

# GREAT STADIUM FOR UNIVERSITY

### Work on Second Unit Will Begin in Spring—Assistant Baseball Manager Named.

Charlottesville, Va., January 20.—The contract for the Spanish tile roof to the colonnade of the first unit of the Lambeth Field stadium at the University of Virginia has been awarded. The bases and caps, which were made in New Haven, have arrived and workmen are now busy erecting the columns to the colonnade, which is in the rear of the seats where spectators may seek shelter in case of rain. The work will be completed before the beginning of the baseball season.

The present cement stand is 230 feet in length, and has a seating capacity of 2,500. In front of the stand is a wide promenade so that spectators may easily shift their positions from one side of the field to the other. Features located at regular intervals present monotony of architecture.

In the spring work will begin on another unit of the stadium, a continuation of the present one. This will add 120 feet more to the length. When completed, the stadium will extend around the field on three sides, giving it a horseshoe shape. It is impossible to have a closed stadium on account of the 230-yard straightaway extending to the track clubhouse west of the field.

The advisory board of the General Athletic Association will at an early date consider plans for an athletic clubhouse, to be erected at one end of the horse shoe stadium. The sum of money required to erect the building—\$22,000—is already in hand, and work on the structure may begin in the summer. The location of other details are now being considered by the trustees of the fund, Judge R. T. W. Duke, of this city, and Dr. W. A. Lambeth, of the university.

At a meeting of the advisory board of the University of Virginia Athletic Association, Henry S. Mackay, of Riverside, Cal., was elected to fill the position of assistant baseball manager, which was left vacant by the recent resignation of Carrington Williams.

It was announced that the University of Georgia had opened negotiations for a football game with Virginia next season. Negotiations were continued for securing a contest with Swarthmore next season.

# RICHMOND WILL NOT BE DROPPED

(Continued from first page.)

Joy coach baseball. A meeting of the board of directors of the new corporation will be held in the offices of LeRoy F. Brown to-morrow at noon. Many questions are to be taken up, including that of granting the privileges of the new park to the amateurs.

### JEFFERSON QUINT WINS FROM LYONBURGH SCHOOL

Charlottesville, Va., January 20.—Jefferson school basketball team defeated the Lynchburg High School quint in the armory this evening 25 to 22. The first half ended 18 to 15 under A. U. rules, while the second half was played under collegiate rules. For Lynchburg, Johnson and Dillon starred. Coach scored heavily for Jefferson, which won by team play.

### Three Hills Teams in Lead.

Washington, D. C., January 20.—New Haven, Bridgeport and Cleveland still lead the Eastern League of Interclub rifle teams, according to scores made public at the rifle association headquarters tonight. Neither of the three teams had lost a match.

Bridgeport made a remarkable showing during the past week, beating Warren, Pa., 85 to 80. The individual scores of the Bridgeport team were: Willard, Jr., 20; Birks, 19; Dietrich, 19; Lyons, 19; Scripps, 18.

Yale Beats Cornell. New York, January 20.—Yale beat Cornell at hockey to-night, after a hard-played game, by 2 to 1.

# RHEUMATISM

If every one would realize the danger of Rheumatism, and at the first symptoms of the disease begin proper treatment to get rid of it, a great deal of suffering and misery could be avoided. But most persons are inclined to treat the early pains lightly, and by neglecting the trouble allow the blood to become so impregnated with uric acid that Rheumatism becomes firmly established in the system, and then the sufferer "wakes up" to the fact that it is a powerful and dangerous disease.

An excess of uric acid gets into the blood usually because of systemic irregularities, such as chronic constipation, imperfect kidney filtration, indigestion and minor stomach troubles, to which we give no serious thought. But each of these disturbances has a direct effect on the eliminative members, which prevents the proper removal of waste substances from the system. This refuse remains in the stomach and bowels, and souring forms uric acid which is quickly absorbed into the blood. Then the foundation is laid for Rheumatism.

The occasional pains shooting through the body, will gradually become more frequent and severe, the muscles get sore, and the flesh may be sensitive and feverish in spots. Constant contact with the acrid blood slowly dries up the natural fluids of the joints, causing the knees, ankles, fingers, etc., to become swollen and stiff.

If you do not conquer Rheumatism then Rheumatism will conquer you, and you cannot do so with external applications, because they do not reach the cause, which is in the blood. It is all right to use any application that will give temporary relief from the pain of an attack of Rheumatism, but no one should forget that the vital and necessary treatment is that one which reaches and changes the character of the blood.

