

OLD "GAG" FROM MONTANA FINALLY FAILED TO WORK

Aberdeen Real Estate Man Can't Get Sharks to Come Through

Aberdeen, S. D., March 11.—The old "gag" worked by real estate men of Montana and Arizona for several years in which they offer to trade a large herd of horses numbering from 300 to 500 for something more easily managed by their "lady client" failed to lure a local real estate dealer in any way.

The horses are there alright, and the trade will be made with all legal formalities, but as yet none of the owners have been able to get within catching distance of their newly acquired property and are willing to relinquish back their claims for little or nothing.

The local real estate dealer stated his willingness to trade, and offered in exchange three beautiful black foxes he discovered in the wilds of Alaska last summer. The pelts, he argued would be easily worth \$2,000 or more apiece and he alone knew the foxes' lair. No reply has yet been received to this offer.

FEMALE CATS SHORTEN CROPS. Jersey City, N. J., Mar. 11.—Cat owners in this state are protesting against a bill recently introduced which makes owners of female cats liable to a tax of \$1.00 per year, and

the same amount additional should any other female cat make its appearance and be kept or harbored. Supporters of the bill say its motive is the preservation of crops, and therefore the eventual lowering of the high cost of living. This is the way they reason it out: "Insects destroy the crops, birds destroy the insects, and the cats destroy the birds. Put something that looks like a quoniam on the raising of female cats and by inverting the formula it will be readily seen how the crops will benefit."

HOWARD ELLIOT ILL, GIVES UP SPEECHES

Hartford, Conn., March 11.—Howard Elliot, chairman of the New York Haven and Hartford railroad, has been ordered by his physician to let up on his public speaking program. The Hartford Chamber of Commerce has been notified that the reception arranged in this city for Mr. Elliot on March 18, must be postponed.

Both Hartford and New Haven were given to understand today by John H. Hustis, president of the New Haven road, that there will be no new stations for either city for several years, because of lack of available funds. The Hartford station, which was partially destroyed by fire two

YOUNG WOMAN BALIFF OF JUVENILE COURT

Washington, March 11.—Announcement is made of the appointment of Miss Sadie Atlas, 22 years old, as a woman baliff of the juvenile court. The new appointee, who is a native of Washington and who has had a temporary position with Representative Kitchen of North Carolina, it is announced at the court, possesses the requirements for the position in a greater degree than any of the other applicants. Miss Atlas, about two weeks ago, asked that her name be considered for the place.

Although appointed as a baliff, the duties of the young woman will include stenography and typewriting, until an appropriation is granted for another employe exclusively for that work. The position pays \$700 a year, and Miss Atlas' appointment takes effect next Monday.

In speaking of the appointment, Judge Latimer said that the court had felt the need for some time of a girl who understands the Hebrew language and who can act as interpreter and probation officer for Jewish children. This work, he said, will be a part of the new baliff's duties.

WAR ON LOAN SHARKS. New York, Mar. 11.—Loan sharks who have found victims in the fire department have come under the ban of Commissioner Adamson, who has

started a campaign against them. He has found that the loan sharks not only lend money at exorbitant rates to firemen, but frequently succeeded in inducing them to buy jewelry at price which were far higher than the value of the article warranted. Commissioner Adamson is making a strict investigation so that he can certify something to the District Attorney's office on which Mr. Whitman can work.

AD HOPES TO BEAT RITCHIE

Milwaukee, Wis., March 11.—All roads for fight fans now lead to this city, where the most promising bout of the year is to be staged tomorrow night with Lightweight Champion Willie Ritchie and former Champion Ad Wolgast as the principals. The fight is expected to show whether Ritchie has gone back as a result of his many months of comparative idleness and if Wolgast has come back, as his good showing in his recent bout with Joe Rivers would seem to indicate.

It is now more than four months since Champion Ritchie has been seen in the ring. His last battle was a no-decision affair with Leach Cross in New York on November 10. Immediately after the fight with Cross the champion went to California to fulfill an engagement to box 10 rounds with Tommy Murphy. This bout was scheduled for December 10, but a few days before that date Ritchie developed an abscess of the nose and the bout was adjourned until January. Then Ritchie was incapacitated by another slight accident and the go with Murphy was called off.

Many critics are of the opinion that Wolgast has come back and will give Ritchie a surprisingly hard battle. They point to his showing against Joe Rivers as conclusive proof. Many other close followers of the game, while not caring to venture a prediction of a Wolgast victory, are of the opinion that the former champion will be able to stay the ten rounds.

