

Items and solve them in a spirit of justice, fairness and equity to the Government's address, though his remarks were not extended.

Dr. Kilgo's Response. Dr. Kilgo responded obediently to the Governor's address, though his remarks were not extended.

"We appreciate more than I can tell your splendid address, and our board and conference to your city and State," he said in opening.

"There is no Southerner who does not feel that there is something of an ownership in Virginia, and especially Richmond.

"We are a board charged with very grave duties. Our work is an international work, and ours is probably the first international board of education that ever met in Virginia."

Dr. Kilgo reviewed the history of the board as illustrated by the work it had accomplished. Continuing, he said:

"There isn't on this continent a more effective educational force than the Methodist Episcopal Church, South. It assemblies every week 20,000 audiences, and the ablest are continued to no particular class.

"The Methodist preacher with his saddle-bags was studying the period on the subject of education long before these modern educational institutions were established. The Methodist Church is of education that ever met in Virginia."

"Prominently displayed are the celebrated 'Likly' Trunks. We have Trunks, Bags and Cases from the leading factories of the world, so you're always sure of the latest creations as we buy from manufacturers direct—no middlemen's profits figure here.

"Come and see. We have Trunks, Bags and Cases from the leading factories of the world, so you're always sure of the latest creations as we buy from manufacturers direct—no middlemen's profits figure here.

"What the Church is Doing. I believe that if our nation is ever thoroughly united in a fraternity of heartfelt love, it will come through the schools and colleges of the country."

In referring to the work of the board, Dr. Kilgo gave the following interesting statistics: "One university, twenty-one classified colleges, 175 secondary schools, doing one to two years of college work. Value of buildings, \$1,664,421. Value of endowments, \$299,216.

Total value of all property \$1,963,637. Number of teachers, 1,913. Number of students, 35,894. Amount spent last year, \$701,840. Dr. Stiles' Address.

The striking feature of the evening was an illustrated lecture by Charles Wardell Stiles, Ph. D., chief of division of zoology, United States Public Health and Marine Hospital Service, on "The Malaria Problem of Certain Cases of Backwardness Found in Some of Our Rural School Children."

WE KNOW YOU ARE NOT FROM MISSOURI, but let us show you the best lot of TRUNKS, BAGS and SUIT CASES you'll likely find anywhere.

IN FINE CONDITION Reports Made at Meeting of Methodist Education Board Are Satisfactory.

The fourth quadrennial session of the board of education of the Methodist Episcopal Church, South, was held at Broad Street Church yesterday, all the members being present except Bishop Galloway, who was detained at his home on account of illness.

The board is composed of seventeen members who are scattered over a wide territory in order that the work of education throughout the South may be thoroughly looked after in each State. One member comes from Oklahoma and another from as far as California.

The chief business transacted yesterday related to the reading and adoption of the reports of officers and committees. These showed the board to be in good condition financially and in every way, and that the work was being pushed in a systematic and successful manner.

The report of Rev. J. M. Hammond, Bishop of Nashville, secretary of the board, is a lengthy document, showing in detail what has been accomplished since the last meeting.

POLITICAL IDEAS, MUSSELMAN PIETY (Continued from Page One—Column 1.)

tion be concentrated on the immediate frontier without delay, ready to cross at a moment's notice. Cavalry which is now in readiness at Julia will make a forced march to Tabriz.

All steps have been taken in full accord with Great Britain, which has given Russia a free hand. It is not expected by the foreign office that any international complications will follow the killing of H. C. Baskerville, an American school teacher, who was killed at Tabriz. The American consul had forewarned Baskerville that he was forfeiting his right to American protection by joining the nationalists. The British consul gave similar warning to the English correspondent Moore, who is now Satar Khan's principal lieutenant.

American School Teacher Killed. TABRIZ, PERSIA, April 21.—In the sortie from this city yesterday the nationalists shot sixty men killed and

100 wounded, among them H. C. Baskerville, an American school teacher, who died in his life.

