WHAT'S THE USE. With every wind that blows? What's the use of waiting rain? Every time it snows? What's the use of grumbling when it's ninety in the shade? What's the use of brooding over mistakes that we have made? What's the use of wishing that we'd been born with wealth? What's the use of glooming when we've sacrificed our health? What's the use of railing at the man who wins success? What's the use of telling of our personal distress? What's the use of talking when we're nothing wise to say? What's the use of buying things for which we cannot pay? What's the use of standing when we're in somebody's way? What's the use of feeling glum when we might as well feel gay? What's the use of this and that? What's the use of now? What's the use of anything that's useless anyhow? BORN, A SON.—Born to Mr. and Mrs. David Keller, of this city, a son.

Consumption Takes 350 People Daily

In the United States and the deadly germs claim more victims in cities than in rural districts, due no doubt to the increased number of indoor workers in confining quarters and their lack of sunshine. Tubercular germs always attack when the system is weakened from colds or sickness, overwork, overstrain, confining duties or any drain which has reduced the resistive forces of the body. But nature always provides a corrector and the best physicians emphasize that during changing climate our blood should be kept rich and pure and active by taking Scott's Emulsion after meals; the cod liver oil in Scott's Emulsion warms the body by enriching the blood—it peculiarly strengthens the lungs and upbuilds the resistive forces of the body to avoid colds and prevent consumption. If you work indoors, rise easily, feel languid or nervous, Scott's Emulsion is the most strengthening food-medicine known; it builds energy and strength and is totally free from alcohol or any stupefying drug—every druggist has it. 13-106 Scott & Bowne, Bloomfield, N. J.
