Road Work Begun.
[Special to The Times-Dispatch.]
LEESBURG, VA., March 27.—The road board of Jefferson district, with the approval of the State, amounting to \$9,990, supplemented by \$2,000 from private sources and the treasury of the district road board, has begun the macadamizing of the road leading from Paeonian Springs to Waterford. This is the beginning of a plan to improve all the principal roads of the county under the supervision of the road authorities and the State Highway Commissioner, Mr. Wilson. The distance is thirty miles, and the route is the most traveled one in the county.

Palmer—Hess.
[Special to The Times-Dispatch.]
LEXINGTON, VA., March 27.—Miss Sallie Rebecca Hess, daughter of Mr. and Mrs. M. J. Hess, was married Wednesday morning to Frank Elmer Palmer, of Harrisonburg. The ceremony took place at the home of the bride's parents on White Street, Lexington.

Pimpily Pretty Faces

May Be Made Clean and Clear by Using Stuart's Calcium Waters.

Trial Package Sent Free.
Pretty faces are daily seen about us marred and marked with pimples, blotches and eruptions. There is absolutely no necessity for this condition being so exceedingly prevalent. Pimples and skin troubles show that the blood is impure, and its forcing its impurities into the pores and glands of the skin, there festering and breaking out at last into many eruptive disorders.

Don't Mar Your Beauty by Neglect.
Stuart's Calcium Waters Sent Free for Trial.
Calcium Sulphide is one of the greatest blood purifiers known to science, and is so powerful that in a few days, the most disfiguring conditions of skin disease are removed, and pimples and ordinary skin troubles have been removed in a few days.
Stuart's Calcium Waters contain the finest purifier and preserve its full strength in the peculiar process called "Stuart's." Combined with the Calcium Sulphide are three other great blood purifiers, each doing a special work intended for rapid and complete mastery over blood impurities and skin diseases.
By using Stuart's Calcium Waters in a few days one notices the good effects, and in a short time the blood responds quickly and purges itself of its irritating and impure parts.
These waters are not experimental; they do their great work so fast and are so uniformly successful that they are known by every hairdresser and by every druggist. Physicians will tell you of Calcium Sulphide, and how hard it is to prepare it to hold its full strength. Stuart has solved the question with Stuart's Calcium Waters. They sell at all druggists for 50c, or send us your name and address and we will send you a trial package by mail free. Address: F. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich.

The other attendants were Miss Amanda Riffe with Franklin Hess and Miss Clara Hess with Victor Heatwole.

Russell—Dawson.
[Special to The Times-Dispatch.]
CHARLTON, VA., March 27.—Mrs. M. J. Dawson, of Danville, and J. T. Russell, of Paces, were married at Hotel Chatham Friday morning. Rev. Mr. Gaston officiating. They left for their home on the afternoon after the ceremony.

Approaching Marriage.
[Special to The Times-Dispatch.]
LEXINGTON, VA., March 27.—Mr. and Mrs. Frank T. Glasgow have announced the approaching marriage of their only daughter, Miss Frances Glasgow, to Edwin Carter Landis, of Detroit, Mich. The marriage will take place Tuesday afternoon, April 6, at 2 o'clock, at the home of the bride's parents on White Street, Lexington.

Taken in Stafford County.
[Special to The Times-Dispatch.]
FREDERICKSBURG, VA., March 27.—The remains of Gordon Shillings, formerly of Stafford county, recently of Alexandria, who was killed at the Potomac freight yard at Alexandria yesterday while assisting in unloading freight, were brought here to-day and taken to his old home in Stafford county for interment.

Electric Railway Wanted.
[Special to The Times-Dispatch.]
LYNCHBURG, VA., March 27.—An effort is being made in Bedford county to cause a sentiment for the construction of an electric railway from Bedford City to the Virginia Railway. It is reported that the Virginia Railway is interested in the project.

Fruit Abundant.
[Special to The Times-Dispatch.]
LYNCHBURG, VA., March 27.—A report from Amherst county is to the effect that early peach and pear blossoms were killed during the past week. Present indications, however, are that there will be a large crop of late fruits.

SELECTING SEED CORN.
Proper Planting Now Recognized as of the Utmost Importance.

