

SPEECH WAS NOT GIVEN ON FLOOR

YOUNG'S FAMOUS CANAL TOLLS ORATION MERELY EXTENDED ON RECORD NEITHER WAS HE RECOGNIZED

This Means Taken to Fool the Voters Into Believing He Took Part In Big Debate

Special to Tribune. Washington, D. C., May 28.—On March 31, 1914, Congressman Young had extended in the Congressional Record a speech upon the Panama Canal Tolls which appears in the Congressional Record of April 8.

On May 14, 1914, Congressman Young delivered his philippic against the Bismarck Tribune.

Abuse More Important. He considered the latter of more importance than his speech in favor of the ship subsidy.

There is food for thought in this action on the part of Congressman Young.

To his mind, the speech denouncing the Bismarck Tribune was of more importance than the debate on the Panama canal tolls question.

In this instance he merely had his speech extended on the record to be franked out later at the taxpayer's expense to the voters of the Second Congressional district.

On Floor of House. The remarks relative to the Tribune were made on the floor of the House. These remarks were made May 14.

His first speech was supposed to have been made March 31, when the Panama Canal tolls was up in the House. On March 31, when it is alleged he gave a long speech, there is no record that Mr. Young was ever recognized, but under a rule of the House all gentlemen speaking have permission to revise their remarks in the Record and all members have permission to extend remarks for five legislative days so THAT HIS SPEECH WAS NOT DELIVERED ON THE FLOOR OF THE HOUSE but simply extended on the Record.

TELLS STORY OF BATTLE

Lawson Gives His Version of Trouble Among Colorado Miners.

Denver, Colo., May 28.—John Lawson, of the international executive board and a member of the union of mine workers, told the story of the battle at Ludlow, April 20, between the strikers and militiamen in the southern Colorado coal strike.

His testimony was given before the general court-martial trying Lieutenant Linderfelt on charges of arson, murder, manslaughter, larceny and assault with intent to kill and assault with a deadly weapon.

The assault charges come from an incident in which Linderfelt is alleged to have struck Louis Tikas, leader of the Greek strikers, with a clubbed rifle.

The defendant entered a general and specific plea of not guilty. Lawson testified that he made an unsuccessful attempt to reach the tent colony, but was kept from approaching within 100 to 150 yards by the rifle.

He visited Arroyo, near the colony, where the strikers had rifles and where he saw a few women, and some one there told him that the women and children in the tent colony were safe in pits under the tents. He admitted he had not directed any men in Arroyo to withdraw.

DIED FROM INJURIES. Rolla, N. D., May 28.—Harry Duncan, a highly respected citizen of Oxford township, died from the effects of an injury he received in a pasture on the farm of William Craig, his brother-in-law, with whom he had made his home for several years.

Mr. Duncan went to the pasture to catch a horse. Just what happened there will never be known, as Mr. Duncan was found in the pasture toward evening by a neighbor, Carl Wilkie, in a paralyzed condition. He was taken to the house and Dr. Verret was immediately sent for. Upon examination Dr. Verret found the neck was broken. From the rope mark around the wrist it is thought that the horse, after being caught, must have wheeled and pulled Mr. Duncan forward so violently as to produce the dislocation. He was soon restored to consciousness, and remained rational to the time of his death, but could not tell the details of the accident.

THE WEATHER. The Dakotas—Fair Friday and Saturday; warmer. Minnesota—Cloudy and probably showers Friday; cooler in east portion; Saturday fair.

ITALY'S SPECIAL ENVOY TO PANAMA EXPOSITION

Ernest Nathan, who was for seven years Mayor of Rome, is Italy's special commissioner to the Panama-Pacific Exposition. The accompanying photograph was taken upon his arrival in New York, where he received a cordial welcome by his fellow countrymen and high officials of the Masonic Order, in which he is a Past Grand Master. The pavilion which will contain the Italian exhibits, according to Mr. Nathan, will be so constructed that the decoration of each room and hall will present the arts and crafts of his country.

