

The Bismarck Tribune

BISMARCK TRIBUNE COMPANY
Every Morning, except MUNDAY, and Weekly

Publication Office: 424 FOURTH ST., COR. BROADWAY.
Daily established 1881; Weekly, 1878. BY MARSHALL H. JEWELL, Oldest in State.

Subscription Rates: Daily by carrier, \$4 cents a month; Daily by mail, \$1.00 per year; Weekly by mail, \$1.00 per year.

Correspondents wanted in every city, town and precinct in the western part of the state. No attention paid to anonymous contributions. Writer's name must be known to the editor, but not necessarily for publication.

Manuscripts offered for publication will be returned if not available. Communications for the Weekly Tribune should reach this office not later than Tuesday of each week to insure publication in the current issue.

Foreign Advertising representatives: Payne & Young, Chicago office, 748 Marquette bldg.; New York office, 30 West 33rd at

OFFICIAL PAPER OF BURLEIGH COUNTY. OFFICIAL PAPER OF CITY OF BISMARCK.

Entered at the post office at Bismarck, N. D., as second-class matter under Act of Congress of March 3, 1879.

Member of Associated Press.

Bismarck, June 25.

INDUSTRIAL EXPOSITION. Bismarck, North Dakota. October 7-19.

IS THIS YOUR MOTTO? C. P. Stine. Not what the Commercial club and the city will do for me, but what I can do for Bismarck through the Commercial club. Think this over.

BUILDING UP A CITY. How many people are there in the city of Bismarck who realize the good work that is being accomplished by the Commercial club or appreciate the many substantial benefits that have been secured for the city by means of that organization?

The average citizen is so engrossed in his business and the necessity of hustling for a living that he gives but little if any thought to public affairs and accepts the growth of the city as a matter of course, little thinking that the establishment of some new enterprise in our midst or the location of new comers who have elected to make Bismarck their future home are events brought about only after much labor in time, money and correspondence of those public-spirited citizens who have banded themselves together for the purpose of letting the outside world know that Bismarck is on the map.

The latest enterprise which this aggressive agent for the welfare of the city has undertaken to push through to a successful conclusion is the Third State Industrial Exposition which will open its doors October 7th and remain open until the 19th. The financing of such an ambitious scheme is no small matter of itself, involving, as it does, the securing of many thousands of dollars in cash, to be accumulated largely by popular subscription, and it betokens a splendid faith in Bismarck and her people that the club have so willingly accepted this burden and agreed to stand sponsor for the success of the undertaking.

That this faith has not been misplaced has been already proven, for practically the whole of the third floor has been taken up by the business men of the city. In addition to this many handsome subscriptions in cash have been tendered by those whose occupations are such as do not call for space in which to be displayed.

In this manner donations have been secured in cash and kind that positively assure the success of the exposition so far as a tempting premium list is concerned, and with such a hustling aggregation behind it, the larger success of the undertaking as a means of instruction and spreading information of the state's many resources may very well be taken for granted.

In a few days Mr. Stine, who has been so largely responsible for the success attained in the local campaign, will extend the sphere of his operations outside Bismarck and Burleigh county and the Tribune predicts for him as hearty a response from prospective exhibitors outside of the city as has been tendered within Bismarck itself.

HARROWING FLAX

By H. L. Bailey of the Agricultural College.

A good many farmers have each year requested me to tell them whether or not I think it is desirable to harrow flax—that is, harrow the young crop after it is up.

I have not seen enough tests carefully done to cause me to be inclined to generally advise harrowing flax. However, as old lands are apt to be very weedy, and as many people sow very much more flax seed per acre than ought to be sown in order to get a good crop, I believe it is perfectly safe to harrow flax if the harrowing is done with a reasonable amount of judgment.

My advice is about as follows: Do not undertake to harrow flax when very young. When the plants are about three or four inches high they will stand a good deal of punishment during the heat of the day. The harrowing should be done when the plants are almost wilted from heat, when they seem to be tougher and do not break over so easily. Pigeon grass is also most easily killed then.

Examine the ground carefully and find out about how many plants you have per inch in the drill row. If there are three or four or more young flax plants per inch in the drill row it will not do a bit of harm if the harrow cuts out a bunch of them, every three or four inches.

