

# NORTH CAROLINA FOR ROOSEVELT

Delegates to Chicago Will Be Under Ironclad Instructions.

## STATE CONVENTION TO-DAY

New State Chairman and National Committeeman Probably Will Be Named.

Raleigh, N. C., May 14.—On the eve of the North Carolina State Republican Convention it is conceded to-night that Roosevelt will get the solid delegation to the Chicago convention and that the delegates will be under ironclad instructions to vote for him as long as his name is before the convention. The Fourth Congressional District convention took this action to-day here as to the delegates it sends to Chicago.

Chairman Morehead, who is an avowed Taft supporter, admitted to-night that there is no hope to snatch any consolation for Taft in the North Carolina convention. All that is left to fight over in the convention to-morrow is the question of State chairmanship and national committeeman. The State chairmanship lies between Chairman Morehead and Zeb Vance Walser, state manager for the Roosevelt campaign, and the national committeeman seems to be between former Congressman Morehead and Senator Marion Butler, who chances decidedly in favor of Pearson, a Roosevelt man.

National Committeeman E. C. Duncan is understood to be not at all averse to retiring from the chairmanship, but his friends are strongly opposed to his doing so.

Large numbers of the delegates, even those from the extreme western section of the State, are already here, and the campaign for engineering various matters in the convention to-morrow is fast and furious.

Fourth District Convention. The Republican convention for the Fourth Congressional District this afternoon selected delegates to the national convention, and Roosevelt was elected to represent the district.

The regular convention made J. J. Jenkins, of Chatham county, chairman. As delegates to the national convention, J. D. Parker, Johnston county, and C. M. Bernard, of Wake, were elected, and Lester F. Butler, of Wake, and W. S. Bailey, of Nash, alternates.

## WILL PROTECT CITY PROPERTY

Development Plan at William Byrd Park Approved by Members of Committee.

The Committee on Grounds and Buildings met yesterday afternoon at 5 o'clock at William Byrd Park to inspect the Pollard property and consider proposed improvements. There was not a quorum present, and no action was taken, but Messrs. Don Leavy and Seaton, who were present, expressed themselves as favoring the plan of development of the property.

The Pollard tract embraces about thirteen acres lying in William Byrd Park, back of the reservoir, and between the road to the head of Gray addition. It is entirely surrounded by the park. The committee and the City Engineer have repeatedly advised that it be acquired for park purposes, but the Council has taken no action. Recently the tract was purchased by a syndicate of Richmond realtors headed by H. C. Smith, Jr., who now propose to improve it. A park road known as Chestnut Street, thirty feet wide, runs along one side of the rectangular tract. The new owners propose to donate to the city ten feet to widen Chestnut Street to the other side of the tract, the city to give twenty feet and the owners twenty, and the property owners to donate land for three cross streets opening through the tract. Provision has been made for sewerage, water mains and other city conveniences.

Mr. Smith assured the committee that in subdividing the property the park would be protected. All lots will conform to the character and cost of buildings to be erected. Standhope Bolling, owner of an adjoining tract in the park, which the city has also failed to acquire, agreed to come in on the same terms.

Young Man Loses Life. Plunges into Swollen Stream and is Swept to His Death.

[Special to The Times-Dispatch.] Chesapeake, Va., May 14.—On Sunday afternoon nearly a party of young folks went to view the high waters of Chesapeake, a mountain stream running one mile north of Pinesville. Johnny Sasser, a young man of the town, ventured on a swinging bridge which spans the stream. Removing his coat and hat, he attempted to jump into the raging stream, which hurriedly carried him to his sudden death. He had previously challenged a companion to swim the stream with him.

Mr. Sasser was about twenty years old and a young man of sterling character. He leaves a widowed mother and two sisters.

# VISION OF WIFE SAVES HIS LIFE

Norfolk Man Tells Why He Did Not Carry Out Purpose to Commit Suicide.

(Special to The Times-Dispatch.) Norfolk, Va., May 14.—Visions of his wife appearing before him just as he was about to jump into the Elizabeth River to drown himself caused J. J. Dasher to reconsider. To-night he returned home to his family, after having been away since yesterday morning.

He wrote a letter yesterday morning to a local paper and another to his wife, saying he expected to take his life by plunging into the water. He left his wife and four small children destitute and grief-stricken, but the burden was lifted to-night when the man returned home. The charitable inclined had relieved the physical wants of the family by liberal contributions of money and goods.

A newspaper man was at the Dasher home when he returned and witnessed the embrace of his wife and children. He said he had a weight tied around his neck and was about to jump into the river when a vision of his wife appeared and told him to stop.

At the meeting of the school board this afternoon H. J. Williamson, one of the trustees, made the assertion that an investigation would reveal that some of the principals of the city schools "partake too freely of intoxicating drinks."

