OFFICIAL PAPER OF BURLEIGH COUNTY.

OFFICIAL PAPER OF CITY OF BISMARCK.

Entered at the post office at Bismarck, N. D., as second-class matter under Act of Congress of March 3, 1879.

Member of Associated Press.

TUESDAY, AUGUST 20, 1912.

SECOND ANNUAL NORTH DAKOTA INDUSTRIAL EXPOSITION, BISMARCK, OCTOBER 1 TO 13, 1912.

THE AUDITORIUM MATTER.

The result of the bond issue election rather emphatically pronounced the sentiment of the citizens of Bismarck in regard to the idea of building an auditorium at this time that would reach the figure as had been proposed by President Williams.

The vote of yesterday also gave the impression that the people were satisfied with the matter as it had been settled by the first bond election held earlier in the year, when it was voted to give the commission \$45,000 to build a municipal theater.

The Tribune has always been an advocate of progress for Bismarck, and has always supported any worthy enterprise, but the Tribune believes that in any municipal improvements that all conditions should be considered.

The suffragette vote is also vouchsafing an occasional smile to President Taft and Gov. Wilson. The summer flirtation is a feature of the campaign.

The ex-Sultan of Morocco after a few weeks in Paris will probably regret the years of his life he wasted trying to hold a government position.

England and Germany believe in battleships as a means of settling arguments. Over here the proposition to build them starts one.

Sometimes a New York policeman who decides to put money in the savings bank and lay up something for a rainy day, overdoes it.

There are occasions when Mr. Taft has to devote his time to being president instead of laboring personally for future advantage.

NO COMPROMISE.

The President's veto of the legislative bill, chiefly because it carries a provision limiting the departmental tenure in Washington to seven years, puts the matter before congress in definite shape.

The prohibition party's ideas as to beverages offer some rather valuable suggestions for reducing the high cost of living.

Any official with experiences as a 'man higher up' should know instinctively when it is time to climb a tree.

Chicago's art burglar overlooked some very neat pieces of bric-a-brac in the way of platform paragraphs.

A measure absolutely compelling Congress to take a summer vacation might get by without a vote.

not meanwhile disturbed, beyond the range of a single presidential administration, did not cause this modification to savor any less strongly of spoils. The motive behind the move was not changed, and that motive, it is never to be forgotten, was for a clerical term exactly coincidental with the presidential term, a precise adjustment to the requirements of the political spoilsman.

If the merit principle is to be preserved, the legislative bill must be passed in a new form, leaving the tenure of the clerks exactly as it stands today, without definite limit. Let the matter rest squarely upon the issue of limit or no limit. The friends of the merit system will do well to insist upon this test at every stage, to press firmly home this proposition, that any limitation of the term means spoils, and that the only safe way is to revert to the existing law as affording the best possible guarantee against the prostitution of the public offices as partisan pastures for the favored few.

When a multi-millionaire puts up his campaign contribution he must avoid mentioning any cabinet or diplomatic office that he thinks would fit him. But he cannot help standing around a few minutes and looking wistful.

England has not mentioned Lord Mersey as a maritime expert who should be called on to construe references to the Panama canal in the Hay-Pauncefote treaty.

Harry Thaw's employment as a clerk in Mattawan should have a greater restorative effect than his customary activities in the line of legal complexities.

A man who buys automobile tires has hard work in believing that the big interests are compelling South American Indians to collect rubber free of charge.

Dublin is now waiting to see whether the militant suffragettes sentenced to prison will have to be liberated on the grounds of loss of appetite.

The suffragette vote is also vouchsafing an occasional smile to President Taft and Gov. Wilson. The summer flirtation is a feature of the campaign.

The ex-Sultan of Morocco after a few weeks in Paris will probably regret the years of his life he wasted trying to hold a government position.

England and Germany believe in battleships as a means of settling arguments. Over here the proposition to build them starts one.

Sometimes a New York policeman who decides to put money in the savings bank and lay up something for a rainy day, overdoes it.

There are occasions when Mr. Taft has to devote his time to being president instead of laboring personally for future advantage.

Experiences of both lines and battleships hint at the possibility that there is some reckless driving on water as well as land.

The prohibition party's ideas as to beverages offer some rather valuable suggestions for reducing the high cost of living.

Any official with experiences as a 'man higher up' should know instinctively when it is time to climb a tree.

Chicago's art burglar overlooked some very neat pieces of bric-a-brac in the way of platform paragraphs.

A measure absolutely compelling Congress to take a summer vacation might get by without a vote.

California woman died as a result of wearing too small a corset. Some women would rather die than be out of form.

Just one little favor. When the sun begins to broil again, please say: "Hot, isn't it!" instead of: "Hot, ain't it!"

"UNCLE JOSH" PERKINS.

The ideal entertainment for the average theatre is a combination of a little pathos and a great deal of fun, much music and pretty stage pictures, and all these requirements are met in the famous New England rural comedy drama, "Uncle Josh Perkins," which is announced for an early visit to this town. It is perhaps because of this satisfying array of attractions that the wholesome and humorous picture of farm life has long outlived many, many more pretentious plays. "Uncle Josh" is worth waiting for. At Bijou Theatre, Bismarck, August 22.