[Special to The Times-Dispatch.]
MOUNT LAUREL, VA., March 27.—Probably there has been no more thoroughly enjoyed meeting of farmers in Halifax county for several years than the corn meeting held on the farm of W. H. Doris, of Mount Laurel. T. O. Sandy was the central figure, and his talk in part was as follows:

"For the amount of labor involved, no work upon the farm pays a better return than seed selection. Within a seed is the minute germ that has all the characteristics of the preceding generation. It is the germ that has been selected by previous culture, soil, climate and selection have given it, and these it transmits to the future plants. In addition, the seed contains a little food to help the germ until it can get established in the soil.
"While the types in seed are persistent along the same lines, within these limits they admit of great modification by selection and cultivation. When a farmer buys a high-grade seed at a large price, he is simply paying another man for using his brain to do what he can do just as well if he will.
"Corn is one of the easiest plants to modify. The farmer has to deal with, and there is no plant that will respond more quickly to intelligent change of climatic or soil conditions; hence, it is very difficult to predict that the best variety at one place will prove to be the best in another locality. The operation of these facts often accounts for the great number of disappointments experienced in purchasing new varieties of seed-corn, and emphasizes the importance of at least one farmer in each community making it a business to select his seed-corn with a view to obtaining the best variety for his section. In fact, this improvement of corn by selection is so simple that there is no reason why each farmer should not give it his attention. Unless this is done, seed will soon 'run out,' and it is constantly necessary to purchase improved seed-corn if it is desired to obtain the best results.
"Without going into the reason for it, the following is a brief outline of just how to select seed-corn:
"The corn it is desired to improve should be planted on a specially prepared plot and well cultivated. When the plants have started to throw the field and remove all plants that have not started an ear. After this, and before harvesting, go through the plot carefully and select the best stalks, marking them so they can be readily distinguished.
"An ideal stalk is one without suckers, thick but not with developed roots as shown by its vigorous growth, and bearing a good ear or ears about four feet from the ground. The stalk, when mature, should be between eight and ten feet high.
"If it is desired to produce an early variety, only those stalks that mature first should be marked.
"Select stalks that are free from smut or disease and are not in the immediate neighborhood of other stalks. The stalks should have two good ears upon shanks four or five inches long, and these ears should show a decided tendency to turn down."

Death Is Expected.
[Special to The Times-Dispatch.]
STAUNTON, VA., March 27.—Captain Garrett G. Gooch, well known throughout the State, who has been in poor health for several years, was paralyzed on the right side yesterday, and his death is momentarily expected.

Mrs. Hamlet Found Dead.
[Special to The Times-Dispatch.]
LYNCHBURG, VA., March 27.—Mrs. Carrie E. Hamlet, wife of E. T. Hamlet, and mother of three small children, was found dead this morning by one of the children. Death was due to natural causes. Mrs. Hamlet was thirty-five years old, and well known in the city.

May Call Dr. W. W. Hamilton.
[Special to The Times-Dispatch.]
LYNCHBURG, VA., March 27.—The pulpit committee of the First Baptist Church to-morrow will recommend to the congregation that a call be extended to Dr. W. W. Hamilton, of Atlanta, Ga., who has just pastored was McFerrin Memorial Church, Louisville, Ky. He would succeed Dr. Carter Helm Jones of Oklahoma City.

Redded Without License.
[Special to The Times-Dispatch.]
CULPEPER, VA., March 27.—Town Sergeant Holt, of Culpeper, went to Midway yesterday and arrested S. and J. Steinberg, of Baltimore, on the charge of peddling without a license. He brought the prisoners to Culpeper on Southern train No. 15, when they were immediately tried by Magistrate W. P. Hill, who fined them \$15 and costs. Steinberg is a merchant of Culpeper, who is the complainant.

Government Examining Conditions About Yadkin River.
[Special to The Times-Dispatch.]
WINSTON-SALEM, N. C., March 27.—Bald Whitford, of the United States Engineering Department, has been in this section several days, seeking to ascertain by consultation with well informed citizens, as well as by personal investigation and examinations, the approximate amount of deforestation which has taken place in Wilkes and adjoining counties during the last twenty years. This is with a view to determining how this clearing of land has influenced the water levels in the Yadkin river, which has caused the disastrous floods and at other times unusual and long periods of low water, or if it has not to find out what has caused the present conditions. The government proposes to seek some means to prevent such disastrous overflows of the Yadkin as are now occurring almost yearly.

TO PREVENT FLOODS.