Mr. Williamson was asked to appear at the next meeting of the teachers' next books committee and reveal the basis of his assertion. The statement was made while the board was considering a petition of colored residents asking that R. A. Tacker, principal of Cumberland Street Colored School be discharged because he wrote a letter to Judge Hancock urging him to renew a license for the sale of liquor within 100 yards of the school. The board will investigate the charge against Tacker.

# Milady's Toilet Table

By Mme. D'VILLE

"The easiest way to preserve and restore youthful complexion is by massage the face, neck and arms with a solution made by dissolving an ounce of perfume in a quart of water. No cream is necessary, for myosotis prevents that 'shiny' look and keeps the skin soft, supple and glowing lovely." "The skin can be kept bright and fluffy and beautifully lustrous by dry shampooing. Mix four ounces of powdered soap with a quart of water. Sprinkle a little on the head and brush thoroughly through the hair. If anything will make the hair grow thicker and more luxuriant." "Nothing is more humiliating to a woman than hair on her face. Wild hairs can be quickly and safely removed by using myosotis. No cream is necessary, for myosotis prevents that 'shiny' look and keeps the skin soft, supple and glowing lovely." "Many suffer now from tired, sore, swollen or aching feet. Nothing will give quicker relief than Mother's Foot Powder. It is soft, quick to act, and relieves pain in any part of the body—headache, backache or sore muscles."

# MAY ASK CARNEGIE TO HELP LIBRARY

Dr. Calisch Suggests That Plan at Education Association Meeting.

With the aim of solidifying the various movements on foot in Richmond for a public library, the Richmond Education Association, at its twelfth annual meeting last night in the John Marshall High School auditorium, instructed President Metcalf to appoint a committee of three to engineer the indorsement of the public library plan by the twenty or thirty civic and business organizations of the city. Furthermore, this committee is authorized to add to its number one representative from each of the score of organizations, the resulting committee to act as a central campaign body for the propagation of the public library doctrine.

Such a committee, it was urged, would unify the present scattered efforts of different people and organizations into a force which would compel the City Council into action. President Metcalf will make his appointments within a few days. Dr. Edward N. Calisch, speaking in favor of the public library scheme, recommended that the committee apply to Andrew Carnegie for a library donation. Dr. Calisch scouted the idea of "labeled" money, and commended the restrictions which the ironmaster attaches to his gifts.

To Invite Conference Here. On the suggestion of J. H. Binford, secretary of the Virginia Education Association of Virginia, the association passed resolutions inviting the Southern Educational Conference to meet in Richmond next April. Mr. Binford also attended the conference held in Norfolk last month, and stated that the executive committee is already holding under consideration an invitation from the Mayor and the Governor to meet in Richmond next year. In this connection it was decided to urge the postponement of this body to the next month.

There are a little more than 1,000 visitors in the city for the convention, and the gathering is one of the biggest Newport News has ever entertained.

# Alarming Condition Was Vexing

Nicholas Adell Overcame All Troubles and Now Desires To Help Others

"I had suffered excruciatingly for some time with indigestion in such severity that my heart was affected to such a degree that at times I have been very much alarmed as to my condition," said Mr. Nicholas Adell, of Bathbridge Street, city. "As a result," continued he, "this constant apprehension made me extremely nervous, so that I could hardly sleep at night, and consequently became very much run down physically."

"After reading so much of 'Tona Vita' and talking to several people who had taken it, I decided to give it a trial. I am glad I did, for my indigestion has been so rapid that now I feel like a new man, with all my old-time energy. I wish every one suffering as I did could try 'Tona Vita.'"

Thousands in Richmond are afflicted with the same trouble in a more or less aggravated form, say the specialists who are here introducing "Tona Vita."

"The strain of modern city life," said one of these specialists yesterday, "causes irregularities with regard to most of our eating, and produces a most miserable condition of the body, which is known to us as nervous debility, a modern plague whose chief symptoms are imperfect digestion, bowel trouble, nervousness, depression of spirits, little vitality, headaches, backaches, sluggish mind and poor memory, dull pains in back, poor circulation, cold feet, susceptibility to colds and coughs, dizziness, spots before the eyes, uneasy sleep and poor appetite."

"Tona Vita," continued he, "will relieve this condition, affording the right material for a complete rejuvenation of the organs and their restoration to a healthy, normal condition."

Enthusiasm continues to prevail generally where the new product called "Tona Vita" has been used. The great amount of good that seems to have been accomplished by those who have seen its wonderful work, has attracted the attention of many who were comparatively nervous, weak, and had been years ago from stomach trouble for results of "Tona Vita" are said to have been astonishing in nearly every instance.

The "Tona Vita" specialists are explaining the nature of their remarkable remedy at the Polk Miller Drug Company, 311 East Main Street, and are meeting the public from 9 A. M. to 5 P. M. daily.