The harrow or weeder should be run crossways of the drill row for the reason that it tends to thin the plants if they are too thick and at the same time do it evenly. Try a small area, say an acre or two, in the heat of the day and then look over your work the next morning. Make up your mind whether you have killed enough weeds to pay for the work. It is my opinion that harrowing will prove beneficial in many fields where there are numerous growths of pigeon grass, Russian thistle and other small weeds, and especially beneficial if the flax is too thickly seeded. There should not be over an average of one flax plant per inch in the drill row.

To learn whether harrowing pays, leave a patch unharrowed to contrast the results from day to day and the yield finally procured. I have had a good many men report to me that they have had good results from harrowing flax, and about as many report that it is destructive. I will be pleased to hear from anyone who carries on any experiments in this line.

News of the State

Don't stunt the calf. Alfalfa is a drought resister. Keep your youngsters coming each day.

Science can never make kissing unpopular. The Sheyenne creamery will open in about two weeks.

The Mandan chautauqua is being extensively advertised. A Norwegian Lutheran church is to be built at Brampton at once.

The Sheyenne Star boasts of the big crowds on the streets of that town. Gwinner will not celebrate the Fourth of July this year as at first planned.

The old settlers of Stark county held their annual picnic at Grafton Saturday. The village board of Cogswell has contracted to have several blocks of the main streets graveled.

Earl Niel of Dickinson lost his leg when he attempted to alight from a moving train at Sweet Briar. The old Wicklund hall at Gwinner has been leased and will be occupied with a hardware stock by O. A. Stockstad.

L. E. Bear, principal of the Mandan high school has cancelled his contract for next year and will go to Lima, Wash. Better farming experts in the employ of the Great Northern and the Northern Pacific on the slope both tell of fine crop prospects.

The Farmers' Elevator Co. at Hastings has had a prosperous year. It held its annual meeting last week and checked up for the year. The Valley City Chautauqua association offers prizes of \$100, \$50 and \$40 for the best article on agriculture and published in a North Dakota paper.

The picnic grounds at Lake Tewan, in Sargent county will be run hereafter by H. A. Fleming, G. A. Joseph and J. W. Johnson. Deputy State Fire Marshal Reade talked fire protection to the merchants of Braddock and gave them some valuable practical advice on how to protect their town.

Members of the state press "gang" tired but still in the ring, are passing through Fargo, many of them enjoying a leisurely trip back to their home stamping grounds. A. L. Clubine, of Lisbon, has been appointed district game warden for the Fourth district, which includes the counties of Richland, Ransom, Sargent, McIntosh and DeKey.

Two bids for building a dam in the Heart river near Mandan were rejected by the Mandan Commercial club, which plans on erecting the dam, as they were considered too high. The Sheyenne Better Farming club listened to an able address on good roads by J. H. Dodge of Washington, D. C., at its last meeting. It will have another meeting Saturday, June 28.

Cayuga Citizen: Mr. Silvernal has a young fox that was captured a few days ago. The little fellow is as cute as he can be and is getting quite tame. Needless to say he is a great attraction, especially for the children. Tuesday of next week, July 1, will be a big day for North Dakota—all the laws that were passed at the last session of the legislature without the emergency clause attached go into effect—and the Interstate fair opens at Fargo.

From the amount of money that is being spent on advertising cures for indigestion and worn out stomachs, a philosopher would draw the conclusion that it might be well for people to think more about what they eat and drink and how they handle the process. One of the best assets North Dakota has is the crop of graduates from the various schools and colleges, just turned out. They're a fine lot and should be encouraged to stick to North Dakota and help to build it into the great commonwealth it is destined to become.

Mandan News: Four inches of rainfall coming within four days, on Friday, Saturday, Sunday and Monday of this week, assured the prosperity of the Morton county farmers this fall. Commercial activity is warranted under such attractive prospects and there will not be the summer lull in business during 1913.

Volume 20, No. 1, was issued last week by the Enderlin Independent. Editor C. H. Potter got out the first issue of The Independent and has been in control almost continuously since. The Independent is one of the liveliest and best printed papers that comes to our exchange table and Editor Potter deserves the success he has attained.

Three year old Berkley Fergus of Linton has some rare sport when he climbed into a buggy on the street, seized the whip and began lashing the horse. The harder the animal ran the more he whipped and he was rescued from his precarious position with difficulty and will not realize how near a race he had with death until he is older.

