- 10c Medicine Glasses.....6 1/2c

TRAGLE DRUG COMPANY, 817-819 EAST BROAD STREET

WALSH ESTATE IS SUED BY DOCTOR

Dr. Wainwright Files Claim of \$42,000 for Medical Services.

Washington, November 15.—The estate of the late Thomas F. Walsh, millionaire mining operator of Colorado and Washington, who died in April, 1910, has sued in the District Supreme Court by Dr. Charles F. Wainwright, of New York, to recover \$42,000 for medical services rendered during the three months preceding the death of Mr. Walsh. The physician's bill was for \$50,000, but he admits receiving \$8,000 on account, the suit being for the unpaid balance.

According to the bill of particulars accompanying the declaration, Dr. Wainwright was called in to see Mr. Walsh January 12, 1910, and he claims his services were continuous up to and including April 8, 1910.

Lawyer Davis's Statement.

Attorney Henry E. Davis, who filed the suit for the physician, said: "The services for which Dr. Wainwright was continuously rendered throughout the period mentioned, in Florida, Texas and the District of Columbia, and involved the devotion of his whole time to Mr. Walsh, to the exclusion of all other practice. The account sued on was rendered to Mr. Walsh's executor, the American Security and Trust Company, which declined the responsibility of paying so large an amount, and negotiations with the executor in the premises having failed of satisfactory result, the suit has become necessary to determine the compensation to which Dr. Wainwright is entitled. It is perhaps unnecessary to add that the matter was fully investigated by me before I consented to bring the action."

Follows Kaveney Verdict.

The suit is against the American Security and Trust Company, executor of Mr. Walsh's estate, and comes upon the heels of the verdict recently rendered in favor of Dr. J. L. Kaveney for \$37,476 against the same company in its capacity as executor of the estate of John E. Herrick, a prominent banker. The amount asked by Dr. Kaveney was almost identical with the balance sued for by Dr. Wainwright.

In that case counsel for the executor told the jury, the company was unwilling to take the responsibility of settling a claim of such magnitude without the decision of a jury.

It is expected the executor will take the same position in reference to the claim of the New York physician.

Other Claims Pending.

The docket of claims in the Probate Court shows that the bill of Dr. Wainwright is not the only doctor's bill against the estate. Dr. Llewellyn F. Barker, of Baltimore, has filed a claim of \$11,500 for medical attention, and Dr. James F. Mitchell, of this city, one for \$2,450.

Physicians' bills are not the largest claims probed against the estate of Thomas F. Walsh. The docket shows an attorney's fee of \$45,852, claimed by D. C. Hansen, a New York lawyer, and a balance of \$16,023.15 said to be owing the executors of T. W. and G. H. Johnston for money loaned.

Mr. Walsh died April 8, 1910, and by the papers filed in the office of the register of wills left an estate exceeding \$5,000,000 in Washington, and the size of his extensive mining interests. Of his local holdings, his real estate is assessed at \$1,519,279, while the appraised value of the securities and personal property is placed at \$3,606,000.

CONTRACTS ARE AWARDED FOR NEW EQUIPMENT

[Special to The Times-Dispatch.] Washington, November 15.—President Finley, of the Southern Railway Company, announced to-day that the company had contracted for 1,700 all-steel 40-ton double drop bottom gondola coal cars, 500 steel underframe 30-ton ventilated box cars, and 250 all-steel 40-ton flat cars.

These additions to the freight equipment of the company are in addition to the purchase just consummated of seven Mikado engines, 600 all-steel coal cars, and sixty-five steel underframe box cars for the Virginia and Southwestern Railway Company.

Gives Lecture on Great Work.

[Special to The Times-Dispatch.] Charlottesville, Va., November 15.—Julian Thornley, a graduate in civil engineering from the University of Virginia, delivered a lecture before the engineering class of that institution to-night on the more significant features of the great hydro-electric plant of Toronto and Niagara power company. Mr. Thornley was placed in charge of this important engineering undertaking shortly after its inception, and carried it to a rapid and successful conclusion.

News of South Richmond

South Richmond Bureau, The Times-Dispatch, 1620 Hull Street, Phone Madison 175.