ST. LOUIS HAS ITS CENTENARY

Big Pageant Marks 100th Anniversary of Missouri Metropolis.

St. Louis, Mo., May 28.—The Pageant and Masque of St. Louis, which was given here tonight in commemoration of the founding of this city one hundred and fifty years ago, required for its production probably the largest in the world and a cast of 7,500 persons.

Nearly one hundred thousand people witnessed a presentation on St. Louis' one hundred and fiftieth anniversary of its founding, of a pageant illustrative of the 30 most important events in the history of the city, and a masque, giving a symbolic interpretation of that history.

The production was in two distinct parts—the pageant, by Thomas Wood Stevens, head of the school of drama of the Carnegie Institute, Pittsburgh, Pa.; and the masque by Percy MacKaye.

The pageant began shortly before sunset, and continued until dark. After a short intermission, the masque was given under electric light. The pageant was a series of thirty living pictures, portraying important events in the history of St. Louis. Fifty-six hundred men and women took part in this presentation.

Mound Building. The pageant opened with a scene depicting the mound-building era of St. Louis, which is on the site of many of the old mounds. The movement began with long lines of men and women bringing earth in baskets and building a mound in which they buried the chief of their tribe. The immense stage represented the site of the present city of St. Louis. Between the stage and the hill to the south on which the spectators sat was a lagoon, 150 feet wide, representing the Mississippi River. The spectators were asked to imagine themselves as seated on the bluffs on the Illinois shore and looking across the Mississippi River to the site St. Louis as the history of the city passed before them.

As the mound builders buried the chief of their tribe, buffalo hunters approached and persuaded them to give up their mound building ways. In Forest Park. The stage on which the pageant and masque were given was built over the boating lagoon at the foot of the hill in Forest Park on which the City Art Museum stands. This hill was the site of the Cascades during the Louisiana Purchase Exposition, and is a natural amphitheater. It rises steeply from the lagoon, and from any point on this hill a commanding view of the stage could be obtained. Forty-two thousand seats were placed on this hill, and back of these was room for thousands more who preferred to bring camp stools or to stand. It was stated that more than sixty thousand persons could view the pageant at one time from the hill.

The stage was 520 feet wide at the rear, and it had a semi-circular front of 880 feet. The stage was 200 feet deep, the background being a great screen fifty feet high and 300 feet long. On the stage were two towers forty feet high and within these was the mechanical apparatus used to control the lights.

BICKFORD'S LOCATION IS NOT KNOWN

MANY INQUIRIES RECEIVED AT TRIBUNE OFFICE AS TO STATUS OF CASE.

CLERK OF COURT TALKS Must Await Message From Judge Engerud as to Disposition of Matter.

Speculation is rife as to the whereabouts of ex-State Treasurer George L. Bickford, and why he has not been brought to the penitentiary. A week has passed since the supreme court passed final judgment and held that Mr. Bickford must serve time, and still no one knows what is being done.

Many Inquirers. Owing to the fact that there have been numerous inquiries at the Tribune office regarding the matter an attempt has been made to secure some information on the subject.

In the first place the public must understand that the supreme court has nothing to do with the matter. This court merely decided a question in law, and when that was settled and the last chance for Mr. Bickford was passed, it was up to the district court of McLean county to attend to the rest, the matter still being in that court's hands. This is due to the fact that Mr. Bickford was tried in that court on a charge of venue.

Judge Crawford sat in the case, instead of Judge Winchester, then on the bench of this district. Clerk of Court Hanson of Washington was called last night by phone, regarding the status of the case, whereupon he stated that upon receipt of the remittitur from the supreme court he called Judge Crawford up for instructions. The judge advised him to notify Judge Engerud of Fargo, who appeared in the prosecution, to prepare the necessary papers, which consist of judgment and commitment, and forward them to him (Clerk Hanson). Mr. Hanson stated that he had not heard from Mr. Engerud, but as soon as he received the necessary papers, Mr. Bickford would be sent for.

