CUSHING & BENEDICT

"Where you do the best"

Facts or Fairy Tales?

which do you buy clothes on

It is usually the salesman—and not the clothes—that tells you the glowing stories of \$25 for \$15, "wonderful value," "perfect fit" or "just made for you" and makes you think you are the luckiest man alive—until the clothes—and not the salesman—tell you in plain Americanese that you've got another "think coming."

When they're bought and paid for, you and not the salesman are the one who sees and hears the clothes speak for themselves. And they often sing a different song when given a chance to "make good."

Great expectations are always fulfilled at Slater & Goodes'

Because every suit in the place stands on its own legs, and tells you its own story of value, fit, pattern, etc., at the first meeting.

If you and a S. & G. suit don't agree after "getting together," we agree to give you one that will be as welcome as an old friend.

Remember that S. & G.'s never "cut prices," never sell "off merchandise" for the sake of quoting a "cheap" price, never charges TWO prices at one time in order to have an excuse for a 1-3 or 1-2 off sale later on.

At Slater & Goodes'

MEN'S WEAR

Boys' wear priced fair

is also in keeping with S. & G.'s "No Sale" policy. Your boy is bound to be as stylish and mannish as his Dad in a S. & G. Suit, but still original—our stock is large enough for that.

Hats Haberdashery

and other men's wear are also good examples of the values you get on a dollar-for-dollar basis here all the year round!

DOOMED TO DIE

Horse Given up to Die by Doctors Saved by Simple Remedy

Many Michigan people have found that the European war has raised the value of livestock—particularly horses. Therefore, it is now more necessary than ever to keep domestic animals in A-1 shape. To do this, a bully liniment to use is the same kind that George Wells of Syracuse, N. Y., used. He says "And the only medicine used on the foot after the horse had been given up to die by the veterinary surgeon, was Hanford's Balsam of Myrrh. This horse, which the doctor said should be killed after it had run a nail in its foot, lived to do many more hours of labor."

Solid Comfort

For less than a-Cent-an-Hour

What gives more comfort than a cool breeze, on a hot day in the city? And how much isn't one willing to spend to get it—yes, spend to go after it and often not get it?
 Yet, a cool breeze is one of the most easily derived of all hot weather comforts and one of the least expensive, when obtained from a Peerless Electric Fan.

Peerless Electric Fans

It can be used in any room having an ordinary incandescent lamp socket. All you have to do to get a breeze is to connect fan to socket and turn the switch.
