RAILROAD SEEKS AN INJUNCTION

R., F. & P. Takes Usual Proceeding to Avoid Payment of Taxes.

Notice was served on the State Corporation Commission yesterday by A. Caperton Braxton, of counsel for the Richmond, Fredericksburg and Potomac Railroad Company, that application would shortly be made to Judge R. Carter Scott, in the City Circuit Court, for an injunction restraining R. T. Wilson, clerk of the commission, from certifying to the Auditor of Public Accounts the figures on which to base the 1910 franchise tax and property taxes against the railroad. This is done pending an appeal in the United States Supreme Court from a decision rendered by the Virginia Supreme Court, which held that the property of the railroad was subject to taxation, in spite of its charter provisions. The Virginia court, in that decision, reversed the Circuit Court of the city of Richmond.

The proceedings are regarded as largely formal, and the instance of the injunction is anticipated by State officials, as practically nothing can be done to collect the tax until the final decision of the United States Supreme Court is rendered. Should the State win in that contention it would collect a large sum in back taxes. The injunction has been an annual matter since the adoption of the new Constitution.

NEW COTTON CORPORATION

Its Purpose Is to Control Marketing of Crop. Macon, Ga., September 21.—The organization of the Southern Cotton Corporation, with a capital of \$4,000,000, the purpose of which will be to control the marketing of the cotton crop of the South, was announced here by George D. Wadley, of Bowling Brooke, one of the wealthiest men in Georgia. Associated with Mr. Wadley, who will be president of the concern, are prominent business men of this city and Waycross.

The corporation, it is stated, will advance money to farmers on cotton deposits in warehouses up to 75 per cent of the prevailing price of the staple. It is proposed to hold the cotton each year for a fixed price. Organization work, Mr. Wadley stated, had started in 1,000 counties throughout the cotton belt. In each county will be an advisory board, consisting of five business men and bankers and twenty farmers, all stockholders in the corporation. Thus county boards will watch the progress of the crop and report to the main offices in Macon.

ADDRESS BY DR. McDANIEL

Feature of Opening Exercises at Fork Union Academy. [Special to The Times-Dispatch.] Fork Union, Va., September 21.—The Fork Union Military Academy opened its fourteenth session here yesterday under the most favorable conditions. The attendance is the largest in the history of the school, and pupils are still arriving. The formal address of the opening exercises was made by Dr. McDaniel, of the First Baptist Church, Richmond. The faculty of the academy has several new additions this season. Harry Grinnell will again coach the football team. As quite a number of the old football men are back, a strong team will represent the institution on the gridiron.

Bradstreet's Trade Report.

Bradstreet's to-morrow will say for Richmond and vicinity: As a whole trade shows slight improvement as the fall season advances, and the outcome of crops become a certainty. However, there continues a backward tendency, and merchants continue to buy in small quantities rather than place heavy future orders. As is usual, in consequence, house trade and filling orders are above the average. High prices have retarded sales in provisions. However, fruits are plentiful and the winter apple crop is good. Trade at the far South is wearing in shoes, rubber goods and wearing apparel. Trunk manufacturers report good sales, their territory practically covering the whole country. Labor is fairly well employed locally. This is partly due to very active building operations. Rain has benefited late crops and pasture lands, however; the early crops in Virginia are poor. Continued favorable reports are received from North Carolina regarding the cotton crop, and picking is progressing under favorable conditions. Retail trade and collections are quiet.

Rainfall Below Average.

[Special to The Times-Dispatch.] Charlottesville, Va., September 21.—The rainfall for the past three years in this section has been far below the average, as shown by the records of the Leander McCormick Observatory, at the University of Virginia. The average for this locality is 47.30 inches, white, beginning with September 1, 1905, that for each year to the present has been: 1908, 37.04 inches; 1910, 42.28 inches; 1911 (to September 1), 26.25 inches. This shows an average deficiency of 8.78 inches, or a total for the three years of 26.34 inches.

Children Cry FOR FLETCHER'S CASTORIA

POSTPONES DATE OF ELECTROCUTION

Judge Justice Changes Time in Marshall Case—School for Blind Opens.

