WASHINGTON: D.C. February 7.—The following is an extract from the report of the Secretary of the Treasury, submitted to the Senate by the President last week: "The United States Government has not yet been able to negotiate with Canada for the purchase of Canadian timber. The timber industry of Canada is large and of great importance to the United States, and the Government is determined to see that it is properly treated. It is believed that the Canadian Government will be willing to enter into a treaty with the United States for the purpose of regulating the trade in timber between the two countries, and it is hoped that such a treaty will be ratified by both countries."

SLAVES DENOUNCE COUNT APPONYI

As the result of a decision of the Supreme Court of the United States, the Southern Slaves have been freed. The decision, which was reached after a long and hotly contested battle in the courts, is a great victory for the abolitionists and a blow to the slaveholders. The decision is based on the premise that slavery is a violation of the Constitution and that the Federal government has the power to abolish it. The decision has been hailed as a triumph of justice and liberty, and it is expected to have a profound effect on the course of events in the South.

OLD WORLD POLITICS

The latest developments in the European political situation are of great interest. The situation in Germany is particularly significant, as the country is preparing for a general election. The government isexpected to face a difficult task in the election, as a number of the opposition parties are planning to organize a coalition and present a united front against the government. The situation in France is also of great interest, as the government is facing a crisis over the question of the extension of the war. The government has been accused of failing to take adequate measures to prevent the war from spreading. The government is expected to face a difficult task in the coming months, as the situation in the country is likely to become more complex.
