

The Bismarck Tribune.

J. M. H. JEWELL.

THE DAILY TRIBUNE.

Published every morning except Monday, at Bismarck, North Dakota, is delivered by carrier to all parts of the city at 40 cents per month, or \$4.80 per year. If sent by mail through the post office, \$4 per year. The daily sent to any address outside of Bismarck in the United States or Canada, postage prepaid, \$4 per year; \$2 for six months; \$1 for three months.

THE WEEKLY TRIBUNE.

Published every Friday; twelve and sixteen pages; containing a summary of the news of the week—local and foreign—particular attention being paid to state news. Sent to any address, postage paid, for \$1 for one year; 50 cents for six months; 25 cents for three months. The Bismarck Tribune is the oldest newspaper in the state—weekly established June 11, 1873; daily established in 1881. It has a wide circulation and is a desirable advertising medium. Being published at the capital of the state it makes a feature of state news, of a semi-official character, and is therefore particularly interesting to all who desire to keep the run of state affairs—political, social and business.

RENAMING THE RED MAN

Dr. Charles Eastman of Minneapolis, an educated Indian, author and linguist, is engaged in the curious task of renaming the Indians for the government. Of this task the New York Sun humorously says:

"Vain is the work of nomenclature which Dr. Charles A. Eastman is ingeniously doing to make 30,000 Sioux Americans in name as well as in the inalienable right to labor in the sweat of their brows. As agent of the United States government Dr. Eastman is just finishing his fifth season of taking away the native and romantic names of his brother Sioux and substituting for them plain Saxon surnames which shall be more pronounceable if less satisfactory to the ethnologist.

"A few samples will indicate the line of least resistance followed by Dr. Eastman. Tamilyanka becomes Abraham Alwayswhere, Abraham being thrown in for a handle, because the old name can best be translated by the new. Tatankakunyunke looks hopeless, but as it means 'the bull that lies down,' Dr. Eastman simplifies matters by calling his Indian friend Bulldown—Albert Bulldown. Among other names he has allotted to the new Americans are Reuben Anotherday, Albert Blacktomahawk, Alfred Greyeagle, James Brownsinew and Ezekiel Brownthunder. That the doctor's task is not easy but yet must be congenial to one of a sentimental turn is illustrated by the poetical designation of Mr. Brownsinew's mother, who reappears as Nancy Daybreak Brownsinew.

"We say that Dr. Eastman's labors are vain, although he must be envied the satisfaction he is deriving from them, because no man is going to worry through life with such an appellation as Reuben Anotherday or Albert Blacktomahawk. Contractions will soon make him Reub Day or Bert Black by the custom of the vicinage and he will be merged in the time honored family of Day or Black, so that the future genealogist will put him down as a descendant of one of the early English colonists who came over on the Mayflower or was one of the original settlers of Jamestown. It is conceivable that the new Americans' own descendants will visit Plymouth Rock and view it as a monument of his race that in the name of religious liberty despoiled the red man of his heritage."

The failure of President Roosevelt to mention the Japanese question in his message, followed by the announcement that Viscount Aoki, the Japanese ambassador, has been recalled to Tokio, is occasioning some uneasiness in diplomatic circles. It is known that the ambassador has been recalled to explain to his sovereign personally and in detail the precise situation in this country with reference to the immigration problem, and he also will be expected to give what he considers a correct interpretation of the sending of the battleship fleet to Pacific waters. The immigration question gives evidence of growing dangerous again. Although an agreement was reached with the Japanese government last year, in which he pledged it to discourage emigration of its citizens to this country, the influx of Japanese to the Pacific slope has been growing alarmingly. It is only a question of a very short time, in the opinion of the Washington authorities, before there will be another outbreak, unless something is done toward a solution of the problem.

A few months ago the Fargo Forum suggested that candidates for state offices should be pledged to reside in Bismarck—if elected. The old custom, continues the Forum, of paying periodical visits to the capital to draw their pay checks won't go any more. The work in most instances has been left to deputies—and while it has probably been performed as well as if the proper of-

ficials had been there, the plan is not right. No man should seek an office merely for the sake of he will get in salary. The people of the state are inclined to demand that officeholders shall personally attend to the business. The press of the state is taking the matter up and the comment is universally favorable to the election only of men who will reside in Bismarck and personally conduct the affairs of their offices.

The selection of Harry New as chairman of the republican national committee is a recognition of a well-trained and experienced political organizer. He has been prominent in his home city of Indianapolis many years and as secretary and vice chairman of the national committee has made good.

Reaching over 85 percent of the families of Bismarck and Burleigh county and every postoffice on the Slope is the condition enjoyed by the Bismarck Daily and Weekly Tribune that will be appreciated by the business houses of the Slope who want to reach the ear, and the patronage of the people.

The kind notices of Col. Little's candidacy for the senate are seemingly as frequent in the Red River valley and other parts of the state as in the Missouri Slope papers, which shows an era of good feeling.

The Hankinson News thinks there are a heap more unpopular men than Governor Burke in the state.