[Special to The Times-Dispatch.] Raleigh, N. C., September 21.—On account of Friday, October 20, being in the midst of State Fair week here, and for the further reason that Warden T. P. Sales, of the State's prison, wants to be in Omaha, Neb., at that time, attending the National Prison Congress, Judge H. M. Justice directs that the electrocution of Norman Marshall, the negro sentenced in Warren county for assault at Vanocho, shall take place October 27, instead of October 20. This is the case in which the atrocious crime was committed last Friday evening, and the sentence of death was imposed on the following Tuesday, one of the quickest administrations of justice in a North Carolina court.

Dr. A. J. Moncrief, pastor of Tabernacle Baptist Church, in this city, has received a call to the pastorate of the Barnesville Baptist Church, Georgia, and the congregation there is very hopeful of inducing him to accept the call.

The North Carolina State School for the Blind, opened in this city, with an enrollment of 374, and indications are that there will be an enrollment of 400 more before the school year is far advanced.

It is expected that the contract for the erection of the \$10,000 Y. M. C. A. building at the Virginia College of Agriculture and Mechanical Arts, this city, will be awarded soon after October 1. The money for the building has all been subscribed, and the payments are coming in very satisfactorily.

The order of Judge R. B. Peebles for Percy B. Fleming to provide his wife, Mrs. Nell Claire Fleming, with \$75 per month alimony for herself and two children, pending the divorce proceedings she has instituted, has been filed with the clerk of the court here. It provides that in the event Dr. A. H. Fleming into whose custody Chief Justice Walter Clark gave the children, refuses to deliver them to Mrs. Fleming on his order, he shall be arraigned for contempt of court. Judge Peebles is required to give \$500 bond for the production of the children in this county on twenty days' notice. Percy Fleming has just filed proceedings in bankruptcy, and pleads that he has nothing out of which to pay the alimony required by Judge Peebles.

The Corporation Commission has been notified by the Rockingham Railroad Company, extending twenty-one miles from Rockingham, Richmond county, to Gibson, Scotland county, that it will begin October 1 to operate as a passenger-carrying road. The notice came to-day from J. P. Leak, president, and G. L. Hawley, general superintendent. It connects at Rockingham with the Seaboard Air Line, and at Gibson with the Atlantic Coast Line.

Mr. Hunton Claims Corporation Commission Has No Jurisdiction. Argument was continued yesterday before the State Corporation Commission by Eppa Hunton, Jr., in behalf of his motion to dismiss the petition of the city of Richmond and others to require the reopening of the city dock. Mr. Hunton concluded his second argument on his motion, and the commission adjourned to this morning. It is supposed there will be further addresses before the matter is submitted.

Mr. Hunton made the point yesterday that the bondholders of the William R. Triggs Company, now owners of the dock, are not required to keep it open, for the reason that the dock is a basin and not a canal. To sustain his position, he quoted from the original charter of the Richmond Dock Company and from subsequent acts concerning its transfer to successive owners. His point was that inasmuch as the dock is much wider than the old company was permitted to attain in the building of a canal, it must have been intended for a basin and not as a canal. Therefore, as the only purpose of the dock is to permit the loading and unloading of vessels, and not to facilitate transportation through it, the Corporation Commission has no jurisdiction, inasmuch as the owners are not engaged in the business of transportation.

This view will, of course, be combated by the attorneys for the city and for the business people located on the dock, who desire an order to compel the owners to repair and reopen the dock for public use.

WOMAN'S COLLEGE HAS FEW CHANGES. Miss Anderson Becomes Principal—Good Attendance Indicated.

Brief exercises will mark the opening of the Woman's College next Wednesday morning, September 27. The faculty and students will assemble in the chapel, where there will be a short address. Indications are for a larger enrollment of students for the coming scholastic year, including both day and boarding pupils.

But few changes have been made in the faculty since last session. Miss Forbes, former woman principal, has accepted a position with the State Normal and Industrial Institute at Fredericksburg, and is succeeded by Miss Mary Carter Anderson. Miss Anderson held this position some years ago, later teaching in the school, and is regarded as eminently well fitted to conduct it.

Miss Burgess succeeds Mrs. Bivins as teacher of modern languages. In the voice department the faculty has been increased by the acquisition of Mr. Gaibrath.

REUNION OF VETERANS.