There is but one way to cure Rheumatism and that is to cleanse the blood of the uric acid poison. S. S. S. goes down into the circulation, and attacks the disease at its head, and by removing every particle of the cause, and purifying the blood, cures Rheumatism permanently. S. S. S. changes the blood from a sour, acid-steeped stream to a rich, healthy fluid, which quiets the excited nerves, eases the throbbing muscles and painful joints, and filters out of the blood the irritating matter which causes every symptom of the disease. When the circulation has been purified and enriched by S. S. S., it gradually nourishes back to a healthy state the different members that have been affected because of imperfect and impure blood. S. S. S. is entirely free from minerals and is perfectly safe for any one to take. Book on Rheumatism and any medical advice free to all who write and request same.

# CLARK REFUSES TO BE CANDIDATE

### Danville Man Will Not Allow Use of Name for Virginia League Presidency.

[Special to The Times-Dispatch.] Danville, Va., January 20.—Welch W. Clark, mentioned as a candidate for the presidency of the Virginia League, will absolutely refuse to allow his name to be used as a candidate for the presidency of the Virginia League, and will not accept if elected. He made that statement here tonight.

President Roach, of the Danville club, stated to-day that he would make another nomination at the meeting to be held on January 26, which he thinks will be satisfactory to McHenry, of Norfolk, for whom four clubs will vote, thus breaking the deadlock.

Contracts were sent out to-day to the following reserved players: Gus Schrader, of G. Byrne, John Marx, Andy Bowen, Eddie Duggan, Jimmie Jackson, L. E. Hudgins, Fleet Mayberry, Harry Griffin, E. L. Perryman, Harrison Kaufman, J. H. Cooper and E. E. Johnson.

The manager of the team has not been decided upon, but everything points to Gardner. The directors meet Monday night to decide on the manager, elect a president and secretary. Regardless of who may be elected president, Roach will attend the next meeting of the league and will vote against Williams.

### Six Clubs in League.

Jackson, Miss., January 20.—Six clubs instead of five will compose the Cotton States Baseball League, according to action taken here to-day at the annual meeting of that organization. In addition to Jackson, Hattiesburg, Vicksburg, Meridian and Greenwood, either Yazoo City, Laurel, Baton Rouge or Algiers, Ala., will be admitted.

# BURNS TAKES HAND IN LORIMER CASE

### Famous Detective Has Been Busy Collecting Evidence of Guilt.

### HIS REPORT IS READY

It Affects Solely Veracity of Witness Called by Defense.

Washington, D. C., January 20.—Developments more or less sensational about to take place in the Lorimer case will disclose that William J. Burns, the detective who built up the evidence against the McNamara dynamiters, has been busy for at least three months gathering evidence to be presented next week to the committee investigating the election of the junior Senator from Illinois.

Detective Burns was employed for about a month by the Senate committee, and later was engaged by the interest fighting to unseat Senator Lorimer. The committee discontinued his services, according to the members today, because of the almost prohibitory expense. It is reported that the end of the Lorimer case will be the end of the impeachment of the Senator who gave testimony in Senator Lorimer's defense relating to the alleged statement of a brother-in-law of Edward Hines that a "jackpot" fund of \$100,000 was used to "put Lorimer over."

In substance Burns is declared to have reported to the committee that he was prepared to offer evidence that one of the witnesses who testified in regard to this incident had confessed and had paid \$1,500 to come to Washington. The photographic method by which Burns obtained the alleged confession is also said to have been laid before the committee.

Burns came to Washington last Tuesday and remained until Wednesday night. His report was communicated to some of the members of the committee and it is said was laid before the committee in executive session. It is not claimed that the evidence Burns promises to produce is intended to establish whether or not there was a \$100,000 "jackpot" fund, or that Senator Lorimer had knowledge of it. It effects solely the veracity of a witness called by the defense.

This new evidence will be laid before the committee after the cross-examination of Senator Lorimer is finished next week. He will resume the witness chair on Monday afternoon, and probably will finish his testimony by Wednesday. It is also known that evidence in rebuttal will follow Senator Lorimer's testimony.

The committee process servers finally have produced a former member of the Illinois Legislature, whom they had not been able to find until recently. It is also the purpose of the committee to continue further investigation into investments of money which certain members of the Legislature are alleged to have made shortly after May 26, 1908.

These new developments have widened the scope of the inquiry considerably, and it will not be closed quite so soon as was expected. The investigating committee had intended to close testimony next week.