The armistice arranged by the Shah for the purpose of bringing in provisions is not regarded with enthusiasm here, as the absence of transports makes provisioning the town very difficult.

Relief Expedition Postponed. TIFLIS, April 21.—General Shnarsky, who was in command of the Russian expedition to march to the Caucasus, has been postponed on account of the armistice granted by the Shah. The vanguard consisting of the Third Battalion of Caucasian Riflemen, is now camping near Julia, near the frontier. In readiness to march, the expedition will be accompanied by a detachment of artillery, engineers and field telegraphers.

Hopes for Sortie. LONDON, April 21.—The Chronicle's Tabriz correspondent says that H. C. Baskerville, the American who was killed in the sortie, had been training bodies of men to raise the siege. They arranged a series of sorties, but they were all frustrated by the armistice. Later they took counsel again, and in respect to the armistice decided it was imperative to make an attack. Baskerville and his companion opposed the idea, but the expedition was determined to proceed. When they reached within striking distance of the enemy Baskerville's 150 men had killed the colonel and a large number of young Turk officers, as well as the Mayor.

Advices from Uskup, 100 miles from Salonica, says that the rioting has spread throughout the whole of Northern Macedonia. Eight thousand armed Albanians have overrun the country and bodies of troops remaining in the country and Christian families are fleeing. Crowds are taking refuge in the Greek islands. The Greek committee in Turkey is organizing 10,000 volunteers, who will march to the scene of the trouble and suppress the rioting instead of proceeding to Constantinople.

CONSTANTIA IS DUE. The American revenue cutter Tacoma is due to arrive shortly at Gibraltar on her way from Baltimore to Puerto Rico. She is a 1,000-ton vessel, and carries an effective battery, and as she is well adapted to service in Turkish waters, she is expected to reach the Syrian coast long before the cruisers Montana and North Carolina, ordered there from the West Indies.

ALARMS CITY Ice Jam Causes Great Fear to Residents of Niagara.

NIAGARA FALLS, N. Y., April 21.—Ice at the mouth of Niagara River, between Fort Niagara and Niagara-on-the-Lake, Ont., has jammed until apparently the mass rests on the river bed, preventing the water passing to Lake Ontario.

Up the river at Lewiston, seven miles from the fort, the ice and water have risen to the highest point ever known by white men. Great masses of ice are coming down the upper part of the river. It is so surprising that fears are now expressed in this city that the ice may jam at the falls, and the water will divert the great river across the lands east of the city, with a possibility that the city of Niagara Falls would be completely isolated.

The water is a little higher, if anything, than it has been for some time," said Proprietor Cornell, of the Cornell House.

The situation is growing worse. The ice is breaking up and the water recedes it may not. "The river is certainly rising now."

FEAR THE BREAKING. LEWISTON, N. Y., April 21.—The great ice jam still seals the waters of the lower Niagara River. In twenty-four hours the tremendous mass has not moved forward a hair's breadth.

Residents and property-owners all along the river are in a state of alarm. In the huge mounds of ice at the head of the Bridal-Veil Falls, where the body of a supposed suicide had been exposed, the water level is rising. It is feared, in sudden rush, acres of territory along the upper banks of the river.

ALBANY, N. Y., April 21.—With the approval of the War Department and Governor Hughes efforts will be made to attempt to break up the ice jam at Niagara by the use of dynamite.

The report of Superintendent Stevens by experts in the use of explosives, detailed to make an examination of the river, stated that the ice was twelve miles long and sixty feet high; that damage was being done at a rate that something must be done at once. They recommended the use of dynamite.

TO USE DYNAMITE. LEWISTON, N. Y., April 21.—With the approval of the War Department and Governor Hughes efforts will be made to attempt to break up the ice jam at Niagara by the use of dynamite.

Tennis

New Stock Highest Grade Rackets, all weights and grades. Tennis Nets, \$1.00 to \$5.00. Balls, 25 and 40 cents. Shoes, 75 cents and \$1.25 pair. Get our free book on "How to Mark a Court."