An unsuccessful attempt to communicate with Bowbells was made last night, to learn if Mr. Bickford was still at home, but failure in this regard bars information as to his exact whereabouts. This is all that can be learned about the matter at present.

QUIMET AMATEUR OF FRANCE

Defeats Henry J. Topping; Four Up, Five to Play in Final Round of 36 Holes.

Versailles, May 28.—Francis Ouimet, American open golf champion, became the amateur champion of France by defeating Henry J. Topping of the Greenwich Country club, Connecticut, four up, five to play, in the final round of thirty six holes.

Both men rose and when Cramer seized Elam, after telling him to "get out of my way," the latter, realizing he was not Cramer's equal in a physical encounter, drew a revolver to scare him, at the same time giving Cramer a push. The witness said the gun went off, fatally injuring Cramer. The case probably will go to the jury tomorrow.

HIT PRICE FAVORING

House Committee Busy Perfecting Administration's Anti-Trust Bill.

Washington, D. C., May 28.—Provisions aimed against price discrimination and exclusive agency contracts, were perfected by the house in consideration of Clayton bill, a supplement to the anti-trust laws. Scores of amendments designed to alter the measure as framed by the judiciary committee were voted down. Three of the twenty-two sections of the bill were agreed to before the senate interstate commerce committee decides whether to report its omnibus anti-trust bill at present session, it will receive some advice from the interstate commerce commission on some of the important features involving the railroads. The commissioners will appear before the committee next Tuesday.

ACCIDENTALLY SHOT.

Aneta, N. D., May 27.—Adrian Gorsin, recently from Fargo, was shot by the town policeman last night. It is said Gorsin and some other boys were having a "beer party" near the fair grounds. The policeman went out to make the party behave. It is alleged that the policeman used the butt end of his gun when some of the boys threatened him and that when he went to prod Gorsin with the revolver it was accidentally discharged. Gorsin is in a critical condition and may not recover.

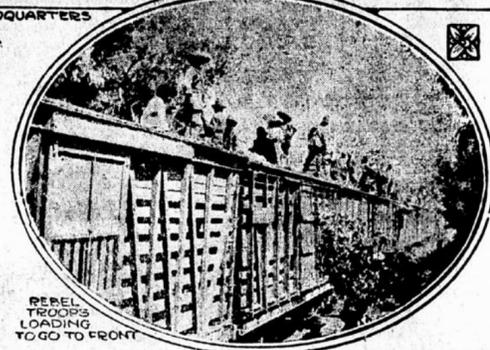

Constitutionalists Execute Thirty-Five Federal Officers Captured at Tepic

GENERAL VILLA, WITH ENTIRE ARMY, TO START FOR MEXICO CITY.

CROWD IN FRONT OF VILLA'S HEADQUARTERS IN TORREON

Spurred on by representations from Washington that the mediators are hurrying their work in order to finish before the constitutionalist army is able to take Mexico City, General Villa has issued orders for an immediate advance of the entire army out of Torreon in the direction of Zacatecas. It is to be a race between the mediators and Villa to see which can reach the goal first.

REBEL TROOPS LOADING TO GO TO FRONT

ARE SHOT IN SQUADS BY CONQUERORS

HOWARD INTERCEDES FOR THEIR LIVES IN NAME OF HUMANITY.

PEACE PLANS PROGRESSING

Landing of Munitions by German Vessels Considered by Mediators.

NOGALES, Ariz., May 28.—Thirty-five federal officers were captured by the constitutionalists at the city of Tepic and executed May 24, according to a message from General Obregon, a constitutionalist commander. The message says Rear Admiral Howard, American naval commander on the Pacific coast, telegraphed to German consul at Tepic to intercede for the lives of the federal officers "for the sake of Humanity," but that Obregon answered that the execution of the officers was necessary to prevent them from making further trouble. They were taken to the cemetery and shot in squads. Soldiers of the Tepic garrison, for whose lives also the American admiral interceded, were paroled.

