Woman's Club.
Mrs. Thomas Gladding, of New York, made a very fine address yesterday afternoon before the members of the Woman's Club on the work of the Young Woman's Christian Association in this country. Mrs. Gladding has a charming personality and her talk at the club yesterday was one of the most interesting lectures given there this winter. Her address was mainly on the association work and the different departments of association work among the college students, working girls, strangers just entering a city, and the recent branches of this wonderfully developed organization. She dwelt largely on the fact that

the Y. W. C. A. was no more a charitable affair than the work done by the blue universities throughout the land and gave as an example the work that is done at Yale \$130 a year more than tuition is spent on each student. At Chicago University \$150 above the tuition fee is spent on each student entered in the institution. Another splendid work that the association is forwarding is a nurses' club in New York, where they can meet in a social way and receive their friends. Chicago and Philadelphia are both asking for branches of this work, and the lecturers hoped that some of the same order might be started in Richmond.

The main force of Mrs. Gladding's argument was based on a quotation from Goethe, "Let not that man think that he shall obtain anything as a solitary reaver; the association exists to get women together on the things that they do believe in and need together."

Hostesses for the afternoon were Mrs. Carlton Jackson, Mrs. Holladay, Mrs. Curry and Mrs. Henry Pierce Atkins.

Nerve Strain
Doctors tell us that a vast percentage of the breakdowns and troubles-to-day are from overworked, undernourished nerves. We Americans strain every nerve in our body trying to make a success in life, and do not nourish and feed our nervous system so as to make it equal to the strain; the result is we are broken down old men and women before we are forty years of age. The nerve tissues must be fed and strengthened, the stomach must be assisted in doing the work of digesting the food, the blood must be enriched and circulation quickened, the body and brain must be invigorated, so that we can withstand the strain and retain health, strength and youth.

Duffy's Pure Malt Whiskey, the world's most reliable tonic-stimulant and strength-builder, is an ideal remedial agent for nervous people or any one under a nervous strain. It quiets the nerves and starts the gastric juices, so that the food can be digested. It is a food in itself that gives strength and fills the blood with bright red corpuscles.

Doctors and other scientists all over America know that Duffy's Pure Malt Whiskey does wonders in aiding the digestion and assimilation of the food and in bringing vigor to the body.

It is sold in SEALED BOTTLES ONLY by all druggists, grocers and dealers, or direct, \$1.00 a large bottle. Look for the "Old Chemist" on the label and make sure the seal over the cork is unbroken. S. A. L. FLORIDA SPECIAL DERAILED
Entire Train Leaves Track, but No One Is Injured.

BISHOP VISITS PETERSBURG
Funds for Needy Confederate Women—Grand Jury Convenes To-Day.

Times-Dispatch Bureau, 109 Sycamore Street, Petersburg, Va., February 13.
The Petersburg, Va. Florida special, which left this city last night at 11:30 o'clock, and which is one of the finest passenger trains on the Seaboard Air Line Railway, was derailed at Burgess, in Dinwiddie county, a few miles from Petersburg, just before midnight. The accident was caused by a broken rail, and the entire train, with the exception of the engine, consisting of ten or twelve coaches and pullman cars, was derailed. The engine promptly reversed his engine, but the train was running at a speed of about forty-five miles an hour, and its momentum carried it along some distance on the ties before it could be stopped. Fortunately the ground was level at this point, and the derailed cars were not overturned, and no one was hurt. The passengers, most of whom were asleep, were awakened and severely shaken up, but not injured. Damage to the train was immaterial. The track is being cleared, and the Florida special will run to-day. The Florida special will run to-day. The Florida special will run to-day.

Needy Confederate Women.
A meeting of Petersburg Chapter, Daughters of the Confederacy, was held this afternoon in A. P. Hill Camp Hall, the president, Mrs. W. F. Jones, presiding and the attendance being quite large. The object of the meeting was to raise funds for the relief of needy Confederate soldiers and their children, of whom there are about 300 outside of the city.

Grand Jury to Convene.
The grand jury of the Petersburg County, after a ten days' recess, following lengthy investigation into the affairs of the old Appomattox Trust Company, will reconvene tomorrow morning to consider its report. The grand jury has not been the least in limitation as to what the nature of the report will be, or whether it will be made to-morrow. When the jury was impaneled over some days ago, the examination of one of the witnesses had not been concluded.

With the exception of the grand jury bank investigation, no subject has caused so much interest and discussion in the county as that of the election of a police commissioner to fill a vacancy on the board. It is believed that there has been a good deal of canvassing in the matter, or that person, whom it is desired to get on the board, and the matter has assumed a serious character. The object of the creation of the Board of Police Commissioners was to remove the department entirely from the sphere of politics.