McGregor Clubs with Red Galf Grips. Complete line, and McGregor Club is the Very Best.

Baseball

Shoes, \$2.00 to \$7.50 pair. Boys Suits, \$1.00. Special prices to teams.

Watkins-Cottrell Co.

1311 East Main Street. Tennis Rackets Restring.

Should it continue, there is no telling what will take place before daylight. War Department Asked for Aid. President White, of Lewiston, has wired Governor Hughes, asking if he can suggest any plan of action that threatens. Collector Merritt, of this port, has wired the Secretary of War, asking for aid. The United States engineers stationed at Buffalo are authorized to send tugs laden with dynamite through the Welland Canal to the mouth of the Niagara River, and to dig a trench in the river bed to prevent the ice from blocking the river.

At the town of Youngstown the ice, which has been six feet thick, is wedged tight against the bottom of the stream and is jammed against the rocks. The water level is high and ice from above this lodged low is powerful enough to shove it aloft, property on both shores will suffer.

Engineers to Do Their Best. WASHINGTON, D. C., April 21.—At the War Department to-day it was pointed out that there was little, if anything, the government can do to help the situation. The only thing that can be done is to let the engineers do their best.

Still, whatever help the army engineers can give, they will be glad to do it. The local officials in the effort to save the property adjacent to the river.

Mr. Bohmalk would prosecute. When Wood Briggs, the son, asked that the ball be made low.

"The lowest possible, \$100," responded the magistrate. "Can you get some one to go on the bond?"

"I am one," responded Mr. Mayer at this point, addressing the magistrate. "Was in his time one of the most eloquent and stirring of pulpit orators. When I was rather a wild young man in Galveston I happened one day to go into one of his Bible classes. When he said and the way he said it gave me a new purpose in life. I was converted and became a Christian under his ministry. I was distressed, as you may imagine, when I read in the papers this morning that he had been arrested. I hastened here to do everything in my power for him. I want to repay him in some measure at least for what he did for me."

The minister listened with astonishment. "Who are you?" he asked, his voice trembling with emotion. "I am one who knew you when your chief aim was to help others, and you were a leader in your denomination," replied Mr. Mayer, "and I hope to set you on your feet again."

Mr. Mayer promptly signed the ball bond and the father and son with the benefactor left the court. When Mr. Briggs could control his emotion sufficiently to speak he insisted on Mr. Mayer's recalling the circumstances of his conversion, hoping to be able to recall him to memory.

Mr. Briggs was graduated from the University of Alabama in 1878. In a few years he was preaching in Alabama as an evangelist had won for him recognition as one of the foremost ministers of his denomination in the South, and he was assigned to one of the largest and richest churches in New Orleans. For twelve years he was honored as a minister, but his health gave way, and he began to drink, finally retiring from the ministry.

After a time he turned up intoxicated one night at the old Jerry McAuley Mission in Water Street. He was asked to tell his experience. The details of the mission did not know him, believing him to be one of the usual Bowery derelicts. He was taken to the Bowery, where he was cared for by the old and drunkards who heard him fall on their knees in contrition, while the charitable visitors to the mission marveled at the eloquence of the shabbily dressed man.

PETERSBURG BUILDING SUPPLY CO., Petersburg, Va.

When a few years ago cotton was boosted to the sky, the farmers received little benefit, since it had left their hands. The situation applies now to wheat production. Eventually the public will begin to incur into the vastly increased cost of living in all directions. Then, both cotton and grain growers, and the producers of every other commodity, will come in for adverse criticism, perhaps adverse action, for conditions of which they are victims no less than the consuming public.

It is the intention of the meeting next month at Springfield, to place the growers squarely on record before the world, and to build such a system as will enable wheat to sell for the highest possible figures which it is yet in the hands of the grower. At present the manipulator is about the only beneficiary.

Repeated charges, well known to be baseless by those actually acquainted with the situation on the ground, have been made that the national forests contain vast areas of agricultural land.

