OFFICIAL PAPER OF BURLEIGH COUNTY.
 OFFICIAL PAPER OF CITY OF BISMARCK.
 Carried at the post office at Bismarck, N. D., as second-class matter under Act of Congress of March 3, 1879.
 Member of Associated Press

reasons for selecting a certain name. By all means, name the farm and have the name registered with the register of deeds. It is a good idea for the owner of a farm to have printed stationery with the name of the farm on it.

REASONS FOR THE GAS PLANT DELAY.

In a political circular issued Saturday an attempt was made to deceive the voters and taxpayers relative to the delay in acting on the Lahr franchise, which is now pending before the city commission, by making a brazen inference that the rates quoted for the use of gas are those now appearing in the franchise which in fact they are the rates given by Mr. Lahr in the franchise asked for in July, 1912, the conditions of which franchise, besides the rates is entirely different than the one now pending before the commission, and which is the main reason why the commission has failed to approve the present franchise. Quoting from the circular as to rates: "On July 15th, 1912, he (Lahr) submitted a proposed gas franchise to the city commission, this gas franchise carried the very low rates of \$1.05, \$1.19 and \$1.15 per thousand cubic feet of gas." These rates vary according to the amount consumed per month. The Northwestern Distillation & Power company met these rates and gave by far more liberal concessions to the city in other matters than the Lahr franchise, among them being 2 per cent to be paid the city on the total amount of gas consumed within the city of Bismarck.

The present franchise asked for by Mr. Lahr carries the following rates: one thousand cubic feet, and where the consumption of gas by the city amount to ten million cubic feet the price to customers shall be \$1.65 per thousand cubic feet, and where the total consumption reaches twenty million cubic feet the rate shall be \$1.67 per thousand, and where the consumption reaches thirty million the rate shall be \$1.50 per thousand cubic feet. Thus it will be seen that the lowest rate in the present franchise under the most stringent conditions will be \$1.50 per thousand cubic feet. In connection with the matter of the rate alone the city commission is certainly justified in weighing the matter carefully when you consider the wide difference in rates as proposed by Mr. Lahr in July, 1912, and in January, 1913.

In Mr. Lahr's July franchise there was no provision asking for a minimum rate, but in the present one he asks a minimum rate of \$1.00 per month from each consumer, whether any gas is used during the month or not. Mr. Lahr in the present franchise asks that he be permitted to delay the commencement of construction of the plant until April 1st, 1914. The commission can see no good reason why the construction of the plant should not commence within a reasonable time after the granting of the franchise.

These, together with other conditions of the franchise now before the commission, certainly justify them in going slow before binding the city to a 30-year contract.

In September, 1912, the commission passed an ordinance granting the Northwestern Distillation & Power company a gas franchise, the conditions were favorable to the city, the rates were as low or lower than the franchise introduced by Mr. Lahr in July, but the company refused to accept same for the reason that chapter 71 of the laws of North Dakota for 1911 provides that the rates and charges fixed in said franchise may be altered by the municipality every five years upon giving notice, and after a reasonable opportunity to be heard.

It was no fault of the city commission that this franchise was not accepted.

The ideas of the promulgators of the political circular appear to be that a franchise should be granted to supply the city and its inhabitants with gas, no matter what kind of a robbery it is committed with regard to the rates charged, but the city commission thinks otherwise and we believe that the citizens will approve of the action of the city commission in its delay with reference to this particular franchise.

NOTICE TO BARBERS OF STATE OF NORTH DAKOTA.

It is ordered by the President of the North Dakota Barbers Examining Board to hold meetings at the following places: Fargo on Monday and Tuesday, the 7th and 8th; Jamestown, Wednesday, 9th; Bismarck, Thursday and Friday, 10-11 of April 1913. All barbers working without license are ordered to meet with the board at one of these places for the purpose of taking the examination for barber license. Bring Barbers tools with you.

State Capitol Run

Hall Has New Clerk.
 Eugene Walla of Jamestown has been appointed as a clerk in the office of Secretary of State Thomas Hall and will start in his new work this morning.

Abstract Company Incorporates.
 The Barnes County Abstract Co. has incorporated with a capital stock of \$5,000. The incorporators and first board of directors are as follows: Ernest G. Wanner, Theodore Henry and G. H. Henry, all of Valley City, and is really a combination of the two old abstract companies there.

