Our stock is selected with care from first-class Northern Breweries, and from our long experience in New York, in the Bottling business, are confident that we can supply the public and the trade generally, with a better and cheaper article than they can get elsewhere. We are the first parties in the business, and we are selling from \$1.00 to twenty cents, lower than jobbers, who have to pay bottlers North a large profit.  
We would say to parties, before purchasing elsewhere, to give us a call, and try a bottle of our sparkling beverage.  
We would also state that we still continue to manufacture our far-famed Soda and Sarsaparilla Waters, so universally appreciated by our fellow citizens.

**NOTICE TO THE PUBLIC.**  
In the year 1846, the writer embarked in the Drug Business in the city of Philadelphia, and while thus engaged made several experiments in regard to the most desirable mode of preparing Fluid Extracts. My efforts were successful—the articles being approved and used by the Medical Faculty. I was desirous of placing them before the public, but hesitated for some time before concluding to resort to newspaper advertising, knowing of the prejudice that exists in the minds of many against using advertised Medicines or Nostrums, but through the advice of friends and those who had used them this objection was overcome.  
After 18 years' experience, commencing in a small way, the popularity of my articles has extended to all parts of the United States, and widely throughout Foreign countries—and this in the face of much opposition. Every means has been resorted to by unprincipled dealers since my first success has been known—such as advertising large bottles at low prices, containing all other preparations, and even copying my advertisements—but I am happy to state that out of the many who have resorted to this, none have been successful.  
**MY OBJECT**  
In this notice is to make the facts known to the public and respectable dealers, believing after so many years' experience, that the Drugs will discontinue such proceedings, and that the reputation of my articles may not be damaged by the use of inferior or spurious ones. Knowing that many would read this article who are unacquainted with me, I append a few remarks from those of my native city, and whose names are known in all parts of the world:  
"Being personally acquainted with Mr. H. T. Helmhold, it affords me pleasure in stating I have been most favorably impressed with his honesty and integrity, and gratified at his success."  
Firm of POWERS & WRIGHTMAN,  
Ninth and Brown streets, Philadelphia.

**When on a visit to the city of New York a few days since, I was induced to call on our old friend and townsman, Mr. H. T. Helmhold, Druggist, 684 Broadway, N. Y. I found a most perfect gentleman—the handsomest of any kind we have ever had the pleasure of seeing, and so extensive, being 24 feet front, five stories in height, and over 200 feet deep. It indeed affords me much pleasure to know that he has been so successful, and it is ample evidence of the merits of his articles—as in our whole business experience we have not read of the success of any article without merely advertising merely bringing the same before the people."  
[Boston Herald.]  
"We do not like to advertise worthless wares, or articles calculated to deceive our readers; and when we see an advertiser like Mr. Helmhold, whom we have known for years, gradually extend his advertising from year to year until he becomes the largest advertiser in the United States, we are satisfied that the statements in regard to his articles must be correct."
