LIFE'S ROAD Smoothed by Change of Food. Worry is a big load to carry and an unnecessary one. When accompanied by indigestion it certainly is a cause for the blues. But the whole trouble may be easily thrown off and life's road be made easy and comfortable by proper eating and the cultivation of good cheer. Read what a Troy woman says: "Two years ago I made the acquaintance of Grape-Nuts and have used the food once a day and sometimes twice, ever since. "At the time I began to use it life was a burden. I was for years afflicted with bilious sick headache, caused by indigestion, and nothing seemed to relieve me. "The trouble became so severe I had to leave my work for days at a time. "My nerves were in such a state I could not sleep and the doctor said I was on the verge of nervous prostration. I saw an adv. concerning Grape-Nuts and bought a package for trial. "What Grape-Nuts has done for me is certainly marvelous. I can now sleep like a child, am entirely free from the old trouble and have not had a headache in over a year. I feel like a new person. I have recommended it to others. One man I knew ate principally Grape-Nuts, while working on the ice all winter, and said he never felt better in his life." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville" in pkgs. "There's a Reason." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.—Adv.

Club Notes

The Woman's club of Lisbon convened in the court room with the president in the chair. Following the transaction of business, roll call was responded to by quotations from Lowell, Holmes and Whittier. An interesting resume of the current events by Mrs. J. C. Taylor preceded an address by A. M. Kveit, whose topic was "Civic Improvements." The speaker dwelt principally on the phase of a public library, which he stated was a necessity in Lisbon.

One of the most unique social events of the season was that of the Reading club, at the home of Mrs. A. N. Junge in Linton. The club has been studying about Germany this year and the party was in the nature of a trip through Germany. Mrs. Junge has prepared everything after the German style, even decorations, including the German flag, were entirely characteristic of Germany and the Germans, had the lunch consisted of the most beloved German delicacies. Members of the club had been assigned topics that were designed to constitute an imaginary trip of the club through Germany. It is said that the paper of Mrs. Harry Petrie, describing the homeward trip, was particularly unique most of the ladies traveling by airship, that no others might get ahead of them.

The members of the Fine Arts club of Fargo are much interested in the Coburn players, who will be seen there in June. The Coburn players in Fargo under the auspices of the Fine Arts club, on Wednesday evening, June 3, and Thursday matinee and evening, June 4. One of the noteworthy features of the performances of the Coburn players is the quality of acting by the members of the company. There are no stars, but even the most unimportant part has been most carefully studied and the stage management is simple and effective. Mr. Coburn has made a great point of the clearness of diction, believing that to appreciate Shakespeare no word can be lost. He insists on this both from the player who has but one line to the most important member of the company. As a result the performances are exceptionally interesting and enjoyable. The subtleties and fine points of the plays, so often slighted, are brought out to their full value in expressing the ideas of the author. The most striking evidence of the success of this principle is the size of the audiences who greet the Coburn players wherever they appear and the fact that nearly every university and college in the country has invited this company to give performances under their auspices. In keeping with the careful adherence to the text of the plays, is the attention to detail in providing the proper costumes, properties and scenery. Mrs. Coburn makes this her particular province while the company is not playing, and spends much of her time in her library consulting the various authorities on the subject, so that there may be no discordant note in the harmony of the setting.

The Mothers' club is the latest society to be added to Enderlin's civic organizations and it is covering a field of usefulness that is most commendable. The club was organized on December 2, 1913, when a number of women of Enderlin met with Miss Gertrude Woods, at the home of Mrs. T. O. Sweetland.

Miss Woods was representing the Twentieth Century Self-Culture association and whole study course the club adopted. The organization was perfected with eleven active and three associate members.

The object of this organization is to bring about a better relationship between the home and the school; to co-operate with our teachers in the moral, mental and physical development of the children of Enderlin; to promote culture in our homes; to promote civic improvements, and to co-operate with the men of our city.

WHY DINING CAR CHEFS PREFER K.C. BAKING POWDER

Those who have had cakes ruined by jarring the stove, slamming the oven door or a heavy footstep, may have wondered how the dining car chef can turn out such marvelous biscuits, hot breads and pastry when his oven is being incessantly jarred and jolted and shaken by the motion of the train.

To get pastry to raise and stay raised under these conditions, a baking powder must be used that continues to give off its leavening gas—that sustains the raise—until the dough is baked through.

Dining Car Chefs have found a baking powder exactly suited to their needs in K.C. and you will find it just as well suited to your requirements. K.C. is really a blend of two baking powders, one active as soon as moistened, the other requiring both moisture and heat to start the generation of leavening gas. No matter how moist and rich you make your cake, K.C. Baking Powder will sustain the raise until a crust is formed and all danger of falling is past.

K.C. Baking Powder is pure and healthful. It is guaranteed under all pure food laws, and is guaranteed to please you. And it is sold at a reasonable price—no baking powder should sell for more. Try a can at our risk and be convinced.