Whatever agricultural lands may be found along the streams will be restored to entry, for one of the strongest desires of the forest service now and in the past, is that any agricultural lands which may have been included in national forests should be open to use for agricultural purposes. Indeed, this is already provided for in the act of June 11, 1906. The forest service undertook the mapping of the national forest boundaries on its own initiative in the regular line of its work and in pursuance of general plans laid years ago.

"I have been greatly interested, but not at all surprised by the persistent circulation of these rumors. President Taft's statement to me, coupled with his authority to make it public, should set them at rest once and for all. The present administration is in the fullest sympathy with forestry and conservation. Friends of these movements should recognize their obligations to the President for his prompt and direct support."

Two Men, Two Women and Girl Are Under Arrest. HATTIESBURG, MISS., April 21.—The headless trunk of a white man, found in a dense thicket of the Bouto River, near here, late to-day, has been identified as that of J. B. McShane, who disappeared from his boarding house in this city on Easter Sunday, after his arrival here a few days previously from McShane, Ala., to engage in work as a brick mason.

Letters found in McShane's room are said to show that he had an appointment to meet a woman who signed herself as Minnie Jones, near whom the body was found. Tracks indicate that at least two men and a woman had been on the scene.

Two men, two women and a girl were arrested to-night on a suspicion of being connected with the killing of McShane. They are G. L. Crosby and his wife, Minnie Crosby; E. L. Woodruff and wife and Pearl Woodruff, their daughter.

Minnie Crosby is said to be the woman who sent the letters to McShane, signing herself Minnie Jones.

Run Down Young Inguard Trumble in Streets of New York. NEW YORK, April 21.—William Darragh, a young man from the town of Trumble, Tenn., who was killed in New York City on March 27, in this city, ran down and killed Inguard Trumble, son of Robert Jones, a prominent citizen of Trumble, Tenn., to-day committed to jail on a coroner's jury verdict charging criminal negligence.

Trumble, Darragh fled from the city, but was arrested in Port Arthur, Tex.

DECLINES INVITATION President Taft May Visit Norfolk at Some Later Period. WASHINGTON, D. C., April 21.—President Taft to-day declined the invitation to visit Norfolk on the occasion of his trip to Petersburg, Va., to attend the latter part of May. The invitation was extended by the committee of citizens of Norfolk.

The President felt that he could not be absent from Washington more than two days at the time indicated; but said he would try to visit Norfolk some time in the future.

MRS. I. W. LOOKER DIVORCED. Wife of Diamond Merchant Disproved Husband's Charge of Bigamy. NEW YORK, April 21.—Mrs. Madeline Looker, of 83 St. Felix Street, Brooklyn, obtained an interlocutory decree of divorce from her husband, Irving W. Looker, a diamond merchant, at 21 Maiden Lane, yesterday from Justice Thomas, of the Supreme Court.

The marital troubles of the Lookers have been in court for the last two years, and the suit for divorce begun by Mrs. Looker was bitterly fought by her husband.

THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers of the body, skin affections, catarrhal troubles, weak eyes, and general poor health. The inherent poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the bones or joints developed. S. S. S. cleansed and purified the blood of these children, and in place of their stunted and diseased blood, and cleansed the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S. S. S. contains no mineral in any form, and is an absolutely safe treatment for children, even infants, or persons of any age. Literature about Scrofula or any medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Hunyadi Janos

Best Natural Laxative Water

Do you know that your stomach or bowel trouble and the indigestion that goes with it can be relieved quicker and better by using HUNYADI JANOS WATER than in any other way? It is easily taken—just a glass on arising—and you have no bad after-effects. Your physician will recommend it—and you will be satisfied, as are so many others. Try it yourself!

CONSTIPATION

Advice to the Aged

Age brings infirmities, such as sluggish bowels, weak kidneys and bladder and TORPID LIVER.

Pitt's Pills

have a specific effect on these organs, and in the bowels and bladder to perform their natural functions as in youth and IMPARTING VIGOR to the kidneys, bladder and LIVER. They are adapted to old and young.
