

New York Stock Market

New York, December 3.—The influence of the Harriman merger decision by the United States Supreme Court hung heavily over the stock market today.

Selling centered on Southern Pacific, which dropped three points on unusually heavy dealing.

In the absence of authoritative statements from the interests directly concerned as to the probable effects of the dissolution decree, the problem was viewed as varying habits.

Traders who took a bearish view held that application of the principles adhered to by the Supreme Court in yesterday's decision would be of restraining influence.

Tension in money was somewhat relaxed, and easier conditions were expected with the call from the national comptroller out of the way and gold coming in from London.

New York, December 3.—Money on call strong, @10 per cent; ruling rate, a closing bid, offered at 5. Time money strong, sixty days nominal, 5 1/2 per cent.