The Ritchie supporters on the other hand, believe that Wolgast will have no chance against the champion. They declare that Ritchie has improved since he defeated Wolgast and copped the title in the battle at Daly City on November 28, 1912. He has the matter of age and the confidence that comes of holding the championship. They admit Wolgast's cleverness and his ability to deliver a telling blow, but they are of the opinion that he is no longer able to withstand the punishment that he could assimilate a few years back.

At their respective training camps the two fighters were reported today to be in excellent shape for the battle. Wolgast has kept himself in good trim by his frequent bouts and needed no severe training to get into shape for tomorrow night's contest. Ritchie has been training faithfully since he arrived from the West ten days ago and has succeeded in taking off surplus flesh.

The fight will take place in the new stadium which will seat 10,000 spectators. Promoter Tom Andrews believes that every seat will be filled when the gang calls the fighters into the ring. Special trains will bring big delegations of fight fans from Chicago. Other delegations are coming from points throughout Wisconsin, Illinois, Michigan, Iowa and States as far distant as North Dakota. The advance sale indicates that the predictions of the largest crowd that ever witnessed a mill in this city are likely to be fulfilled.

CHewing GUM FIENDS WARNED BY DR. WILEY

Washington, March 11.—Dr. Harvey W. Wiley, ex-chemist of the department of agriculture lectured at a "temperance day" rally in the Lutheran church of the reformation. He warned against intemperance in drinking, dressing, eating and working, and wound up with an attack on intemperance in chewing gum.

"I want to warn every one against the evils of chewing gum," he said. "We are making a class of chewing gum manufacturers rich by destroying the power of our salivary glands. It is a tax too heavy to pay." Dr. Wiley, who became the father of a second son last week at the age of 47, said the desire of some parents to fatten babies is all wrong. "Why should babies be fattened?" he demanded. "Are they to be killed and eaten like a plump fowl."

Will Embrace Main Division of Inquiry Directed by Congress

Washington, March 11.—Public hearings in important industrial centers from New York to San Francisco will be held during the spring and early summer by the United States commission on industrial relations.

This announcement was made today by Frank P. Walsh, chairman of the commission. The hearings, said Mr. Walsh, will embrace in their scope all the main divisions of the inquiry directed by congress.

Among the cities that probably will be visited are: New York, Philadelphia, Boston, Patterson, Scranton, Pittsburgh, Buffalo, Wheeling, Charlotte, Greenville, Atlanta, Birmingham, Nashville, Louisville, New Orleans, Detroit, Indianapolis, Cleveland, Chicago, Houghton, Milwaukee, St. Louis, Kansas City, St. Paul, Denver, Trinidad, Dallas, Houston or Galveston, Los Angeles, San Francisco, Seattle, Butte and Lead.

Subjects of inquiry. Through examination of witnesses competent to speak for employers, trades unions, other labor organizations, unorganized employes and the general public, the commission hopes to obtain information concerning the industrial situation that will lead to constructive recommendations.

Some of the subjects to be inquired into in each city are irregularity of employment, possibilities of ending irregularity and increasing production through scientific management and employers' associations, and the extent and operation of governmental machinery for regulating the conditions of industry, including the relations between employers and employes.

Successful methods of maintaining harmonious relations beneficial to both employers and employes will be inquired into particularly, with a view

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaker, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out of the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

to their adoption in other centers, where no such methods have been tried.

Eminent authorities in subjects to be included within the scope of the inquiry have joined the staff of the commission and are now adding in planning the hearings.

Witnesses desired by the commission will be summoned under the authority granted it by congress, and volunteer testimony will be welcomed.

Plan For Hearings.

Announcing the plan for hearings, Chairman Walsh said: "The commission will carefully avoid acting as a board of mediation and conciliation, and will not allow itself to be drawn into local controversies or recognize such controversies unless in doing so it can obtain information that has more than local and temporary significance.

"Every interest will be given a hearing. The commission will strive to put aside all bias and prejudice. It will urge others to do the same, in the hope that the industrial problem may be studied in the light of reason. The open mind will be our watchword, and we shall endeavor to provide a forum where men representing all factions can meet in the common purpose of finding a way out from bitterness and strife. To accomplish this we shall need the co-operation and help of all concerned. We shall ask those who meet with us at the hearings to come, not as employers or employes, but as one belonging to the same human family.

Suggestions Wanted. "The hearings are to be undertaken as one means of carrying out the instructions of congress to inquire into the industrial situation and to report our conclusions and recommendations.

"The commission wishes in particular to invite the help of every person who has a constructive suggestion. Such suggestions will be especially welcome when they are supplemented by testimony as to the successful carrying out of the ideas they embody.

According to present plans the hearings will begin the latter part of March.