Entertained at Bristol by Daughters of Confederacy. Bristol, Va., September 21.—Between 400 and 500 ex-Confederate veterans assembled here this morning for the sixteenth annual reunion of the veterans of Southwest Virginia and East Tennessee. This occasion is celebrated on the third Thursday of September, and this is the sixteenth year in succession that the veterans have assembled here to enjoy a feast of good things to eat and to revel in the memories of the sixties. The chief address of the day was delivered by Dr. J. Lynn Bachman, a noted educator and minister of Sweetwater, Tenn. Dr. J. W. Bachman, for nearly forty years pastor of the First Presbyterian Church of Chattanooga, was also present, and delivered an address, reviewing features of the campaign in East Tennessee in which he participated. The exercises were held in the Virginia Park Pavilion. Following the morning program, the veterans sat down to a notable feast, which had been prepared by the local chapter of the Daughters of the Confederacy.

DISTRESSING CASE OF HIVES CURED

Body Covered with Large Red Marks. Face Also Affected. Cuticura Ointment Eased Skin Right Away and Completely Cured.

"I retired one evening and after sleeping a couple of hours was awakened by a burning sensation all over the upper part of my body. It was just simply terrible and made it impossible for me to sleep the rest of that night, so I had to sit up all night changing my position every couple of minutes. As the hours went by it grew worse and soon I could hardly believe it, but it seemed to ease my skin right away. I kept on using the Cuticura Ointment for a week and can say that it certainly was the finest preparation I had ever used. It completely cured me. I have not been troubled since." (Signed) William Wadman, 120 E. 100th St., New York City, Dec. 8, 1910.

Although Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on the skin and hair, will be sent, post-free, on application to Potters Drug & Chem. Corp., Dept. 23A, Boston.

MAPHIS NAMED AS STATE EXAMINER

Appointed Professor of Secondary Education at University of Virginia.

[Special to The Times-Dispatch.] Charlottesville, Va., September 21.—President Alderman, of the University of Virginia, to-day announced the appointment, by order of the executive committee of the board of visitors, subject to the ratification of the full board at its October meeting, of Chas. G. Maphis as professor of secondary education and State examiner of high schools.

The following appointments of assistants were also given out: Collegiate Chemistry—Gardner Lloyd Carter, of Alexandria; William Andrew Horsley Gantt, of Wingina.

Organic Chemistry—Carrington Williams, of Richmond; Kyle Bear Steele, of Charlottesville.

Instructor in Organic Chemistry—Eugene Price Brown, of Mount Airy, Va.

Charles Moore Maphis is a native of Shenandoah county; attended public and private schools, taught public schools; graduated from Peabody College; was principal of Strasburg High School and conductor of State summer normal at Strasburg; for three years principal of Harrisonburg High School, and instructor in State summer school in 1905 he was appointed a member of the State Board of School Examiners, and has been president of the board since 1908.

As a member of the board he has had a prominent part in the movement which has brought Virginia so rapidly to the front in education. His work has been constructive in character. The plan for securing better school buildings by means of loans from the literary fund, which has been so successful all over the State, was his conception. He has contributed much toward the present efficient system of certificates of teachers, and has assisted in framing every course of study adopted by the State since 1905.

In May, 1909, Mr. Maphis was elected secretary of the Virginia Educational Commission, and has made a valuable report on a mill tax for the educational system of the State, and has in preparation a full report on the coordination of the work of the higher institutions of the State. He has been principal of the Virginia Institute of summer school since 1906, and has shared with the director the work of building it up to its present high state of efficiency. He will also be director of the summer school.

ONE JOB PRINTER IS LOWEST BIDDER. Beats All Others on State Work. Question Now One of Capacity.

Contracts will probably be awarded to-day by Public Printer Davis Bottom for the State printing for the year beginning October 1, 1911, including the printing for the next session of the State Legislature, unless it is decided to open some annual reports. Bids were opened some days ago and Mr. Bottom and his assistant, Mr. Atkinson, have been tabulating them.

The figures of the various bids have not yet been made public, but a somewhat difficult situation has arisen. One Richmond concern, a well known printing house, has been found to be the lowest bidder on every class of the work, and so entitled to as much of the work as it can deliver within the contract time. Probably no printing house in Richmond, unless it died, devoted its entire output day and night, could do all the State work, especially during the session of the Legislature, when much work has to be handled in a hurry.

Mr. Bottom is trying to figure out the capacity of the plant of the lowest bidder and to determine who is the next lower, and so entitled to certain classes of the work which it would be impossible for one house to deliver. In the calls for bids the right was reserved to reject any and all proposals and to award the work in such lots as will give the State the best service.
