UNITED STATES 7-30 LOAN.

UNITED STATES 7-30 LOAN.
By authority of the Secretary of Treasury, the under-
signed has assumed the General Subscription Agency for
the sale of United States Treasury Notes, bearing seven
and three-tenths per cent. interest, per annum, known
as the
SEVEN-THIRTY LOAN.
These Notes are issued under date of August 16th, 1864,
and are payable three years from that time, in currency,
or are convertible at the option of the holder into
UNITED STATES 5-30 SIX PER CENT. GOLD-BEAR-
ING BONDS.
These bonds are now worth a premium of nine per cent.
including gold interest from November, which makes the
actual profit on the 7-30 loan, at current rates, including
interest, about ten per cent. per annum, besides its exemption
from State and municipal taxation, which adds from
one to three per cent. more, according to the rate levied on
other property. The interest is payable semi-annually by
coupons attached to each note, which can be cut off and
sold to any bank or banker.
The interest amounts to
One cent per day on a \$50 note \$50 note

20 " " " " " \$1000 " " \$1000 " "
50 " " " " " \$2500 " " \$2500 " "
Notes of all the denominations named will be promptly
furnished upon receipt of subscriptions. This is
THE ONLY LOAN IN MARKET
now offered by the Government, and it is confidently ex-
pected that its superior advantages will make it the
GREAT POPULAR LOAN OF THE
PEOPLE.
Less than \$200,000,000 remain unsold, which will probably
be disposed of within the next sixty or ninety days,
when the notes will undoubtedly command a premium, as
has uniformly been the case on closing the subscriptions
to other loans.
In order that citizens of every town and section of the
country may be afforded facilities for taking the loan, the
National Banks, State Banks, and Private Banks through-
out the country have generally agreed to receive subscrip-
tions at par. Subscribers will select their own agents, in
whom they have confidence, and who only are to be re-
sponsible for the delivery of the notes for which they re-
ceive orders.
Subscription Agent, Philadelphia.
Subscriptions will be received by the Exchange National
Bank of Norfolk, Virginia.
**FACTS ABOUT THE 7-30'S—THE AD-
VANTAGES THEY OFFER.**
These securities—Nearly all active credits are
now based on Government securities, and back of them
as the very best and strongest investment they can make.
If it were possible to contemplate the financial failure of
the Government, no bank would be any wiser. If money
is loaned on individual notes or bond and mortgages, it
will be payable in the same currency as the Government
pays with, and no better. The Government never has
failed to meet its engagements, and the national debt is a
first mortgage upon the whole property of the country.
While other stocks fluctuate from ten to fifty, or even a
greater per cent. Government stocks are always compari-
tively firm. Their value is fixed and reliable, beyond all
other securities; for while a thousand speculative bubbles
rise and burst, as a rule they are never below par, and are
often above.
Its LIBERAL INTEREST.—The general rate of interest is
six per cent, payable annually. This is seven and three-
tenths, payable semi-annually. If you lend on mortgage,
there must be a searching of titles, lawyers' fees, stamp
duties and delays, and you will finally have returned to
you only the same kind of money you would receive from
the Government, and less of it. If you invest in this loan,
you have no trouble. Any bank or banker will obtain it
for you without charge. To each note or bond are affixed
five "coupons" or interest tickets, due at the expiration of
each successive half-year. The holder of a note has simply
to cut off one of these coupons, present it to the nearest
bank or Government Agency, and receive his interest; the
note itself need not be presented at all. Or a coupon thus
payable will everywhere be equivalent, when due, to money.
If you wish to borrow ninety cents on the dollar upon
the notes, you have the highest security in the mar-
ket to cost it with. If you wish to sell, it will bring within
a fraction of cost and interest at any moment. It will be
very handy to have in the house.
IT IS CONVERTIBLE INTO A SIX PER CENT. GOLD-BEARING
BOND. At the expiration of three years a holder of the notes of
the 7-30 loan has the option of accepting payment in full
or of funding his notes in a six per cent. gold-bearing bond
the principal payable in not less than five, nor more than
twenty years from its date, as the Government may elect.
These bonds are held at such a premium as to make this
privilege now worth two or three per cent. per annum, an
add to such to the interest. Notes of the same class, is-
sued three years ago, are now selling at a rate that fully
proves the correctness of this statement.
ITS EXEMPTION FROM STATE OR MUNICIPAL TAXATION.—
But aside from all the advantages we have enumerated, a
special Act of Congress exempts all bonds and Treasury
notes from local taxation. On the average, this exemption
is worth about two per cent. per annum, according to the
rate of taxation in various parts of the country.
IT IS A NATIONAL SAVINGS BANK.—While this loan pre-
sents great advantages to large capitalists, it offers special
advantages to those who wish to make a safe and profitable
investment of small savings. It is every way the best
Savings' Bank for every institution of this kind must
show how invest its deposits profitably in order to pay in-
terest and expenses. They will invest largely in this loan,
as the best investment. But from the gross interest which
they receive, they must deduct largely for the expenses of
the Bank. Their usual rate of interest allowed to deposi-
tors is 5 per cent. upon sums over \$500. The person who
invests directly with Government will receive almost 50
per cent. more. Thus the man who deposits \$1000 in a
private Savings' Bank receives 50 dollars a year interest
if he deposits the same sum in this National Savings' Bank
he receives 75 dollars. For those who wish to find a safe,
convenient, and profitable means of investing their surplus
earnings which they have reserved for their old age or for
the benefit of their children, there is nothing which pre-
sents so many advantages as this National Loan.