# GOVERNOR BASS WEDS

### New Hampshire's Chief Takes Miss Bird to Wife.

[Special to The Times-Dispatch.] Boston, January 20.—Robert P. Bass, Governor of New Hampshire, and Miss Bird, of New York, were married in Boston to-day. The ceremony took place at 10 o'clock at "Eldon," in East Walpole, the home of Mr. and Mrs. Charles S. Bird, parents of the bride. The groom is Frank Dutton, of New York, and Percy Clark, of Philadelphia.

# EGYPT IS AROUSED

### Nationalists Bitterly Denounce Attitude of England.

Cairo, January 20.—Convulsed that England, by her attitude in regard to the Turkish-Taliban War, has indicated that she intends to grab Egypt, the nationalists to-day were bitterly denouncing the British government at the very time King Georges and Queen Mary were receiving the Khedive aboard the royal ship Medina, off Port Said. The nationalists are aroused as they see the men for years and Lord Kitchener may again be forced to use the iron hand to keep them in subjection.

### Returns Insurance Money.

[Special to The Times-Dispatch.] Ogdensburg, N. Y., January 20.—Satisfied that the identification of "Donald Douglas," the New York engineer, who is declared by his former associates in the New York National Guard to be the same as the Earl of Douglas, who was supposed to have been drowned while canoeing in the St. Lawrence River in June, 1910, is authentic, the Crutcher to-day refunded to the insurance companies the money they had paid her. In doing so she reiterated the fact that she always believed that there had been no collusion in his disappearance.

### I. O. F. Officers Installed.

[Special to The Times-Dispatch.] Emporia, Va., January 20.—Emporia Lodge of I. O. F., No. 2, of Emporia, installed its 1912 officers to-night, in the presence of a large number of the order's members. The installing officers were: District Deputy, M. J. Squire, of Emporia. The officers for the ensuing year are: Noble Grand, William Mounfield; Past Grand, Dr. L. Leon; Vice-Grand, C. L. Sauer; Chaplain, J. M. Garner; Secretary, T. J. Smith.

# The Diamond SAFETY TREAD TIRE

Any curbstone will stop a skid—what you want is something that prevents the tire's starting to skid.

### The Diamond Safety Tread is not a mere matter of buttons, knobs or ridges.

It is a safety tire that is safe because it is based on scientific principles.

Tires skid because a film of mud, water or grease acts as a lubricant between tire and pavement. To prevent skidding CLEAN the pavement. How? The same way the squeegee dries a window. That's all there is to it—but the Diamond Safety Tread is the only tire that does it.

### The only tire that is based on a real understanding of the skid problem.

The Diamond Safety Tread Tire is an all-year-round tire. It gives even Greater Mileage than the regular Diamond Tire—and the regular Diamond Tire is greatest in mileage among smooth tread tires.

At Your Dealer—Or  
**The Diamond Rubber Company** of N. Y.  
707 W. Broad Street, Richmond, Va.

country. Added to this is the fact that Virginia rarely sends out glowing accounts of her prowess. The school representing the school are all underestimated rather than overestimated.

The competition is going to be keen. If Harvard and Yale and Princeton and Dartmouth, with Cornell, Pennsylvania and Swarthmore send down special men for special events, Virginia will have her hands full at the meet. The visitors will all go to win. There will be no fooling about it. Since Virginia won the Georgetown meet last year, the other schools have been anxious to vanquish the Orange and Blue.

Meet Will Be Welcomed. It has been long time since Richmond witnessed a track meet the proportions of the Blue-Collage meet. The time is just ripe for another rousing series of events. The two parties assuming the risk deserve all the support of the sportslovers of Richmond.

Richmond College, by the way, has a few hopes of winning the meet. The first race of the Spiders will be at the indoor games of George Washington University, in Washington, February 1. Beginning to-morrow the real work of preparation will begin. The men will settle down to a steady grind in anticipation of the coming event. The relay team, especially, must be fit by that time, for it will be pitted against the strong George Washington four in the final feature event of the meet.

College Has Hopes. The squad, in numbers, exceeds anything that Richmond College has turned out in many years, if ever before in the history of the school. In experience, however, the applicants are largely a minus quantity. Few of them have ever been on the track before and obviously this greenness is something of a handicap to Larry Marth, who has the crowd in hand. To offset to a great extent the inexperience of the applicants, a spirit and willingness to work is being manifested which is pleasing alike to coach and student body.

As hard work and college spirit are just as essential as experience, a good team should be the result. Certain it is that Marth is leaving no stone unturned to accomplish this result. He has worked out the men with rare industry, thus far, not giving them too much to do, but just enough to get them into condition for the last