Princess Margareta of Sweden, 14 years old today. Bishop William A. Quayle, of the Methodist Episcopal church, 53 years old today. Le Baron B. Colt, United States senator from Rhode Island, 67 years old today. Rt. Rev. John Grisdale, Lord Bishop of Qu'Appelle, Saskatchewan, 68 years old today.

No Expense Spared In Pros-

(Continued From Page One.)

the veteran criminal attorney of the state, in his defense of Wallace Anderson, the accused young bank clerk. But the opinion prevails that there are many important matters that Mr. Lawrence should have been permitted to use that might have had a more vital effect on the outcome of the case.

The matter a year ago when black hand caricatures were used in decorating the exterior of the First National bank for the purpose of scaring Cashier Funk out of town were never referred to the course of the trial. It is said that there were a number of witnesses on hand that could have exposed that mystery and who were connected with it, and to bring out the details of that high handed work will be a great part of the investigation which the county commissioners propose to put under headway.

EPWORTH LEAGUES AT JAMESTOWN

Friday the League Convention was opened by an early prayer meeting by the Rev. G. Book, of Ashley, N. D. The discussions throughout the morning were very lively and provoked much interest.

The program was as follows: Half hour with Leaders of Modern Methodism, by the LaMoure Chapter, and the paper read consisted of three splendid biographies of Bishops Goodell, Fowler and Spellmeyer. Then followed the five minute talks on the responsibility of the League officers of the various departments.

Five Minute Talks. "The President" was responded to by Rev. Carl Peterson of Washburn, who stated that the League was no better nor worse than its president, and that this position carried with it the greatest responsibility.

"The Duties of the First Vice President" was a topic accorded to Rev. J. G. Morrison of Dickinson, who gave the assembled delegates many helpful hints regarding this office.

"The Possibilities of the Second Vice President" was commented on by Miss Bessie Doyan of Bismarck, who stated that the possibilities of this office was to lead the members of the League to catch a World Wide Vision of the Mission Field.

"The Third Vice President and His Problems" was ably discussed by Miss Olive Paul, from Asbury Hospital, St. Paul, Minn. The speaker has had wide experience as a deaconess, and gave most practical examples of how to aid the poor oppressed and needy.

"How can the Fourth Vice President be Kept Busy?" was answered by Miss Meta Hallat of Oakes, in a most satisfactory manner.

"What Shall be Done with the Secretary and Treasurer Office?" by Miss Satterlee of Turtle Lake, who stated that each should be a separate office.

Talk on General Missions. Mrs. Harvey Reeves Calkins, a returned missionary from India, gave a most beautiful and touching talk on general missions. Mrs. Calkins is a very magnetic speaker and the audience followed her spellbound, and each Leaguer who heard her resolved to do more than he ever had done for the missions.

The afternoon session was largely given over to business. The temporary president, Rev. F. W. Gress of Enoch, on account of his efficient leadership, was chosen president of the District for the ensuing year. The Rev. E. J. Reed of Steele, was chosen district secretary, the Leaguers having previously discovered his ability along this line.

"Big Bill" Peterson of Washburn, was elected first vice president, as his enthusiasm for this particular work is no secret, as his desire for the work is to push "The Bismarck District Idea of Double Leadership."

The annual reports given showed the same high standard and improvement over those of other years. The closing services of the 1913 Epworth League Convention was a most fitting one. As Dr. Henry Clay Morrison was delayed, Mrs. Harvey Reeves Calkins was again asked to speak. She told them of how she was led to take up the Evangelistic work and how she became a missionary to India. There were few dry eyes in the house as this gracious, consecrated woman, with tears streaming down her cheeks, plead with the young people to give their lives into the Master's Keeping.

Thus we brought to a close the most spiritual and successful Convention ever held by the Epworth League in the State of North Dakota. Competitive touring has taken hold in Europe, according to a message recently received by the Willys-Overland Co., of Toledo, Ohio, from its representatives in Vienna, Austria. The message tells of a recent tour between Vienna and Abbazia, a distance of about 327 miles, in which 60

INTEREST IN JIM JAMS JEMS CASE

(Continued from Page One.)

ed in securing the jury for the trial of the case. Only one man was excused for prejudice, that being J. P. Jackson of this city. Twenty-eight men were called and all but the one excused passed for cause after which the attorneys for either side exercised their prerogatives and the jury was completed as enumerated at the head of this story. The jury appears to be an exceptionally intelligent one, all of the men on it evidently being men of judgment and wide experience in the affairs of the world.

