

DEBILITY

"Paine's Celery Compound has worked wonders for me, for after a protracted siege of suffering from rheumatism and general nervous debility I now feel well and am entirely free from all pains, after having taken four bottles of the Compound. I cheerfully commend it to all suffering as I have been with severe rheumatism and nervous affections."

FRANCIS J. TAYLOR,
Box 98,
Belle Plaine, Kansas.

Paine's Celery Compound

will cure rheumatism, nervous debility and dyspepsia; overcome "that tired feeling," and tone up the whole system. It acts upon the system like nothing else, and in a way of its own it conquers these diseases.

CHOICE TEXAS LANDS

Rare Chance for Settlers.

The Railroad system of Texas having developed as to bring to the market acres of good land, we have secured the lands granted to the HOUSTON & TEXAS CENTRAL RY. CO. It has been determined to offer to settlers the Renowned Agricultural Lands Located along the line of the Fort Worth & Denver City R. Co., comprising 200,000 ACRES.

In farms of 160 acres and upward. These lands were located by the Company among the earliest, with special care as to soil, timber and water. They are adapted to the growth of cotton, corn, wheat, barley, rice, vegetables, orchards and gardens and the various domestic uses.

Situated in the elevated and healthy region known as the Southern Panhandle of Texas, they possess a general climate, favorable to man and beast, where outdoor work can be carried on the year round, and are in marked contrast with regions of early and late frosts or of destructive "hiccups."

Population is fast pouring in, and local government is already established, with schools, churches, etc.

TERMS OF SALE: One-fifth cash, balance in four equal yearly payments, with interest on deferred payments. For further information as to these lands and lands in adjacent counties, apply to

The Female Idea.

First Female Juror (some years hence) - That fool of a woman who wants a divorce admits that her husband hung up a lot of pictures, and put up 10 curtains and six lengths of stove pipe without saying one bad word or even losing his temper.

Second Female Juror - Yes, the man must be an angel. Let a give her the divorce, and maybe one of us can get him - Philadelphia Record!

At Maidstone, England, as proved by investigation, 109 electors accepted 111 slips to vote for a candidate, and then cast their ballots for the opposition.

Deafness can't be cured by local application, as they can not reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that we can not cure by taking Hall's Catarrh Cure. Send for circulars, free.

THE NEW CABINET.

The Men Who Will Hold Council With President Harrison.

Sketch of the Cabinet Officers.

James G. Blaine, the new secretary of state, was born Jan. 31, 1830, at Indian Hill farm, Washington county, Pa. He entered Washington college in 1849 and soon rose to the rank of brigadier-general. In 1862 he was elected to the legislature in 1862. In the same year he joined the Union army as major and rose to the rank of brigadier-general. From 1866 to 1870 he was state bank controller. He was a member of the forty-second, forty-third and forty-fourth congresses. In 1881 he was elected governor of Wisconsin and held the office two terms.

An alum mine has been discovered in Utah. It yields 80 to 90 cent. pure alum, which can be extracted by simply placing the crude material in boiling water.

Edgar Saltus has written a novel which he calls "A Transaction of Hearts." The presumption is that it is full of dismal pictures. Saltus is the prince of pessimists.

Nearly a million Lebel rifles have been turned out in France, yet the manufacture of them continues, since the government intends to have four rifles ready for each soldier when the great mobilization comes.

According to the Fiji Shimpo there are twenty cotton factories now in operation in Japan, with a total of 82,680 spindles. There are also twenty factories in process of establishment or extension, with an estimated capacity of 180,080 spindles.

Mrs. Newton, one of the four women who were given the Crimean medal, which Queen Victoria personally pinned on her, is still living in Toronto. She was a nurse in the Crimean war, and was shot through the knee in a trench before the relief.

United States Minister Strauss has introduced the Sultan of Turkey to allow the explorers sent out by the University of Pennsylvania to excavate in the ruins of ancient Babylon for two years. This favor has been vainly sought by representatives of European powers.

On a mountain in Alpine county, California, during a thunder-storm the lightning struck a pine tree, followed it down into the ground and immediately there burst forth a brilliant fire, which has continued to burn ever since. It is believed that the lightning ignited a bed of coal, which is now feeding the flames.