Gov. Hanna at Chautauqua.
 Rev. Karr, well known over the state and just at the present time much interested in the promotion of the chautauqua at Valley City, was in Bismarck Monday and called on the governor. Mr. Karr was successful in persuading Governor Hanna to take part in the opening exercises of the chautauqua next June. He states that great preparations have been made to give one of the best programs ever attempted the coming summer.

Property Exempt From Taxation.
 There has been considerable interest manifested in S. B. 23, which was introduced by Senator Talcott, and which will become a law on July 1. There was no emergency clause attached. The bill read to amend session laws of 1911 and as a matter of fact it is a change back to the law as it stands in the code at the present time. The personal property exemption has been placed back at \$50, where it has been \$10 for the past two years. Sections 1, 2, 3, 4, 5 are practically unchanged. Section 6 makes it plain that dormitories and boarding halls in educational institutions must not be operated for a profit if they wish to be exempt, section 7 remains unchanged and 9 is the same, with the exception that properties of sororities, fraternities or organizations of college students.

Following is the bill given in full: Chapter — S. B. No. 23—Talcott—Property Exempt From Taxation—An Act to Amend Chapter 290 of the Laws of 1911, Relating to Property Exempt From Taxation.

Section 1. Enacted by the Legislative Assembly of the State of North Dakota: Section 1. Amendment.—Chapter 290 of the Laws of 1911, is hereby amended to read as follows:

Section 1484. Property Exempt from Taxation.—All property described in this section to the extent here in limited shall be exempt from taxation, that is to say:

1. All public school houses, academies, colleges, institutions of learning, with the books and furniture therein, and the grounds attached to such buildings, necessary for their proper occupancy, use and enjoyment, not to exceed forty acres in area, and not leased or otherwise used with a view to profit; also all houses used exclusively for public worship and the lots and parts of lots upon which such houses are erected.

2. All land used exclusively for burying grounds or cemeteries.

3. All property, whether real or personal, belonging exclusively to the state or to the United States.

4. All buildings belonging to the counties, used in holding courts, for jails, for county offices, with the ground, not exceeding in any county ten acres, on which buildings are erected.

5. All land, houses and other buildings belonging to any county, township or town, used exclusively for the accommodation or support of the poor.

6. All buildings and contents thereof, belonging to institutions of public charity, including public hospitals under the control of religious or charitable societies, used wholly or in part for public charity, together with the land actually occupied by such institution, not leased or otherwise used with a view to profit; and all moneys and credit appropriated solely to sustaining and belonging exclusively to such institutions; also all dormitories and boarding halls, including the land upon which they are situated, owned and managed by a religious corporation for educational and charitable purposes for the use of students in attendance upon the state educational institutions; provided, that such dormitories and boarding halls be not managed or used for the purpose of making a profit over and above the costs of maintenance and operation.

7. All properties belonging to counties and to municipal corporations that are used for public purposes.

8. Personal property of each individual subject to taxation, to the amount of fifty dollars.

9. The personal and real property owned by charitable associations, councils, commanderies, consistories, and like organizations, and associations not organized for profit, grand or subordinate, and used by them for places of meeting, and to conduct their business and ceremonies; provided, however, that such property is used exclusively for such charitable purposes; provided, further, all personal and real property owned by any fraternity, sorority or organization of college students.

10. The real and personal property of any agricultural fair association,

Swing Around the Horn.
 State Superintendent of Public Instruction E. J. Taylor has left for Minot, where he will attend a meeting of the board of control of Normal schools. From there he will go to Devils Lake, to look after summer school matters, and from there to Fargo, where there is a meeting of the agricultural high school board. He will also attend a meeting at Grand Forks before returning to Bismarck on Saturday.

Leasing School Lands.
 Gilbert Haugen of the board of school and university lands has left for the north and northwestern part of the state, where he will have charge of the leasing of the school lands at the county seats in that part of the state and will be gone for about a month. Bert Thurston, deputy in the department, has also departed and he will go to the southeastern part, and it is planned that he will be gone for about two weeks.

Not Enough Libraries.
 There are going to be a large number of disappointed communities during the coming two years on account of the fact that it was found impossible to make an appropriation for the library commission with which they might have added to their traveling libraries. Minnie Clark Budnik, secretary of the commission, stated that those who desired to have libraries should put in their order now, as all the cases now on hand have been ordered for months ahead. It is hoped there will be some way devised to get around the shortage of books before the end of the period.

