COURT CONVENES TO-DAY. Decret in Pitsylvania Much Smaller Than Usual. [Special to The Times-Dispatch.] Chatham, Va., November 17.—The regular November term of Pitsylvania County Circuit Court will convene Monday with a docket much smaller than the last term, and will in all probability last less than one week. The principal criminal case to try are James C. Abbott for killing J. R. Coleman, which occurred near Danville in October; A. M. Peak, for assaulting William Hubbard, which occurred near Level Run late in the past month. The other cases are of minor importance. The civil docket is small, and will be finished in a short while.

Patrons' Day was observed at the Chatham High School Friday afternoon, with exercises befitting the occasion. Henry Gill, of near Hollywood, had the misfortune recently to lose his dwelling and almost the entire contents. The other cases are of minor importance. The civil docket is small, and will be finished in a short while.

James A. Davis, of Pitsylvania County, near Whittles, died at his home Friday following an illness of long duration. Mr. Davis was nearing the three-score and ten mark, and had been a resident of this county his entire life. He was a very prosperous farmer and enjoyed his vocation. He is survived by one brother, S. B. Davis, of near Whittles, and one sister, Miss Sallie Davis, who made her home with him. He was a member of Pitsylvania Lodge of Masons, near this place.

Alexandria Man, Who Had Long Served as Guide, Meets Death. [Special to The Times-Dispatch.] Alexandria, Va., November 17.—Patrick Buckley, twenty years old, for many years past a city guide, who during his career had piloted thousands of tourists to the points of historic interest around the city, between 2 and 3 o'clock this morning fell from the back fire escape on the fourth floor of the old Braddock House, on the east side of that structure, meeting instant death. His skull was crushed at the base of the brain on the left side, death being instantaneous.

The body was found by Walter Ale, who lives at the Braddock House, a few minutes before 3 o'clock this morning. Mr. Ale raised his window and saw the body lying in the backyard, at the foot of the fire escape. A short time afterward the police were notified, and an examination was begun. From what the police learned of the affair, Buckley between 2 and 3 o'clock entered the Braddock House, and in the lobby of the place, which had retired for the night, called out to know who was there. No response was received by him, and he paid no further attention to the matter. Buckley, it is presumed, fearing that Simpson would follow him and eject him from the place, removed his overcoat, and putting his hat in his pocket, raised the back window and got out on the fire escape, as it is claimed Simpson had forbidden him to come to the place. While on the escape the heel of his left shoe caught in the iron grating, and he fell head foremost, evidently making several somersaults down the winding escape before his body reached the ground. As he fell it is declared by occupants of the place he cried aloud.

The fall sustained by Buckley was fully fifty feet. Coroner S. E. Moore was advised of the circumstances attending Buckley's death, and he gave a certificate of accidental death, deeming an inquest unnecessary.

C., but recently of Raleigh, N. C., is a young business man of ability.

VERY UNFORTUNATE IN HIS SELECTION. King Alfonso's Choice of Premier Not Regarded Favorably. BY LA MARQUISE DE FONTENAY. FROM a dynastic point of view, Alfonso XIII has been singularly unfortunate in his selection of Count Romanones as his minister of finance in succession to the murdered Don Juan Canalejas. For Romanones, whose patronymic is Figueras, and whose family have been in Malaga for some generations what the Fuggers were in the middle ages in Augsburg, is generally credited throughout Spain as a just and upright man, but his financial policy is not a free agent. Indeed, it is claimed that all the military operations around Melilla, which cost Spain so much life and treasure, and all the trouble with France, which inflicted such an incalculable injury upon her, were due to the syndicate headed by Romanones being bent on securing the hinterland of Melilla for its great mineral wealth. In fact, the Romanones syndicate has been able to give an excellent account of itself, and to keep the coasts of the kingdom entirely free from any Ottoman menace by sea.

Had it not been for this, and had the Turkish fleet, which has been restricted to bombarding Bulgarian and Rumelian forts on the Black Sea, been free to emerge from the Dardanelles to the south, it could easily have been the use of the railroad from the Greek frontier to Salonica, which runs for its greater length along the coast, and could thus have checked the victorious advance of the Greek army upon Salonica. It was the Greek navy, in fact, that rendered possible the capture of Salonica by the Greeks, who have been thus enabled to rehabilitate their military prestige, so sorely damaged through their ignominious defeat by the Turks seventeen years ago. There are several other cruisers, gunboats and destroyers in the Hellenic navy, which also bear the name of their donors; and, thanks to the splendidly efficient reorganization of the personnel of the Greek navy by a mission of English naval officers under a British admiral, the Greek fleet has been able to give an excellent account of itself, and to keep the coasts of the kingdom entirely free from any Ottoman menace by sea.
