

cratic candidate for Governor of Ohio, was in the legislature of that state, and voted with Gen. Harrison to sell white men for fines and costs of court, where they were too poor to pay such charges themselves: this is believed to have lost him his election. And the same cause, coupled with Gen. Harrison's unpopularity in his own district, (where he has always been defeated before the people) and indeed throughout the State, will, it is confidently stated, lose him his own state. No well-informed "whig" now pretends to deny, when his candor is appealed to, but what Mr. Van Buren will surely be elected over all opposition—whiggery, anti-masonry, federalism and nullification. And we feel sanguine, if our friends can only be induced to go to the polls on Thursday next, 10th November, that North Carolina will not separate herself from the Republican party, in this great triumph of the Democracy of the nation. North Carolina would cut a sorry figure in the sparse, shivering ranks of bank whiggery! It cannot be: Go to the polls Democrats, and stand by your principles and your country, in the front column of the Republican phalanx.

Robert Barnwell Smith has been elected to Congress from the Beaufort district, S. C. by a majority of 146 votes over the present member, Mr. Grayson, Col. Clowry has beaten Gen. Rogers in the Yorkville district, by 200 votes. Col. F. H. Elmore has been elected from the Columbia district, without opposition. And Mr. Pinckney having been succeeded by Mr. Legare, in the Charleston district, there will have been quite a radical change in the South Carolina Congressional delegation.

So, you Give it Up!

Every intelligent man, who has access to the ordinary sources of political information, and who is not blinded by prejudice, or spell-bound by partisan zeal, must now feel convinced that MARTIN VAN BUREN WILL be elected President of the United States, in despite of all the fury of a maddened combination of every profligate faction in the land. The leaders of the combined bank aristocrats, federalists and nullifiers, now know that a Democratic President will be elected; and, elected, too, by the people! But although they are obliged to own, in private, that such an inevitable will be the result, yet they conceal their unwilling convictions from the people, under a last desperate hope, of being able to lumbag their followers in North Carolina, as to impose upon them a fraudulent ticket—professedly for White, but in reality for Harrison—the federal emancipationist!

Among others whose reluctant convictions have leaked out, is the Editor of a leading "whig" print, not a thousand miles distant; who has just returned from a tour of pleasure to Washington, Philadelphia, &c., with despondency in his countenance, and with a confession from his lips, that Mr. VAN BUREN will surely be elected, and that no other than supernatural means can prevent it. Yet, as the combined whigs and nullifiers still cling to a last lingering hope of cheating their followers into the support of the fraudulent "White" ticket, this Editor is muzzled, and dare not publish the honest convictions of his own mind, that the Democratic candidate, MARTIN VAN BUREN, will be elected.

ABOLITIONISM and WHIGGERY,

Are now closely leagued together against Mr. Van Buren and the democratic party. We have heretofore proven that a coalition has been formed between the nullifying disunionists of the South, and the abolition fanatics at the North, for the purpose of breaking down the Democratic Administration of Gen. Jackson, and defeating the election of the Republican candidate to the Presidency; and every movement of these two factions, betrays the sympathy of feeling that exists between them, and plainly indicates their concert of action against Mr. Van Buren and the Democratic party of the Union.

On the part of the fanatics at the North, Arthur Tappan and his gang have denounced Mr. Van Buren as an enemy to their abolition schemes; and they have come out openly in favor of White, or Webster, or Harrison, as the abolition candidate for the Presidency.

And on the part of the Nullifiers and federalists at the South, we have their leading organ, Duff Green's Telegraph, rejoicing over the success of Slade in Vermont, the noisiest and most open-mouth'd Abolitionist in Congress; in announcing whose election, the Telegraph shows its gratification by saying, "from the New York Express we have a cheering expression of political news—the election of Slade! And all the lesser lights of nullification and whiggery, join in the song of triumph over the success of this notorious Abolitionist!

In Pennsylvania and New Jersey, the Abolitionists voted the whig tickets: In Ohio, these fanatics went en masse against the democratic Van Buren candidates; and they make it a matter of boast, that every Abolitionist in that state will vote for their friend Harrison, the emancipationist!

Can stronger evidence than this be required, to prove beyond all cavil, that the nullifiers, bank aristocrats and federal whigs with their trio of candidates, Webster, Harrison and White, are leagued with the Abolitionists and fanatics, against Mr. Van Buren and the Democratic party? And can any sincere Republican in North Carolina, hesitate for one moment in deciding to go for Van Buren and Democracy, since the abolitionists and nullifiers are against them?