New Grain Company Organized.
 A company to be known as the Norton Grain and Mercantile Co., of Walsh county, has been incorporated for the purpose of dealing in grain and all kinds of farm produce, buying and selling real estate and other branches of business. The place of business will be at Morton, Walsh county. The company is organized with a capital stock of \$50,000 and the following named men will constitute the first board of directors: A. G. Bylin, Lars Erickson, C. L. Johnson, J. T. Gustafson, G. H. Garnas and Henry Mathison, all of Morton postoffice, Walsh county, N. D.

Better Fire Protection.
 The board of trustees of public property are taking some steps for the better protection of the capitol building and the records contained therein. There will be a good many improvements made in the fire protection, new hydrants will be put in and the fire fighting apparatus changed so that it will be standard with that used by the city fire department. There will be a number of additional chemicals placed in the building and a couple of large asbestos doors have been placed on the third floor, where it is expected it will do a good deal of good in confining a fire if one should be started. The night watchman will also be required to handle a time clock and the system used is such that his whereabouts will be accounted for every minute of the time he is on duty.

Railroads Will Appeal.
 The board of railroad commissioners were Monday served, jointly, by the Great Northern and Soo lines with a notice of appeal from the commission's recent order to those companies to either establish physical connections between the two lines at points where the roads intersect on the Soo "Wheat line," or institute a freight rate equal to the short haul rate. The notice of appeal sets forth that the law under which the commission has acted is unconstitutional, inasmuch as it requires the applicants of their property without due process of law and is so vague, indefinite and uncertain that it is wholly impossible to comply with the same. The case will be heard before the district court of Ward county, April 8, at which time the railroad commission is to hold a stated meeting at that point covering the 8th, 9th and 10th of April for the transaction of any business which may come before the board.

COMMUNICATION

Saturday evening there were distributed about the city several hundred dodgers which purported to give a true statement of facts concerning the various acts of members of the city commission. The facts themselves were not especially damaging to anyone but the dodger was so cunningly worded that serious inferences could be drawn from it.

It was directed especially against Mr. A. W. Lucas who has been a member of the Board of City Commissioners of the past our years and who is now a candidate for the presidency of the board. It states that Mr. Lucas swore in a statement made to the Dunn and Erdstreet agencies that his stock of merchandise on January 1st, 1915, amounted to \$117,000.00. This statement is untrue. Mr. Lucas, in his statement to these agencies said that his stock of goods on hand, his accounts on his books, due from his customers, store fixtures, farm lands and city real estate, etc., amounted to \$117,000.00. Anyone at all familiar with retail business during the past three years can well imagine the amount of accounts outstanding with such a firm as the A. W. Lucas Company with the tremendous business it does. Besides this the stock was figured in at practically its retail value and not at its wholesale value. Who ever wrote the paper in question will have to deduct a great many thousands of dollars from the amount he named before he can arrive at the actual value of the stock on hand, in fact, he will have to deduct at least one-half from the figures he gives.

The assessment of the A. W. Lucas Company will compare favorably with that of any merchandise stock in the city.

As a member of the City Board of Equalization, Mr. Lucas always insisted that his stock be put in at a higher value than that of other merchants. Any member of the board can vouch for this statement.

As a matter of fact there is not a personal property assessment in the city which is put in as high as it should be. Real estate, comparatively speaking, bears at least fifty per cent more than it should of the burden of taxation. Look at yourself, Mr. Voter, did you ever list your silverware, your watch, your own or your wife's jewelry? Did you ever tell the assessor the real truth about the value of your property?

Mr. Voter: Do you remember about three years ago that Henry Geierman, city commissioner, died? Do you remember that flags were displayed at half mast in all parts of the city through the great respect which citizens bore for Mr. Geierman? Do you remember that Mr. Geierman was regarded by practically everyone to be the best city commissioner Bismarck ever had? If Mr. Geierman was such a splendid man, (and he was a splendid man), who should not Mr. Batty, who occupies the same position with the International Harvester Company, be as good a man for the same position. Is a man to be damned just because he works for a corporation? Does that make a criminal of him? Mr. Batty, by attending to his own affairs, is not so well known as some of our citizens, but those who do know him admire him and respect him.