Short Trial Expected. It is generally expected that the case will be given to the jury sometime Wednesday, as the introduction

of evidence will not take much time. There may be some new features brought into the case, other than those which came to light during the trial in April, at which time the jury was unable to agree upon a verdict. Any new developments will be along the line of argument as the same evidence will be introduced and the same witnesses used as in the former trial.

Much Interest in Case. On account of the nation wide circulation of the magazine and the wide acquaintance over the and adjoining states of the publishers there is more than usual interest attached to the case. The fact that a conviction may result in a penitentiary sentence is also a big factor with the people. The outcome of the case will be awaited with interest by people not only of this state but of the nation.

MARKETS. ST. PAUL. Cattle 2200; killers steady to weak, steers 650 to 625; cows, heifers, 450 to 725; calves steady to 25 lower 6 to 9. Feeders weak; 430 to 715; hogs 550 to steady range 820 to 860, bulk 835 to 845. Sheep 500 steady. Shorn lambs 450 to 7; shorn wethers 475 to 5; shorn ewes 2 to 450.

RECEIVED A FRESH SHIPMENT OF IMPORTED CROSSE & BLACKWELL PICKLES. Date Nut Butter Peanut Butter. Winter Make New York Cheese. McMenamin Co's Crab Meat and Shells.

Comparative Digestibility of Food. Made with different Baking Powders. From a Series of Elaborate Chemical Tests: An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time. The relative percentage of the food digested is shown as follows: Bread made with Royal Cream of Tartar Powder: 100 Per Cent. Digested. Bread made with phosphate powder: 68 1/4 Per Cent. Digested. Bread made with alum powder: 67 3/4 Per Cent. Digested.

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them. Undigested food is not only wasted food, but it is the source of very many bodily ailments.

Slattery, Gunn & Co. Wholesale and Retail GROCERIES. Dealers in Coal, Wood, Ice and Grain. Corner Third and Broadway BISMARCK, N. D.

John Dawson & Son. Square Deal GROCERY. Low Selling Cost. We own our own building, employ no hired help, and do business for less than any firm in town. Naturally, we give you the benefit of this saving. When you want to economize on the "cost of living" question and still have the best lines sold in town, come in and see us. Or, phone orders will receive just as careful attention. 208 Sixth St. Phone 198.

Coleman's Steam and French Cleaning Establishment. All Kinds of Cleaning and Pressing. Hats Blocked. Only completely fitted place west of Fargo. Suits Steam Cleaned and Pressed 75c. Suits Sponged and Pressed 50c. Pants 25c. We call for and deliver work in city. Out of town work can be sent us by parcels post. It costs little and our work is better, cheaper and quicker than un-equipped places. Phone 358. 115 FIFTH STREET.

THE 4TH my Drug Store fixed me up all right. BEST LINIMENT. WITCH HAZEL. BEST ANTISEPTIC BANDAGES. SEALING SALVE. COTTON. COURT PLASTER.

Before the vermin "take possession" put out into the cracks and crevices poisons to destroy them. They breed very rapidly if given a chance. Come, tell us your troubles, and we shall supply you with just the thing to chase away the bugs and rats. Beware of germ carrying, fever breeding flies. We have fly paper to catch them and fly poison to kill them. Make OUR Drug Store YOUR Drug Store. Lenhart's Drug Store. Main Street Phone 2.

Phone 53 BROWN BROS. CASH GROCERY. Quality Our Motto. Soo Hotel Bldg. Phone 53. A few more cans of Lady Washington Beans, while they last, per can 10c. Home brand, 1 lb. jars of pure Jam, Raspberry or Strawberry, per doz. \$2.85. Per jar 25c. Date Nut Butter, something entirely new on the market, per jar 15c. FRUITS. Fancy Peaches, Apricots, Pears, Cherries, Bananas, Oranges. Woodcock choice Asparagus tips, per can 20c. Carolina Fancy Head Rice in 2 lb. packages, per pkg. 25c. CHEESE. Imported Roquefort, Limburger, Imperial, Pimento, Primost, Erick and Edam. A full line of the best White Horse Boneless Smoked Herring, per can 10c. McDONALD FRUIT JARS. We have the famous easy seal jars with patent glass tops. Very superior, and low priced. Get them for your fruits. Don't forget we handle Couche's famous cream in sanitary bottles, delivered fresh daily.
