Delegates Need It. Each delegate-elect to the constitutional convention will within a few days receive a bound volume containing the constitution of 1850, annotated by sections. Declarations of the supreme court constraining the section and a history of amendments follow in each case. Blank leaves will be numerous as the printed matter as members are expected to come to the convention with notes and observations throughout. This is to be the first of three bulletins prepared for the use of the convention. One pamphlet is directed at the special legislation civil, for which Michigan is notorious. In 1881 the legislature passed 142 special local acts; the legislature of 1907 passed 414 such acts, not counting exceptions to general law, and a concurrent resolutions, game and fish provisions and other neighborhood measures. Mr. Miller says that in its legislative department Michigan is 50 years behind the times.

MICHIGAN BRIEFS.

There were 2,735 deaths in Michigan during August and 4,302 births.

Mrs. William Osborne, of Kingsley, accidentally gave her 15-year-old daughter, who was ill with diphtheria, carbolic acid, instead of medicine, causing her death.

In a fit of remorse after a debauch, Alfred Taylor, a printer and Spanish war veteran, threw himself in front of a street car in Saint Ste. Marie and was instantly killed.

A Pere Marquette train rushed to Grand Rapids from White Cloud, 43 miles away, to get James Atwater, an employe who was crushed under a freight train. He died on the way.

Because of conflicting evidence produced before the coroner's inquest, in the case of a man who was found dead in a freight car at Menominee, foul play is suspected. Two hoboes are in jail awaiting further investigation.

For the first time in 22 years, James and Henry Dairymple, brothers, met at Port Huron and talked over their boyhood days. The two were separated when young, Henry remaining in Port Huron and James going to Plymouth, Mich.

The recent completion of the grading operations of the Chicago, Milwaukee & St. Paul railway extension southwest from Grand Rapids to Iron River, means the near opening of a vast area of virgin timber in Ontonagon county.

Secretary Smith, of the University of M. C. A., who is registering students who need financial assistance in completing their college course, says that about 1,000 young men will put themselves through in whole or in part by their personal efforts.

News has reached Muskegon from Bear Swamp, telling of a lightning prank that visited the home of Frank and Mrs. A. B. Lusk, a 20-year-old daughter and a 15-year-old son. The lightning struck down her left side and tore the shoe from her left foot.

After getting on a Grand Trunk train in Battle Creek to return to Owasco, Mrs. Jerome Markham, an elderly lady, fell dead in a car seat. Her death was caused by a blow to the head and who had accompanied her to the train, were overcome with the shock.

Elks' Island, at Lake Gouzac, was raffled to raise funds for the new building of the order and went to a pool of fifty men who bought 250 tickets and paid Ann Converse \$300 for his chance when the contest narrowed to his and another ticket. The receipts were \$8,000.

A certain industry, which Bay City claims the distinction of being the originator, continues to grow the way it has the past two years. The city will soon be known throughout the country as Peanutville. Tons of that commodity are shipped from there to every state in the union.

With a disposition that does not seem to appeal to his many adopted parents, the boy was sent to a reform school, because no charge can be placed against him, yet too bad to stay in any of the homes found for him, not wanted by his mother, who is destitute, deserted by his father, is the sad plight of a young boy, of Grand Rapids. Temporarily Alton, in charge of Police Matron Mary Zinn, pending some solution of the situation.

The scheme to reform drunks and confirmed booze artists as out-bred and put to execution by Judge Adams, of Kalamazoo, within the past year, by farming them out instead of giving them jail sentences, has proven a big success, as far as it is gone. "Jim" Hawley, a notorious firewater consumer, was removed from his six months' sojourn at the Stoddard farm, and has been pronounced a model citizen. He has even lost his taste for spirits.

Henry Hees, 17, and Frank Link, 16, under arrest in Port Huron, have confessed, the police say, to having started out with the intention of becoming regular desperadoes, with horse-stealing as their long suit. They are charged with breaking into the residence of Henry Brown by forcing the door with the butt of a shotgun. It is alleged they took two revolvers and some cartridges.

Copper Output Slashed.

Lake Superior copper production shows a heavy decrease, being approximately only 19,000,000 pounds of refined copper, or practically 1,000,000 pounds less than in previous month. A few of the mines made slight gains. Whether it was by design or accident that the lake district shows a falling off in production, the fact is that smaller production is in the interests of the companies. With copper accumulating rapidly and comparatively little being sold, there is nothing to be gained in pushing the mines to their capacity. It is conservatively estimated that there are now upward of 30,000,000 to 35,000,000 pounds of refined copper in the lake district. While the copper looks formidable in its large piles on the docks, the accumulation will be cleaned up in remarkably short order when the large consumers enter the market for large quantities of the red metal.

Fishermen Reap Harvest.

