The Mola Washer will wash your clothes beautifully clean in just a few minutes, and without wear and tear to your clothes whatsoever. The cylinder in a Mola revolves four times and then reverses, thereby causing more agitation, and which is the secret of clean washing.

The wringer swings and locks in any position, making it very convenient in small rooms.

These are only a few of the many features found in the Mola. Let us show you the rest.

Workmen are busy at the De Luxe Candy store on State street this week, redecorating the interior of the store. The wall has all been scraped, and the former finish taken off, to insure good results with the new work, which is now being applied. The walls of the store are to be finished in a blue, which will blend well with the finish of the woodwork, cases, etc., and should present a handsome appearance when the work has been completed.

Financial Loss Due To Colds
It is estimated that the average man loses three days time each year from inability to work on account of having a cold. Much of this loss can be avoided by treating every cold as soon as the first symptoms of the disease appear. Chamberlain's Cough Remedy has won a wide reputation and immense sale by its cures of this disease. Try it. You are certain to be pleased with its pleasant taste and the prompt relief which it affords.—adv.—68-4t.

BIRD'S EYE VIEW OF ALMA MAUSOLEUM

The Building to Be Built By the Flowers Mausoleum Company

It is the purpose of this article to describe briefly a new and beautiful Mausoleum to be erected in Riverside cemetery, Alma, Michigan, the exterior of the building to be built of STONE, and the INTERIOR OF MARBLE.

The Rotunda will be a beautiful Chapel, the large hall-way of the Mausoleum eleven feet wide and the full length of the building, was designed especially for use as **A Chapel With Ceramic Floors and Art Glass Windows**

The rites that customarily are held in the open, about the grave, will naturally be held in the Mausoleum, in the space in front of the compartment to which the body is to be consigned.

Absolute Freedom From Dampness

The entire structure will be characterized by several important features, the first of these being freedom from dampness. It is only too true that no underground burial can secure this great consideration, when the level of the water in the ground rises to within a few feet of the surface, and a grave is very damp, if not actually flooded. Picture to yourself the bottom of a grave after a period of long continued rain; the dampness, mold and

In conclusion The Flowers Mausoleum Co., who are taking orders for compartments will appreciate it if you are interested to notify them by addressing Alma, Michigan, General Delivery, and a representative will call upon you and explain the plan in detail. This Mausoleum will be amply endowed so that the future of the building will be assured. The cost of compartments is moderate in price. Remember we only build for those who subscribe now, so if you want them, now is the time to get them. 67-2
