CONSIDERING TRAP ROCK

In speaking of State Highway Commissioner Ely's plan for cheaper road material The Detroit Evening News of November 29d, said:

"The plan of State Highway Commissioner Ely, to have the commonwealth engage in the stone breaking business, should not be confounded with the scheme of former Commissioner Earle to have Michigan erect a new state prison devoted entirely to stone breaking. Mr. Ely and his deputy, Frank A. Rogers, have found that one of the greatest road building difficulties to be overcome in the lower peninsula of Michigan is getting material at a reasonable price. There is plenty of limestone in Monroe and other counties, but limestone is too soft for heavy traffic. So it has been necessary for Wayne county to go as far east as Little Falls, N. Y., and as far west as Wisconsin, to find trap rock suitable for good roads. But freight rates make Wisconsin material practically prohibitory for eastern Michigan, and stone that costs less than a dollar a square yard in New York, costs \$3 and more before it reaches Michigan.

Within half a mile of the Marquette State prison in the upper peninsula, is an inexhaustible quantity of trap rock, and only a short distance away are plenty of docks. The stone, after being mined by prison labor, can be loaded by machinery on a short line gravity car line and dumped directly into boats with very little handling. The cost of the stone at the docks, it is thought, need not exceed 25 to 40 cents a square yard, and with freight charges not over a dollar, the state can provide this raw material for road building in place of the present bonus being paid for good roads.

This plan also solves the prison labor problem, by giving convicts work that does not interfere with free labor now being employed. It opens up a new industry, for Michigan, without placing additional burdens on taxpayers, and at the same time it puts within easy reach of county good roads commissioners stone that they cannot now obtain without making the roads too expensive.

If, after thorough investigation, it is found that this trap rock can be furnished by the state at little or no greater expense than limestone is now costing, one of the greatest obstacles to the improving of the state's 72,000 miles of roads will be removed.

BEAUTIFUL WOMEN.

Paris is Full of Them and Nearly All Use Parisian Sage.

In the beauty show at the metropolis two years ago Gold Medals were awarded to five different women.

To the most beautiful woman between 20 and 25; between 25 and 30; between 30 and 35; between 35 and 40; and between 40 and 45.

A society reporter who interviewed all five women in the interest of his papers, reported that all of them had beautiful hair, and that each of the five enthusiastically attributed her luxuriant hair to Parisian Sage.

Charles Rhodes sells Parisian Sage for 50 cents a large bottle. He guarantees it to cure dandruff in two weeks; to stop falling hair and itching of the scalp. It makes any woman's hair beautiful, soft and luxuriant.

TO INLAND AUSTRALIA FOR YOUR HEALTH

ROUND TRIP ONLY \$1.00

If you are catarrh, asthma or hay-fever sufferer, what would you say if the above offer was made to you.

How would you like to go to the mountainous forests of pine and eucalyptus, where catarrh and asthma do not exist? Where people do not have to hawk every morning, to spit out the lump of disgusting mucus? Where the healing, antiseptic balsams purify the air and kill all germs?

You can't go to this ideal spot, of course. You haven't the time, and possibly not money. But you can, for \$1, bring the Australian balsamic air from these forests right to your home, without losing a minute's time.

Ask Charles Rhodes about Hyomei, the Australian dry air cure. Get an outfit, which includes inhaler, for \$1 breathe the same air that you would find in Australia, and if it does not heal the raw membrane and cure you of catarrh, snuffles, coughs, cold or asthma you can have your money back.