More than seventy-five enthusiastic boys attended the meeting of the Southside Branch of the Young Men's Christian Association, held in the High School building last night. The meeting is under P. G. Orwig, director of the boys' department in the Central Y. M. C. A., who gave a good talk on what to expect and fully answered all questions put to him by the eager boys. Among the many things promised are all sorts of indoor and outdoor games, and classes for the boys, both afternoon and night. He introduced J. P. Arroll, formerly of the East Side Branch, New York, who will have charge of the Southside boys if the proposed plan succeeds. Mr. Arroll immediately got busy and formed five membership teams, with Arthur Reynolds, Rucker Parkinson, Linwood Rice, J. M. Percival and Daniel Ingram, as captains. Each team will endeavor to bring in a sufficient number of boys to swell the enrollment to 150, the maximum.

Stole Church Funds.

By raising a front room window, some unknown parties entered the home of Meadows Gary, 1103 Everett Street, some time during the early hours of Tuesday morning, and made a haul of a sum of money, thought to be about \$12, the property of the Asbury Church, of which Mr. Gary is the treasurer. Although the house was ransacked, nothing else of value was missed.

Two other small burglaries were reported to the police yesterday. Florence Bowie, 19 East Twentieth Street, reports a stolen from her home a drug-get, valued at \$18, bed clothing and a few dishes.

M. B. Staples, 1523 Porter Street, reports his home being entered and a child's bank, containing \$315 stolen.

No trace of these thieves has been discovered. The robberies are put down as the work of the "barefoot" burglar who has been operating periodically in the suburbs for several months.

Death of P. L. Watts.

Friends in South Richmond yesterday received a telegram announcing the death in Petersburg, of P. L. Watts, a former well-known resident and police officer of Oak Grove. Perhaps it is as the latter that Mr. Watts was best known, as he had a most enviable record, not only in Chesterfield, but with the city police. No details of his death was given, although he was known to have been in bad health for over a year. The funeral arrangements have not as yet been announced, but it is thought that his remains will be brought to South Richmond for burial.

Old Firehouse Sold.

At public auction the old fire house and police station on Washington Square were sold yesterday to the highest bidder. The sale is conditional on the immediate removal of the old buildings, which are both unsightly and dangerous. The buildings will be torn down and the grounds graded. Seeds will be planted and grass will cover the square next spring. An ordinance recently passed by the Council provides for the appointment of a keeper for the park, and whoever receives the appointment will take charge on January 1. J. H. Bangle, for \$425 secured the firehouse, and W. A. Neal, for \$255 got the other building.

Can't Find Him.

Continued efforts on the part of the police have failed to locate Wallace Jones, the half-blind negro, who is thought to have been drowned Monday night in the canal at the foot of Hull Street. Relatives of the man are in too poor circumstances to pay for the dragging of the canal, and nothing will be known as to his fate until the canal is drained on Sunday.

Nobody in Court.

No offenders were before Justice H. A. Maurice, in Police Court, Part 2, yesterday, no arrests having been made on the Southside for two days. Justice Maurice, however, was not lucky enough to get a holiday as he was faced with a heavy civil docket, which took several hours to dispose of.

Joint Meeting Monday.

Notices are being sent out announcing the joint meeting of the South Richmond Business Club and the Washington Ward Democratic Club, to be held next Monday night at Toney's Hall. The meeting will be an open one for a discussion of the proposed four-ward system and the commission form of government.

Union Proposes Radical Reforms

Believed That Changes Will Bar Professionalism From Amateur Athletics.

New York, Nov. 15.—Reforms of a radical nature in the policy and constitution of the Amateur Athletic Union will be proposed at the annual meeting in New York on November 20, it was learned to-day. Further conservation of the amateur spirit and character of the athletics fostered by the A. A. U. is the goal aimed at in the proposed reforms. The athletic whose service is sought by means of inducements, which are of the same moral effect a fees, is aimed at, according to officials of the union.

Two rules in particular will be proposed. One will provide that an athlete who leaves a club affiliated with the A. A. U. must remain unattached for two years before he will be eligible to membership in another club. The second provides that no student in a college or university, either as an undergraduate or post-graduate, may belong to an athletic club other than that of his own college.

Another provision suggested is that no athlete engage in a contest under the Amateur Athletic Union rules unless he has previously filed with the registration committee of his district a bona-fide certificate of four months' residence in that district. He may not enter a championship contest until he has filed a certificate of residence of six months in the district.

"The object of these rules," said an officer in the union who is interested in the reforms suggested, "is to remove the scandal threatening the American Athletic Union every now and then. There is no denying that when a small club develops a good athlete there is a rush by the big and wealthy organizations to take him away from the club.