Baron de ROENNE, we learn from the Globe, was presented to the President of the United States on the 27th ult., to whom he delivered his credentials as Minister Resident of the King of Prussia.

HARRISON and NOT WHITE,

Is the real candidate of the nullifiers and federal whigs. Deny this as they may, events will demonstrate its truth in due time. Don't trust them, Republicans of North Carolina. "Thou shalt not utter a word," is the first FIB on record, uttered by that arch fiend who seduced the Mother of mankind to disobey the injunctions of the Great Author of the Universe, whereby sin and sorrow were entailed upon all the human race. Yet we don't know that the "Father of lies" himself, from that day to this, ever uttered half as brazen fibs, as have the whig and nullifying organs, in their efforts to conceal the plot, by which they had hoped to traffic away your votes in aiding to foist the emancipationist Harrison into the Presidential chair.

It is the game of these reckless politicians, to compass the defeat of Mr. Van Buren by any and every means; and they would not scruple to use Old Nick himself, if they could thereby effect their desperate purposes. They affect to deny the existence of any plot; yet in their next paragraph they falsify this denial, by avowing their intention to go for Harrison, "if he should be stronger than White," because they know White is positively and totally out of the question. The simple use of the pregnant if, under these circumstances, is, according to Mrs. Opie's "illustrations of lying," tantamount to downright FIBING.

Beware then, Republicans, of these arch deceivers: "Handle not, touch not," their fraudulent tickets; cheater and deception are stamped upon the very face of them.

"SOUR GRAPES."

COL. JOHNSON.—If there be any who do not know why it is, that the combined party of "new born whigs" assail Col. Johnson with such rancorous abuse and low-bred scandal, we can inform them.—The Colonel was applied to by this combination of federal-whigs and nullifying-aristocrats, to suffer his name to be run by them for the Presidency of the United States; but he promptly declined the honor, expressing his determination never to lend his name to any other than the Democratic party of his country, having, as the champion and defender of the rights of American freemen, without regard to geographical limits, ever found that to be the party of the people.

It was therefore natural enough, after this "new born whig" party had succeeded in seducing Judge White, and prevailing on him to apostatize from his old faith to separate from his long cherished political associates, and to become their candidate—that they should empty the vials of their wrath upon the head of Col. Johnson, in return for the rebuke he gave them in resisting their attempt to array him in opposition to his Republican friends, and against the Democratic party.

But honest people of all parties will inquire, how it happens that Col. Johnson was thought by the whigs worthy to be their candidate for the Presidency, when now they slander and vilify him as totally unfit for the Vice Presidency? Depend upon it, it is malice, it is envy, that prompts these malignant partisans to heap such vile abuse upon the patriotic old soldier and devoted friend of the people.—And the honest Democrats of North Carolina, will stamp the seal of their reprobation upon those who would slander the fame of their best and most faithful friend.

WHIG VERACITY. An article appears in the last "Register," relating to the "whig" prospects in Pennsylvania, in which it is affirmed, that "with proper exertions, we feel convinced that Harrison will carry the State in November!" And this, too, is affirmed in the teeth of an almost total annihilation, at the elections just past, of every thing like Harrisonism or bank-whiggism in that State!

Such an abandonment of every semblance of truth and reason by the organs of whiggery, is proof conclusive that their party has become desperate; and we now direct public attention to the silly assumptions contained in the Register, merely for the purpose of showing, that that print has become as hopeless of its cause, as it has all along been reckless of truth and fairness.

Its character for veracity was most admirably illustrated by one of its own readers, and believers, so far as conscience would permit him to believe its extravaganzas: Being asked if he could put faith in all the Register said, he replied, that he knew a good many things it published were facts; and he "reckon'd he had a right to believe the balance, if he proved it to be true!" So then it would seem that full faith is not reposed in the testimony of this organ of whiggery, even by its own party; and that they are under the necessity of proving its character as a veracious witness, before they can themselves place entire dependence upon its random assertions.

The Perquimons Senator,

We perceive the enemies of Governor SPAIGHT are making great complaints at his not issuing a writ of election to supply the place of Senator Wilson, deceased, from the Perquimons district. Governor Spaight is not in the City, and we have no means of knowing whether a writ has or has not been issued. We have heard, however, that the Governor entertains serious doubts of his authority to issue a writ of election under the present circumstances. But we differ with him on this point, being of opinion that he would be borne out, by a fair and liberal construction of the amended Constitution, in immediately issuing a writ to supply the vacancy.