Fishermen in Grand River above the Platt dam are reaping a harvest that is likely to be afforded once in a lifetime. The finest lot of fish ever taken from Grand River are being lifted out of various places along the river for several miles. The water was let out at the Platt dam and the surface of the river is lower than it was before the dam was built. The drawing off of the water stranded a lot of fish all along in the depressions, bays and sloughs. They cannot get away and the enterprising fishermen are gathering a glorious crop. Hundreds of fine pike and bass were taken and the ground blanketed by water is still being hunted over.

Thirteen Get Embalmers' License.

Out of 15 applicants for embalmers licenses examined at Escanaba by the state board of health, 13 were successful. Licenses have been issued to the following: George A. Prince, Fowler; J. H. Boyle, Bark River; Byron Hedt, Escanaba; Clyde E. Henry, Crystal Falls; Edwin Louis Zinke, Fond du Lac, Wis.; Fred A. Watson, Frankfort; Henry Carlson, Escanaba; Geo. Fillion Jr., Lake Linden; Guy B. Turner, Mesick; Theodore Lange, Houghton; Wellington C. Tate, Munising; Fred Eugene Hemingway, Deerfield; John F. Grabek, Calumet.

Want Prohibition in Michigan.

Determined efforts to secure in the constitutional convention some action looking to prohibition of the liquor traffic in Michigan will be made by the Woman's Christian Temperance Union. At a meeting of Lansing Central Union steps to promote the plan in Lansing were taken. The district union has sent out petitions which are to be circulated for presentation to the constitution makers. Committees were appointed to secure the consent of Lansing pastors to preach sermons, on some day yet to be designated, in support of the movement.

Horse Radish a Staple Crop.

Among the crops that have now become important staples in the Saginaw valley is horse radish. The large east horse radish factory in the world is located here. The growth of the business shows its adaptability to the soils of the Saginaw district for the production of a high class product. The company is completing a three-story factory building that is being equipped with thousands of dollars worth of new machinery.

To Improve Corn.

Articles of incorporation of the Michigan Corn Improvement association have been filed. The association is organized for the purpose of improving the quality and yield of corn, and it is supposed that a demand will now be made on the auditor general for the appropriation of \$500 made by the last legislature for the purposes named in the articles of incorporation. Prof. James J. Jeffery, of the agricultural college, and A. W. Jewett, of Mason, are among the incorporators.

Prof. After Their Money.

An answer and cross-bill has been filed in the circuit court at Ann Arbor by Prof. T. A. Bogie, receiver in the case of Theodore Most, against G. H. Purchase. This is the case of the Canadian oil leases into which a number of university professors put their money. The charge is made that there has been no full statement made of the affairs of the company by the trustees, and it is further charged that the sum of \$12,500 subscribed was not used by the trustees for the oil lease and well.

Value of the Philippines.

Admiral Dewey defines his position in reference to the Philippines and declares strongly against the abandonment of the islands. He says: "Every one concedes that the present is the future great field for the principal commercial nations of the world? We ought to be the leaders, but we must at least have a share in the enterprise, and in order to do so we must maintain the position we have occupied through force of circumstances in that region. Suppose we should dispose of the Philippines and Japan should acquire them? See how the islands stretch along the coast. Here are the Japanese islands, here is Formosa, which Japan owns, and then come the Philippines. If Japan had them she would command every gateway to the orient and the United States would be completely shut out. I do not believe that our country would be able to maintain the Philippines. The records of our diplomacy said the admiral. "We already have too much at stake to withdraw from the islands. It is only our control over the Philippines that makes it possible for us to insist upon the open door in the east, toward which our diplomacy has been directed for a number of years. We want our share of the enormous commerce of the east and we cannot keep the open door for it unless we hold the islands."

Cassie's Bluff Failed.

A suspicious and shrewd prison doctor caught Cassie Chadwick, serving a term in the Ohio penitentiary, in her attempt to secure sympathy and release by feigning illness and faking blindness. So she will be put to work again. The records of Mrs. Chadwick's alleged confinement as Madame Devere many years ago show that she succeeded in getting a parole on the ground of ill health. At that time she fooled the medical staff by well-shamming sickness. It was this history that caused the suspicion that she was trying the same old dodge, and the plan of the physician proved its correctness. Next week Mrs. Chadwick will be back at her task of sewing for the rest of the inmates of the big prison.

An Illegal Trust.

Assessing penalties aggregating \$1,500,000, Chancellor Hicks at Vicksburg, Miss., declared the Gulf Compress Co. an illegal trust and gave the corporation one year to wind up its business in the state and withdraw. He denied the application for a receiver. The ouster suit was brought directly as the result of the purchase of an independent compressor at Vicksburg. The Mississippi anti-trust law prohibits one corporation from purchasing the interests of a competitor corporation.
