ALL GRADUATES PLACED IN POSITIONS.

"Ages ago, when the forces of Nature moulded the region of the Great Lakes, they marked the banks of the Detroit river as one of the strategic points of North America. Here is a site that commands main routes of travel and traffic, both by land and by water, between East and West, almost as Constantinople commands the gateway of Europe and Asia."—Judson C. Welliver in Munsey's Magazine.

OJIBWAY

sharing as it does, the natural location that made Detroit what she is today, is paralleling the growth of Detroit—the Dynamic City! The great tidal wave of industrial expansion that is sweeping over it now is irresistibly carrying it on to its proper place among the industrial centers of the American continent. On its crest are carried prosperity and riches for those who realize the inevitable future of Ojibway—the New Steel City.

FURNITURE and UNDERTAKING

Mr. Homelover—

It is a man's duty to give his wife a beautiful home. It is the parent's duty to bring up their children amid the best surroundings they can afford.

A nicely furnished home has a direct effect on the CHILDREN; it breeds refinement in them and instills a love of home which will be of untold value to them in the future.

We have studied the wants of the community in furniture and rugs. When you see our QUALITY goods and learn our PRICES, you'll buy from us.

The Economy of Using Goodyear Small Car Tires

So-called bargain tires, made up for sensational sales and offered at ridiculously low prices, do not attract careful buyers.

They are far more concerned with what they get than with what they pay because they know that in the end it is performance and not price that delivers actual tire economy.

The popularity of Goodyear Tires, of the 30 x 3-, 30 x 3½- and 31 x 4-inch sizes, is based on the fact that they deliver exceptional mileage at exceedingly low cost.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread— \$23.50

30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread— \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? \$4.50