No one, however, who knows the integrity of character, and the firmness of purpose, of Governor Spaight, can expect to avert him from his honest convictions of duty, by either dictation or abuse.

WHITE WHIGGERY BREAKING UP!

We see it stated that Gen. BLAIR, one of the members of congress from Tennessee, who went into the Bell-caucus of eleven at Washington, which nominated Judge White, "has abandoned the White party in disgust, and now zealously supports the Democratic candidate for the Presidency."

And the honest Republicans are doing the same thing in Virginia, in North Carolina, in Alabama, and in all the States where Judge White was taken up under the belief that he would be the Republican candidate, and be supported by the Democratic party of the country. But since these honest Democrats are finding out that White's name has been used by the crafty leaders of the nullifiers and federal whigs, merely as a lure to cheat their followers into the support of HARRISON, the tariffite, bank advocate, and emancipationist, they are fast abandoning the ranks of that faction, as a prudent household would abandon a dilapidated tenement that was crumbling about its ears from sheer rottenness, and are flocking to the "Standard" of Van Buren and Democracy.

WHITE CANNOT BE ELECTED.

Since it has become apparent to every body who takes any interest in the politics of the country, that there is not the remotest possibility of Judge White's being elected, and that the nullifiers and federal whigs are leagued in a foul plot to transfer his late supporters to the tariffite and emancipationist Harrison; those Republicans who have hitherto been supporters of the Judge, under the impression that he had been honestly brought out, and honestly supported as the Republican candidate, are fast clearing their eyes of the dust thrown in them by the "whigs," and now begin to see the gross imposition practised upon them by the cunning managers of whiggery: they are consequently quitting the nullifiers and whigs by scores, and rallying in the ranks of the real Republican party. And could the election be delayed one month longer, we verily believe scarcely a sincere Republican in North Carolina would be found on the side of whiggery, so rapidly are they thronging to the support of Van Buren and Democracy: the nullifiers and federal whigs would be left "alone in their glory," in their support of the triangular piebald ticket.

SICKNESS IN S. CAROLINA.

A letter is published in the Charleston Courier, dated at Rice Hope, North Santee, Oct. 19, which says:

"Since I have been here I have seen much misery, & much of human suffering. The loss of property has been immense, not only on South Santee, but also on this river. Mr. Shoobred has lost, (according to the statement of the physician,) forty-six negroes—the majority lost being the prime hands he had—Bricklayers, Carpenters, Blacksmiths and Cooper's. Mr. Wm. Mazyck has lost 35 negroes. Col. Thos. Pinckney, in the neighborhood of 40, and many other Planters, 10 to 20 on each plantation. Mrs. Elias Horry, adjoining the plantation of Mr. Lucas, has lost, up to date, 32 negroes—the best part of her prime negroes on that plantation."

NEW JERSEY.—An act has just been passed by the Legislature, fixing the election of Presidential Electors, and of Members of Congress, for the 15th and 16th of November.

Another theatre burnt.—We learn from Cincinnati, that the new and splendid Theatre in that city, owned by Jas. H. Caldwell of New Orleans, was burnt to the ground on the 21st ult. It seems the fire was communicated by the carelessness of an attendant, who was cleaning the lamps.

NUISANCES.—We observe that the Grand Jury of Frederick county, Maryland, has presented the old anti-republican, rotten borough Constitution of that state, as an intolerable nuisance; and that the Grand Jury of Allegheny county has presented the patriotic 19 republican Electors who are doing all they can to abate that nuisance, as unfaithful public servants. But we predict, that the Democracy of Maryland will quash the Allegheny proceedings, and find a true bill in regard to those in Frederick.

SUICIDE.—A highly respectable correspondent in Lincoln county informs us, under date of 23d ult. that WILLIAM S. SIMONTON, formerly a merchant near Beattie's Ford, and for some time proprietor of Catawba Springs, committed suicide on Thursday the 20th ult. by cutting his throat. "He has been much distressed in mind," (observes our correspondent) for some time, occasioned by his own improper conduct."

Charleston and Cincinnati Rail Road. At the closing of the book on Saturday, 22d ult. there had been subscribed 15,000 shares, a million and a half, by the citizens of Charleston.

