for his integrity and upright character. He is survived by his wife and two children—Ernest S. and one daughter, Miss Alma B. Davis.

C. The

### THE TRUTH ABOUT KIDNEY TROUBLE

(ALBUMEN AND CASTS.)

People have been led to believe that the strains and backs in urinary sediment means disintegrating kidney tissue (otherwise known as casts), and have been frightened into the belief that this means death.

As a matter of fact casts can not be seen with the naked eye, only through high-power microscope, and even when found they are no longer evidence of absolutely incurable cases. In those cases in which the degeneration has not proceeded so far but what if healed the kidney can still perform its functions the albumen and casts respond as quickly to the reduction of the inflammation by Fulton's Renal Compound as the other symptoms, and the microscope will show the casts to be less in number week by week until the inflammation and albumen have completely subsided.

Asksed what percentage of kidney cases that show casts have enough of the kidneys left for the patient to recover, we would say that the percentage in cases beyond recovery is small. One of the reasons for this belief is that there are very few records in the "Text Books of cases in which the autopsies disclosed the nearly complete dispersion of the kidney. Such are rare. Then again, many of the recoveries in cases that show casts and albumen that this also sustains the above conclusion.

The high efficiency of 87 per cent. heretofore established by this Compound was in a line of cases, were considered chronic and incurable.

### HEARING PUT OFF IN JARRATT CASE

Officials Reticent as to Time and Place, and It Is Thought Demonstration Is Feared.

[Special to The Times-Dispatch.] SUFFOLK, VA., July 9.—The preliminary hearing of Captain James Waverly Jarratt, principal, and Thomas L. Smith, aggrieved accessory to the killing of Policeman George T. Smith last Saturday, was set for 10 o'clock today, but it did not occur, the absence of witnesses being given as the reason for a continuance.

The authorities are reticent as to the time and place of the examination. They are fearful of a possible demonstration from the public in case a large crowd is present, and are using precautionary measures.

It is believed that the hearing, when it is called, will not be held publicly in the Police Court room, but probably at the county jail or county courthouse, in the same lot.

Neither the Mayor, police chief nor Commonwealth's Attorney could tell the exact time and place of the hearing, when seen today.

Captain Jarratt has not yet secured counsel, and the court likely will assign him an attorney. R. W. Withers will represent Smith.

### MADSTONE USED ON BOY

Lad Bitten by Dog Supposed to Have Been Mad.

[Special to The Times-Dispatch.] SMITH'S CROSS ROADS, VA., July 9.—The eldest son of Mr. Litt Pearson, who lives with his parents near here, was bitten yesterday by a dog supposed to have been mad. The boy caught the dog with the intention of confining him in an outhouse, he having shown a disposition to run from home, when the dog suddenly caught him by the leg, only one tooth, however, entering the skin.

Mr. Pearson immediately took the boy up to the residence of Mr. J. S. Gordon, near Baskerville, who has what is known as a mad-stone, which was soon applied. The stone adhered without trouble, and it is thought that the boy will be all right in a few days. It is claimed that these mad-stones will draw out all poison by continually applying same, and when the stone falls to adhere to the part affected that this is conclusive evidence that no trace of poison is then left.

Williams, cashier of the Bank of Chase City, was driving out yesterday with his little son his horse became frightened at the approach of the military company of this place going out along the public highway to a barbecue and target practice. Mr. Williams got out of the buggy with his son, and attempted to hold the horse until the company passed, but the animal became more restive, got loose and ran away, the buggy striking Mr. Williams and passing over him, causing painful injuries. Central American Diplomats Talk Matter Over With Secretary Bacon.

WASHINGTON, D. C., July 9.—All the Central American diplomats in Washington, except Senator Uzarate, of Honduras, and Ambassador Creel, of Mexico, discussed the situation incident to the revolutionary outbreak in Honduras with Acting Secretary Bacon at the State Department today. Both the United States and Mexico are pressing upon the Central American countries the necessity of absolute neutrality in the pending trouble in Honduras, which, according to the treaties ratified by the Central American Peace Conference at Washington last winter, was declared to be neutral ground. A report that one of Nicaragua's war vessels had sailed for another Central American port, presumably Amapala, Honduras, caused some consternation among Central American diplomats.
