SCROFULA HEREDITARY BLOOD POISON

Scrofula is a disease manifested usually by a swelling and ulceration of the glands, especially about the neck. It is almost entirely hereditary in its origin, being the dregs or remains of some specific blood poison. Where the blood is greatly weakened by the scrofulous poison, the disease attacks other portions of the system besides the glands, and then we see its effects in weak eyes, poorly developed bodies, running sores and ulcers, skin diseases, especially on the scalp, cartilaginous troubles, etc. Scrofula usually makes its appearance in childhood, though manhood or womanhood may be reached before the poison progresses to the stage of outward manifestation. S. S. S. is the one real cure for Scrofula. It is a blood purifier without an equal, and it cures this destructive blood poison by removing every trace of the infection from the circulation. S. S. S., in addition to cleansing and purifying the blood, assists the stomach and digestive members in the creation of new blood corpuscles and other nourishing matter for the circulation. S. S. S. increases the resistive powers of the system and by strengthening and building up the vitality, allows nature to make a perfect and lasting cure.
