

NO LIQUOR SOLD HERE SAYS HANNA

Consumption of Liquor Too Small for Profit Says Executive

Speaking to Anti Saloon League He Describes His Dry State

Bill Stopping Liquor Traffic in the United States Is Predicted

Columbus, Ohio, Nov. 12.—Predicting that a resolution prohibiting the traffic in intoxicants in the United States and all the territories under its jurisdiction would soon be adopted by congress and asserting that, "If I am governor of Kansas when the resolution is passed I'll immediately convene the legislature for the purpose of ratifying the amendment," Gov. Hodges of Kansas last night threw the convention of the American Anti-Saloon league into an uproar of applause.

Governor Hanna of North Dakota, another speaker, gave statistics to show the prosperity of his state under the "prohibition reign," and said, "Brewers, a year back," showed no consumption in his state of their manufacture in 1911.

Gov. Hanna said, however, that some intemperants were used in North Dakota, but that the consumption was so small that there was practically no profit for the brewers.

The day's session was brought to a climax with an address by former Governor Patterson of Tennessee, in which he gave the reasons for his enlisting with the anti-saloon movement.

CLEVELAND HAS A SEPARATE SCHOOL FOR HARDMINDED

Washington, Nov. 12.—"Hardminded" children—those who work better with their hands than with their brains—are being given their chance in a separate school at Cleveland, Ohio, according to a bulletin issued by the federal bureau of education. The elementary industrial school, as it is called, was started to give such boys and girls as good a chance in life as the "language-minded" have always had.

The Cleveland authorities, the bulletin says, have found that much waste was caused by the attempt to force abstract intellectual effort on children whose interest was more in doing things. Half of their time is devoted to English, mathematics, geography and history, while the remainder is given over to manual and industrial work, domestic science and gymnasium practice.

The school has been successful, the bulletin continues, even in the face of adverse circumstances. Pupils who have lost interest in school work of all kinds, some to the extent of being known as "dullards and incorrigibles," have become eager and alert not only in hand work, but in the academic studies as well.

GOSSIP DRIVES WEALTHY WIDOW TO TAKE POISON

Excelsior Springs, Mo., Nov. 12.—Martha Simmons, with a million dollars in her own right, widow of Dr. C. S. Simmons, committed suicide Wednesday by taking poison.

To the physician to whom she was engaged to be married until a week

ago, she said that unceasing gossip linking her name with Dr. Simmons before their marriage, made her despondent.

She married Dr. Simmons after her sister had divorced him. She was Simmons' secretary before their marriage.

CAUCUS GIVEN UP ON DEMOCRATIC CURRENCY BILL

Six Members of Committee Express Hope of Agreement

Bill Favored by Wilson Will Be Before Senate in Week

Washington, Nov. 12.—An attempt to force the administration currency bill through the senate by way of a democratic caucus was abandoned Wednesday, and the banking and currency committee of the senate given time for further consideration of the bill.

The argument by six democrats in behalf of the committee and their hope for a final report within five or six days, was reported to the democratic conference when it met Wednesday by Senator Owen.

At his request the conference took no action. Senators Reed and O'Gorman, since the call for a conference was issued, have joined Chairman Owen and senators Pomerene, Shafter and Hollis in support of the administration measure.

These six democrats have virtually agreed on a bill meeting the view of President Wilson. This measure will be taken before the senate as soon possible.

WILL THE INCOME TAX DISCOURAGE MARRIED LIFE?

Washington, Nov. 12.—Among the troublesome questions that came up today for consideration by the income tax experts of the treasury department was this one:

"Is the income tax going to put a premium on singleblessedness.

Advocates of the law contended it would put a premium on marriage, but its interpreters now have found the paragraph affecting married persons not so easy of comprehension, after all. The law reads:

Rule for Collection. "There shall be deducted from the amount of the net income of each of said persons (meaning taxable persons) the sum of \$3,000 plus \$1,000 additional if the person making the return be a married man with his wife living with him or plus the sum of \$1,000 additional if the person making the return be a married woman with a husband living with her; but in no event shall this additional exemption of \$1,000 be deducted by both a husband and a wife. Provided that only one deduction of \$4,000 shall be made from the aggregate income of both husband and wife when living together."

Experts Are Worried. That looks simple enough, but the experts don't think it is. For instance, they have to rule on whether two married persons living together, each of whom has an income of just 3,000, must pay the tax. As individuals, each would be exempt. Does marriage make them, with an aggregate income of \$6,000, subject to the tax?

WILSON'S REPRESENTATIVE, WHO IS DEALING WITH MEXICAN REBEL GENERAL

Hermosillo, Mex., Nov. 12.—Dr. William Baynard Hale, personal representative of President Woodrow Wilson, is conducting negotiations with General Carranza, the constitutionalist leader, here. Carranza has a force of several thousand men opposed to Huerta. It is understood here that Dr. Hale has promised to support Carranza's campaign against the provisional president, who has defied the United States.

MUNICIPAL RULE IS REGULAR JOB

Toronto, Ont., Nov. 12.—A factor in the recent municipal advance, said Clinton Rogers Woodruff, Philadelphia, last night in his annual review before the National Municipal League, is the realization that a municipal administration is a business for permanent experts and not politicians, placed in temporary control of cities by the fortunes of the ballot.