BANK IN SALISBURY. We learn that the Directors of the Cape Fear Bank have determined on establishing an Agency of their establishment in the town of Salisbury; and that they have purchased the Banking House of the old State Bank of North-Carolina.

Dr. Joseph Lovell, Surgeon General of the Army of the U. S., died at Washington City, 17th ult. He was highly respectable in his profession, and much esteemed by his friends and acquaintances.

JONES KENNEDY, Esq. of Jonesboro' Tenn. has been appointed by the President, to be one of the Commissioners of Claims under the late Cherokee Treaty, in place of Gen. Wm. Carroll, resigned.

JOHN D. PHELAN, Esq. has been appointed by the President, U. S. district attorney for North Alabama, in place of Byrd Brandon, resigned.

GEORGIA.—In this State, the Van Buren Democrats have been victorious, in all the predictions of the nullifiers and whigs, and their shouts of victory in anticipation of the result. An average majority of 8 or 900 over the nullifiers has been obtained for the Union Democratic Members of Congress, and a Democratic majority of 40 to 50 Members in the Legislature. "If (says the Augusta Courier) our opponents can find any thing to console them in this election, when every thing is understood, do for mercy's sake, let them enjoy it. It is the last gleam of light, that will illumine their destiny."

And the Columbus Sentinel confidently predicts, that the Van Buren electoral ticket in Georgia, will be carried by at least 3000 votes at the November election.

NEW JERSEY.—We last week gave an account of the triumph of the Democrats in this state, at the recent elections. A democratic state convention was held at Trenton on the 20th ult. at which candidates for Congress, and for Presidential Electors, were selected. From the unanimity, and the determined spirit that prevails among Republicans, they have shown themselves the worthy sons of the "true blues of Jersey," of Revolutionary fame. All information assures us, that the Democratic Electoral ticket will be carried in New Jersey, by from 3 to 5000 majority over the federal whig ticket.

TEXAS.—Gen. Samuel Houston, having been elected President, and Col. Lamar Vice President, it is supposed that Col. Rusk, the head of the War Department, will be appointed Commander in Chief of the Texian Army.

INDIAN TREATY.—A letter is published from Gen. Andrew S. Hughes, dated at Fort Leavenworth, Sep. 17, in which he says, "It is with unfeigned pleasure, after a struggle for many years, I now have it in my power to announce to you, and to my fellow citizens of the "Far West," that on this day a treaty has been satisfactorily concluded with the Ioway, Sac, and Fox tribe of Indians, by which they have ceded and relinquished to the United States, all their claims to the strip of Land, lying west of the State of Missouri, and North of the Missouri River."

FOR THE STANDARD.

SIGN IN ORANGE.

MR. EDITOR: At a corn shucking at the Hawfields, the other night, the whig nullifiers were clamorous for taking the vote on the Presidency, and dared the Van Buren Democrats to the test: Well, the vote was taken, and Van had two to one against the field! And this is the way we hope to serve the feds and nullies in Old Orange on the 10th Nov.

FROM THE NORTH CAROLINA JOURNAL.

COL. JOHNSON.

MESSRS EDITORS: Sojourning in your county a few days, on Monday last I picked up a newspaper printed in your city called the Observer, in which I saw a piece containing most unkind charges against Col. Johnson of Kentucky—such as these, that he had had two black wives among his own slaves, and had lived with one

of them, and on her death, took another, that he had attempted to introduce his mulatto daughters into a Ball room in Kentucky, and had declared they were as good as any of the White Ladies present. These charges are so untrue and unjust, and I know them to be so; that although a stranger to most of your citizens, I hope I am not a stranger to the truth, but a friend of the truth, and as such, I have felt it to be my duty to contradict them. The editor who published these charges must have been grossly deceived himself or has been guilty of gross misrepresentation, which I should be sorry to believe as I have been informed he is in membership with the Episcopal church. These charges are so monstrous and so revolting, that my surprise is the greater, that any man should be so credulous as to believe, for one moment, that they could be true, and yet that Col. Johnson should have been honored by his neighbors, and his native State, with a seat in Congress, for thirty years; a part of that time, the Legislature elected him their Senator in Congress, and the larger part he represented his own District, which contains a population of upwards of fifty thousand souls. I have a personal acquaintance with Col. Johnson. I was born and raised within a few miles of his house. I know him almost as well as I know myself. It is reported, that Colonel Johnson, had two illegitimate children by a mulatto woman; but this was when he was a young man, before he had laid aside the follies of youth. But it is a wicked falsehood to say that he ever lived with any colored woman as a wife. After Col. Johnson retired from the army, he became strongly attached to the Baptist Church, was a constant attendant on its services, was as exemplary and moral in his habits, as the best citizens. I know this well, because I am myself a member of that church. I refer you for all this to the letter of the Rev. Mr. Henderson, a Baptist Minister, who lived in his family, and which was published in many of the Newspapers about 18 months ago, shewing Col. Johnson to be a good, moral and exemplary man in every walk of life.