"This means professionalism in a thinly veiled form, since it gets clubs bidding against each other, and encourages the athlete to lend himself to the organization making the best offer. It prevents the small club that brought him out from profiting by the 'fad.' This condition is found in athletic clubs as well as in colleges, and it is the condition we desire to have stamped out. The new rules are designed to make it possible."

Arbor Day Observed.

[Special to The Times-Dispatch.] Fredericksburg, Va., November 15.—Arbor Day was observed to-day by the pupils of the public schools of this city. All of the different grades gathered in front of the large new \$40,000 public school building of the city on Main Street, where interesting exercises were held. Josiah Rowe, son of Councilman J. P. Rowe, presided and made the introductory address. Four trees were planted near the public school building. One known as the R. L. Stephenson tree was planted by the primary grade, who sang, "The Tree's Friend." The Stonewall Jackson tree was planted by the grammar grades, and the pupils of that grade sang the song, "O Hemlock Tree." The High School planted the Charles Darwin tree, after which the members of the High School sang "The Loden Tree." The planting of the class tree was by the class of 1912. This was followed by the dedication by Miss Miriam Carper. The exercises closed with the singing of "Farewell to the Forest" by the High School. A large crowd gathered and witnessed the exercises, which were public and in the open air.

Seeded Raisins
Large, fancy, meaty fruit, fully matured. Not a seed in the package.
13c Package.

Currants
Extra large berry; perfectly cleaned; fine rich flavor.

NO MORE SECRECY OF PARTY CAUCUS

Hereafter Sessions of Democratic Congressmen Will Be Open to Public.

Washington, November 15.—More caucuses on legislative affairs than ever were held before by a majority party in the House of Representatives are predicted for the coming session of Congress and one of the first important matters to be decided when Democratic members reach Washington is the proposed plan to discontinue the secret caucus.

Following many criticisms of the star chamber sessions last summer many of the party leaders concluded that secrecy in the caucus was not

Westhampton Car Service

The schedule on the Westhampton car line, which became effective November 15th, is the schedule prescribed by the order of the Circuit Court of Henrico county of April 25, 1910, to become effective when certain improvements had been begun at Richmond College, which are now being made. The demand was made that this schedule be put into effect, and under the order of court this company was compelled to do so.

For more than a year past the Virginia Railway and Power Company has been striving in every way to adjust the schedule on this line to the satisfaction of the traveling public, although the present operation is conducted at an actual operating loss, and is a better service than that provided for any equal amount of suburban travel on the system.

At the suggestion of the Country Club, the company agreed, subject to approval of the City Council, to operate its Westhampton cars into the city to Ninth and Main Streets on a straight five-cent fare without a transfer, which is the fare permitted by the Westhampton franchise. The Country Club undertook to secure this approval, in which they failed.

The Company then applied to the Council for leave to construct a loop which would take care of all the travel in the west end of the city now using the Westhampton Line and to operate this loop on the basis of fares prescribed in the Richmond Traction Company's franchise, which would give no additional revenue to the company for this service. This application is now pending.

In the meantime, the Westhampton Citizens' Association filed a petition in the Circuit Court of Henrico county praying for radical modifications in the schedule prescribed by the present franchise, which would entail additional heavy operating expenses without increasing the revenue. This petition is still pending.

Complaints have been made against the schedule prescribed by the court and also of the present necessity for transfer at Robinson Street and Floyd Avenue, which could have been avoided if the cars could have been operated to Ninth and Main Streets, as proposed by the Country Club.

The company desires as far as possible to remove any cause for complaint of this service. Without waiving any of its legal rights therefore, and without prejudice to its position on the pending petition, it has determined:

- (1) That beginning Monday morning, November 20th, a line of cars will be operated from Ninth and Main Streets in Richmond via Broad Street to Westhampton Park (under the Richmond Traction franchise to Robinson Street and Floyd Avenue and the Westhampton franchise beyond) on a schedule of fifteen minutes from 6 A. M. to 9 A. M.; thirty minutes from 9 A. M. to 4 P. M.; fifteen minutes from 4 P. M. to 7 P. M. and thirty minutes from 7 P. M. to 11:30 P. M. at the present rates of fare, with city transfer privileges.
- (2) The Company will file with the State Corporation Commission application to restore the Westhampton franchise rate of 5 cents on the Westhampton line, which application will be heard and determined in due course.

This service will entail additional operating loss on a line which does not now earn operating expenses, but it is hoped that this arrangement will fully meet the situation until pending questions in dispute are determined.