The league began its meetings last night. He praised the "city manager" plan and the commission form of city government and advocated extension courses to educate experts for city government.

ARREST STRIKING CHAUFFEURS.

New York, Nov. 12.—The recent strike of chauffeurs employed on mail trucks, resulting in a tie-up of the service, resulted in the arrest of the president and five officers and members Wednesday.

Warrants were also sworn out for five others. Louis Ferry, former President Patrick Johnson, present head of the union, with the others, were held for \$5,000 bail.

They were charged with conspiracy to obstruct and retard the movement of the mails.

SCENE IN RIOTOUS INDIANAPOLIS STRIKE, WHICH HAS BROUGHT ABOUT A POLITICAL QUARREL

WRECKED CAR DESERTED BY CREW

Indianapolis, Nov. 12.—A movement has begun here to have the state legislature called in special session owing to the street railway strike, which has proved the most troublesome labor disturbance ever known in this section of the state. Not only the city lines, but those connecting with important suburban points, were affected. Four men were killed and scores injured. Mayor Shank states that a new law should be enacted immediately providing for compulsory arbitration of labor difficulties, but Governor Ralston has not appeared favorable so far to the proposition of a special session of the state lawmakers for that purpose. Mayor Shank and Governor Ralston are said to be at odds over the question, which is likely to become a political issue in the state.

LAST WORD ON MEXICO NEXT WEEK

Bryan Announces Sweeping Statement Is Being Prepared

Foreign Powers All Assure Washington of Friendly Attitude

Wilson's Representative Makes Definite Proposal to Carranza

Washington, Nov. 12.—Secretary Bryan announced Wednesday that a statement would be issued within a few days setting forth the policy of the United States toward Mexico.

Whether the statement will be in the form of a communication to congress by Mr. Bryan has not been disclosed, but some diplomats believe it will be.

The statement has been under consideration for several days and in Secretary Bryan's conferences with members of the diplomatic corps he made it plain that the forthcoming pronouncement will define clearly the attitude of the United States.

The statement, it is thought, would reiterate the views that the United States will never recognize a government established by arbitrary force, and will give its reasons for refusing to recognize the acts of the new congress either as to the validity of loans or concessions and will point out the steps necessary for the solution of the problem.

Developments in foreign capitals Wednesday appeared to strengthen the belief that the desire of the United States to prevent interference by the powers had been accomplished.

Premier Assoluth's speech in Great Britain wished to do nothing unfriendly toward the United States. Assertions from Berlin that no financial assistance will be given Huerta.

D. P. MALONE TO COLLECT CUSTOMS AT NEW YORK

Washington, Nov. 12.—It is generally conceded here in official circles that Dudley Field Malone will be appointed collector of the port of New York to succeed John Purroy Mitchel, who was recently appointed mayor of New York city. Mr. Malone is assistant secretary of state and is a son-in-law of Senator O'Gorman of New York.

DANCE TANGO AT GOLDEN WEDDING

Spencer, Mass., Nov. 12.—Mr. and Mrs. Cyrille Boudreau of 37 Church street, danced the tango at their golden wedding. Nearly 100 friends and relatives were present.

The Boudreaus lived at Fargo, N. D., for many years before coming east. A daughter, Josephine, who married Joseph Lucier at Fargo and has eleven children, came on for the celebration. The children remained at home.

The Boudreaus are quite prominent. Joseph Boudreau, a grandson is a noted priest in Rome, Italy, and two grand daughters are nuns in British Columbia.

NEW CONCEPTION OF PROPERTY WILL LIST CORPORATION PROFITS

Seattle, Wash., Nov. 12.—The American Federation of Labor devoted the whole day to listening to addresses, the most notable that of Secretary of Labor William Wilson, declaring the policy of the department of labor and warning corporations of the new conception of property rights.

Wilson bitterly condemned the attitude of the Michigan copper mining companies and warned them that the new conception of titles to property was the progress of formation.

He declared it would make public not only the wages paid miners, the hours they worked and the labor conditions, but the enormous profits of mine owners.

Of the situation at Calumet the secretary said it had heretofore been the custom of the department to investigate wages, hours and conditions and report. He said it would go a step further and investigate the earnings of the corporations involved.

MAN AND LYNX IN DEATH FIGHT

Bowman, N. D., Nov. 12.—Attacked by a wounded lynx, Edward Barkis bested the animal, but not until he had been given a terrible battle. A blow from a fence rail ended the lynx's life as it was springing through the air at Barkis.

The animal weighed sixty pounds and was four feet long.

EXPLOSION BURIES NINE. Belle Valley, Ohio, Nov. 12.—One man is known to be dead and eight more are entombed as the result of an explosion in the Cable county mine of the Imperial Coal company, Wednesday.

The town was rocked by the explosion. Eight miners, after narrow escapes, emerged to safety. No one was killed but one miner was probably fatally hurt.