Col. Johnson is beloved by every neighbor he has got, his house is visited by ladies and gentlemen of the first respectability in Kentucky—it is open to every body, the poor as well as the rich—no traveller in that country, but calls on him; in fact his house is a home for the sojourner and the way faring man, and more particularly for the clergy of all denominations who literally live on the man. I believe that never did a poor or distressed fellow being call on him for relief, but it was granted. He is a good and honest man in every sense, nor could any one living beat him for Congress in his own district, where he is best known:—for his character in Congress and at home, has always been, that he is the friend of the poor and friendless. For his character at Washington, I refer you to a letter from the Rev. Mr. Comstock of New York, who served in Congress with him, and I believe messed with him, for several years. If I recollect that letter right, it shewed that while in Congress, he was not only ardently devoted to his duties as a Legislator, but supported a most christian like and moral character. Indeed Mr. Editors, if Col. Johnson had not been run for Vice President of the United States, the sin of his youth would never have been raked up against him, he would have stood as fair as your first gentlemen. But what has yet been found too bad for the bitterness and wickedness of party spirit? I ask you to publish this as a friend to the truth.

Congressional Globe.

PROSPECTUS.

From the experiment we have made it is ascertained that the patronage of the country will support our annual publication of the proceedings and speeches made in Congress. We therefore propose to prosecute the design and confidently hope to improve and perfect it. In giving, from week to week, a succinct and clear report of the proceedings of both branches of Congress—a brief and condensed report of the substance of the remarks of each speaker, using the precise words upon the main points touched—the yeas and nays on all important questions, and concluding the volume, after the adjournment, with an Index for reference, a great deal was done towards giving an accurate parliamentary history of the proceedings of one of the greatest and ablest representative assemblies in the world; an assembly on the deliberations of which the destinies of the free institutions of this country depend for their maintenance; and, therefore, in some degree, freedom throughout the world. Our original plan extended no further than this epitome of the debates, with the proceedings; but at the last session we added an Appendix, to contain all the fully reported speeches, as prepared by the speakers themselves for publication. This extended the work from a single volume of 324 royal quarto pages, to two volumes, making together, 1184 royal quarto pages. These we have furnished to subscribers at the price of one dollar for each volume, *sent or sent to be furnished, through the mail, as they fall from the press, in sheets, and chargeable only with newspaper postage, varying from a cent to a cent and a half a sheet.*

This we hold to be the cheapest work ever published, whether the labor and expense of getting it up be considered, or the value of it to the present or future generations. The last few months of all parties in every State in the Union concentrate in the speeches of each session of Congress, the mind, the information and the feelings of every portion of our country. The political history of the country, for the time being, is not only spoken and written out in Congress at each session, but the designs of every party, or fragment of a party, are developed, and the future tendency of the Government itself laid open. Thus, independently of the interest which every man must feel in the real business transacted in Congress, all who would understand any thing of the political career of the government, should be provided with the embodied views of the leading statesmen of all parties, on every subject, which engages the attention of Congress, and which is tendered to them in this Prospectus.

TERMS.

CONGRESSIONAL GLOBE. I copy during the Session, \$1.00; 11 copies during the Session, 10.00. *APRIL, same price.*

The Congressional Globe will be sent to those papers that copy the Prospectus, if our attention shall be directed to it by a mark with a pen. Our Exchange List is so large that we would not observe it, probably, unless this be done.

Payments may be made by mail, postage paid, at our risk. The notes of any specie-paying Bank will be received.

Those who subscribe, should send their subscriptions in time to reach here by the 10th of December next, at furthest, to ensure a complete copy.

No attention will be paid to any order, unless the money accompany it, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires.

BLAIR & RIVES.