As to the auditorium, it is a matter of record that Mr. Lucas did save the taxpayers of Bismarck some \$60,000.00. It is not a question as to whether or not he might have saved the city \$460,000.00, but he did save the city \$60,000.00. Nor was it Mr. Lucas' fault that the building of the auditorium has been delayed. Mr. Lucas is only one of the five members and the delay will have to be put on other shoulders.

As to the purchase of the site for the auditorium it is not true that J. P. Jackson and F. E. Young had the property listed with them for \$4700.00. It cost the Wachter Dray and Transfer Co. \$5500.00 in the first place and just before the city bought it Mr. Wachter informs us that he was offered \$7,500.00 for the property.

The table given by the writer of the screed delivered Saturday night states that it is a terrible thing that our assessed valuation has not been increased the past few years because there have been so many additional buildings erected here and because there are so many more people living here now than formerly. If he knew the first thing he was talking about he would realize that this low assessed valuation had saved the city many thousands of dollars every year simply through the fact that if we keep our valuations down we save on the amount of tax we have to pay the county and state, amounting to some \$2,000.00 or more on every hundred thousand dollars of assessed value.

If the assessed valuation of the city is low, thank your lucky star that you have people on the board of equalization who know this and who try to save the taxpayers money rather than to run the valuation way up.

Mr. Koffel states that he is going to reduce your water and electric light rates. He cannot reduce your water rates for the franchise given the water company states explicitly what rates they will be allowed to charge. Goodness know they are high enough but neither Mr. Koffel nor any other man can reduce them if the water company does not want to. The electric light franchise is not so explicit as the water franchise as regards rates and perhaps they can be reduced, but you must bear in mind that these rates have already been reduced some the past year, largely through the work of Mr. Lucas.

As to the gas franchise, Mr. Lucas is in favor of one and anyone familiar with the various franchises presented to the city commission and who is familiar with the many matters in connection with such things must know that they should not be granted in twenty-four hours, but should be carefully studied and the facts in the case gone into. Should a man be thought a criminal simply because he is careful

THE ARRIVAL OF KITTY.
 So long as legitimate, wholesome, clean comedy appeal to theatregoers, so long will "The Arrival of Kitty" continue to be a standard attraction. The announcement that it will be presented at the Bijou theatre in this city should be welcome news to local amusement seekers as the comedy is one that should receive a liberal patronage. Wit and humor with pretty musical numbers are features of the production and the comedy will be presented by a cast of exceptional merit.

In Season.
 "Is love of country strong in your breast?" asked the patriot.
 "Only in warm weather," said the man with the comfortable home in town.—Newark News

The Obstacle to Happiness.
 There is in all of us an obstacle to perfect happiness, which is weariness of the things we possess and the desire for the things we have not.—Mme. de Rillou.

KUPITZ

to see that the city is getting the best deal possible?

The statement of taxes given in the address to voters on its last page, gives sundry items about certain people whose taxes have been increased the past few years. Perhaps they were not taxed enough in the first place, and then again it is just as easy to find people on the tax list whose taxes have been lowered in the past few years, possibly by a Board of Equalization. There are sure to be creeps in discrepancies in the values. The Board only has a few days to go over the thousands of items on the list and any man who thinks the job is a picnic, let him try it once.

Mr. Lucas has always been a public spirited citizen. He has always been a liberal donor in time and money to any object for the betterment of the city. He has lived amongst us for many years. He is proud of his record and is willing to stand on it as a man and as a citizen. Don't blame all the mistakes of the Board of City Commissioners onto him. He has done well. He is not a newcomer in our midst. We all know him and we know that he will do the best that is in him for Bismarck. We don't know his chief opponent for the office very well. He may be all to prove it. He has not done anything especially to warrant his receiving Bismarck's chief gift from the hands of its citizens. We have not a word to say against him as a man, but we do have many words to say for Mr. Lucas. Vote for A. W. Lucas for President.

As to Mr. Batty, just remember that he occupies the same position with the same company as did Mr. Geierman. That ought to be some recommendation for him.

It was a cute political trick on the part of the authors of the Saturday night dodger to get it out so late that there would scarcely be time to reply to it. It is full of untruths and half-truths, and as we stated before, none of the facts are really very damaging to anyone but it is filled with innuendos and inferences which make it look much worse than it is.

Vote for Lucas, Batty and Bertsch and you will vote right.

The Weather

Bismarck, North Dakota, Monday, March 31, 1913