COLONEL BACKS UP ABILITY OF LOCAL FIBBERS

Mobridge Man Bringing Team of South Dakota Liars

Alton Parker and Other Noted Men Regrets to Toastmaster

Judge Alton B. Parker of New York wired Col. Ben G. Whitehead last night that he would be unable to attend the annual banquet of the Ananias club here Saturday night, but insisted that he was the charter member of the organization. He promises to get ready and be present at the next gathering and to bring some New York friends. Telegrams and letters of acceptance and of regret have been coming in from notables all over the country. The invitation list for the next banquet will be made up of those present Saturday night.

South Dakota has challenged North Dakota, when it comes to rights of membership in an Ananias club. The toastmaster yesterday morning received the following telegram from F. M. Goodman, a wealthy resident of Mobridge, S. D., who had been invited because he had at one time lived in the same county with the editor of The State, and therefore was qualified for entrance to any Ananias competition.

Mobridge, S. D., Nov. 11, 1913. Col. Ben G. Whitehead, Bismarck, N. D.

R. S. P. V. invitation received. Will it be acceptable if I bring with me the four biggest liars on earth. Wire me at my expense and we will come.

F. M. GOODMAN. The following reply was wired:

Dr. F. M. Goodman, Mobridge, S. D. Ering on your puny prevaricators, and let them cope with our subtle and scientific Simpson, our delightful and decorous Doyle, our limitless Linde, our frank and friendly Fisk, our powerful...

WILL NOT HEAR MRS. PANKHURST

Grand Forks, Nov. 12.—North Dakota women, making a fight for the ballot, and who will secure a vote on the question next year, did not invite Mrs. Pankhurst to speak in this state.

Recently, when the question was broached to them, they appointed a committee to investigate the advisability of such invitation, and that is the last that has been heard of the matter.

Mrs. Pankhurst, it is understood, will pass through the state during her speaking tour, but she will not be asked to stop.

North Dakota women have advanced their fight for the ballot to the point where it is ready for a vote at the general election of 1914. The last legislative assembly approved the plan by submitting it to a general vote.

CLUB WOMEN CAUSE WHITE SLAVE EVIL

Modern Mothers Attend Clubs Card Parties, Neglecting Daughters

Fathers Take More Interest in Business Than in Own Children

Purity Congress Closes After Making Long List of Recommendations

Minneapolis, Minn., Nov. 12.—Department recreation to combat the evil influences of dance-halls in all cities; federal laws governing divorce and marriages of certain nature, and a congress of newspaper men to discuss methods governing the dissemination of news relative to the white slave traffic were among the recommendations offered by Clifford Roe, Chicago, addressing the closing session of the International Purity congress last night.

Roe is president of the American Bureau of Moral Education and was appointed delegate to the congress by Secretary Bryan, by the authority of a joint resolution of the federal congress.

Discussing "white slavery," Roe asserted that neglect by parents in bringing up their daughters "is a big factor in the making of white slaves."

"Mothers are often too busy attending clubs, theaters and card parties to find time to spend upon their children. Fathers have more interest in their properties than in the welfare of their daughters."

The Purity congress will be held in Kansas City next November. This decision was reached last night. The regular congress will be held in 1916, but the location is not yet decided.

Dr. Hattie Schwenderer, St. Joseph, Mich., was last night elected corresponding secretary; Herbert Gerart, New York, recording secretary, and Dr. W. W. Lawrence, Minneapolis, treasurer.

DONABOE IS GUILTY OF ATTEMPTING TO DEFAME C. S. FUNK

Chicago, Nov. 12.—Attorney Daniel Donaboe, charged with conspiring to defame Clarence S. Funk, former general manager of the International Harvester company, last night was found guilty and fined \$2,000. Detective Isaac Stiefel tried on the same charge, was acquitted.

Both were indicted, after a suit charging Funk with alienating the affections of Mrs. John Henning had been dismissed. Henning, in whose name the suit was brought, had been a bellboy. He disappeared after the trial, but was arrested in Minneapolis. He and his wife were the chief witnesses for the prosecution.

GOULD QUILTS AS ROAD DIRECTOR

New York, Nov. 12.—George J. Gould, for twenty years president of the Manhattan Railway company, which operates New York's elevated system, retired Wednesday in favor of Edgar Marston.

Gould continues, however, as director and one of the chief stockholders. His successor represents the holdings in the company of the general education board, founded by John D. Rockefeller.

MYSTERY CLOAKS IDENTITY OF FREIGHTER WHOSE DEAD CREW LINE SHORES OF LAKE

Port Huron, Mich., Nov. 12.—After working desperately since morning in an unsuccessful attempt to identify positively the derelict freighter which lies bottomside up in stormy Lake Huron, eight miles northeast of here, the marine men returned to Port Huron.

Most of them said they were convinced that the boat is the Canadian Pacific freighter Regina. Wreckage of the Regina was washed ashore Tuesday, including a life boat containing two bodies of sailors positively identified as members of the crew of the Regina which indicated that the freighter was wrecked in the vicinity

where the overturned vessel was found.

Little credence here is given the report from Goderich, Ont., that the seven bodies found on the shore of Lake Huron were sailors on the steamer Charles Price. The Price may have sunk, marine men admit, but the bodies are believed to be from the Regina.