Miss Emma G. Shields, a public school teacher of Rockland, Me., made an election bet with a friend, the loser to sell pants in Postoffice Square all day on a designated Saturday. Miss Shields lost, and she paid her bet a few Saturdays ago. She had a great run of customers, and made quite a sum of money, which she gave to the fund of the Rockland Charitable Association.

There is a decided movement in West Virginia in favor of changing the name of that state. Its promoters say that every state should have a distinct name of its own, so far removed from the name of any other state that no confusion of names can arise. West Virginia is so near like Virginia that the people do not enjoy it. Curiously enough, they all agree "Kanawha" is the name for the state.

The big iron tower in Paris which is now in process of being erected is about two-thirds finished. It will be 700 feet in height when completed, and the ascent will be accomplished in elevators in five minutes. At present the workmen occupy an hour in reaching their work, and they wear blinders, which prevent them from seeing any thing but the work before them, as an outlook would produce giddiness.

At Charleston, S. C., last week a carboy of vitrol exploded while being conveyed on a derrick, and the liquid seeped into a seething mass of flame around the two draymen and the mules. The clothing of the former and the manes and tails of the mules were quickly in flames, when both men and mules jumped into the river and the flames were extinguished. The mules will recover, but the men are expected to die.

A tramp passed through Augusta, Me., called "English Charley," who quoted Scripture as gibberish as he gave a history of the prize-ring, and narrated the story of the rebellion, giving all the battles and skirmishes in which the Union army was victorious or defeated as clearly as he discussed the events of the present day. Thirty-three years ago he was a soldier in the English army, and he vividly told the story of the fall of Sebastopol in 1855, which he witnessed.

At a recent book auction in Cleveland, Ohio, two young husbands, married but a few months, became considerably warmed up in bidding on a cook book. Both were savagely bent on having it, and the price was run up to a good figure. What do you suppose called for such strife, and what would the wives of the young men say if they hear of such conduct out in public? The husband that had been the longer married got the book. He was (presumably) despatched.

Mrs. Mary Macerbin, who died at Washington the other day, nearly one hundred years old, used to say that she had seen every president from George Washington to Grover Cleveland. She was living in Baltimore in 1812, and saw the bombardment of Fort M'Henry. She knew well John Howard Payne, the author of "Home, Sweet Home," and witnessed his first appearance on the stage at Baltimore. She went to Washington first in 1812, and it took twelve hours by stage.

The Mound Morgan gold mine of Queensland has proved to be the richest mine in the world. It is situated on the range of a sheep ranch. It is an iron-stone hill in the midst of green grass. A public road runs over the mountain, and it was while repairing it that the gold was discovered. It was purchased for \$1,200, just 85 acres, and the shares are now worth \$75,000,000. It is supposed to be an old geyser impregnated with gold. The metal is extracted by the chlorination process and costs \$150 a ton.

Living on a farm near Cherryston, six miles from Tittusville, Penn., is Ralph Alcorn, a boy thirteen years old, who has the largest head for his years on record in that state. Three years ago his measurement was for a No. 8 1/2 hat. Two years later his head had grown to acquire a No. 8 1/2. Last season a No. 8 1/2 deer was ordered for him, while this week No. 8 1/2 was the size required. The boy is very bright and quick-witted, has a wonderful memory, is good-looking, well built, weighs 108 pounds, and, though it is very large, his head is regular in shape and perfectly formed. In playing he is obliged to abstain from running, for, as he says, he is liable to become overbalanced and to fall. The physicians say that in the end he will experience no inconvenience from his big head, as the body will in time catch up with his head and thus even matters.

"Well, I have been out about five weeks this time, and have met with very gratifying results. I have written many policies, and what is still more pleasing, I find that the Masonic Mutual Benefit Association is becoming very popular in this state. Now, Effie, tell me how you all are; I see you are looking so much better."

"Yes, father, that rheumatism which has given me so much pain for months has entirely left me. Oh! I was so lame a part of the time that I could scarcely stand upon my feet. Hubbard's Rheumatic Syrup and Plasters cured me."

"Well, Effie, that reminds me I have heard more praise for that remedy than any other ever known; every place where I have been I hear the people speak of its merit, both as a great medicine for rheumatism and a blood purifier."

"Well, father, you can recommend it; say that I believe it to be one of the best in the world."