DR. ELAM TELLS STORY OF CRIME

Says That Cramer Made Slurring Remark Reflecting On Wife's Character.

Kansas City, Mo., May 28.—Dr. W. T. Elam, the St. Joseph physician, told the jury today on a charge of murdering W. Putnam Cramer, a Chicago advertising solicitor, the story of events which wrecked his life and his wife's and caused the death of Cramer.

LANGLEY IS VINDICATED

Glenn Curtis Takes Machine From Institute and Flies In It.

Almira, N. Y., May 28.—The theory of Dr. Samuel Langley, who proclaimed to the world he had solved the problem several years before the upper elements were successfully navigated by a heavier than air machine, was vindicated at Hammondsport today, when Glenn Curtis, the aviator, went aloft in "Langley's Folly," a crude flying machine which fell into the Potomac river when Dr. Langley, its inventor, attempted to fly in it, and was later consigned to the Smithsonian institute, at Washington. Curtis remained in the air long enough to demonstrate its practicability. The Langley machine little resembles the trim, powerful modern flyers, but the old "junk" came into its own, giving its aged inventor, who died of a broken heart because of his failure to fly, a deserved place among the pioneers of aviation.

WILLISTON WANTS WATER.

Williston, May 28.—It is merely a matter of months until Missouri river water, the equal of any in the world, will run from the taps of the city freed from silt and all other objectionable matter. This will do away with the necessity of individual filters and the attendant trouble. Mud baths will go out of fashion and the crystal clear H2O from the mountains will tempt the thirsty. While it will not be so suitable for scouring purposes and will necessitate slight extra expense for items such as tooth paste, the city water will be above suspicion from the standpoint of health for both the sand and organic matter will be filtered from it before it is pumped into the mains.

DIED FROM BROKEN NECK.

Bottineau, N. D., May 27.—Martin Campion of Rugby, whose neck was broken in an automobile accident near here Sunday died early Monday in a local hospital. Three others were in the automobile when it upset on a steep hill near here, but escaped injury. Campion was a pioneer clothing merchant of Rugby.

200 FARMERS HAVE AUTOS.

Fargo, N. D., May 28.—As a result of joint efforts of the North Dakota Better Farming movement and the Commercial club of Fargo there will be an automobile excursion to Fargo, May 29. It is expected 200 farmers will make the trip. They will be taken to the North Dakota Agricultural college to be shown the results of the experiments now being conducted.

CADET DIES OF WOUNDS

Five St. John's Students Implicated in Shooting Are Rearrested.

Annapolis, Md., May 28.—William Bowls, Middletown, Md., the cadet at St. John's military college, died from the pistol shot wound inflicted in a hazing match Monday. The five freshmen from one of which the bullet came, who were out on bail, were ordered rearrested. The governing body of the college tonight began a sweeping investigation as to the circumstances of the affair, as well as to the hazing system at the college.

12,000 MINERS STRIKE TODAY

Operator Must Agree to Collect Union Dues Through Their Offices.

Charlestown, W. Va., May 28.—Twelve thousand miners will leave the pits in the Kanawha coal fields tomorrow night, according to an action at the convention of the United Mine Workers. They will not return until the operators agree to collect all union dues through their offices. A committee was appointed to send the strike order to the farthest parts of Paint and Cabin Creek districts tonight. There is little hope to avert the strike, according to leaders of the miners.

MEET DELAYED BY RAIN

Near Cloud Burst at Huron, South Dakota—Postpones Sports.

Huron, S. D., May 28.—Only a few preliminaries were run off in the Minnesota-Dakota conference meet today, when a near cloudburst forced the postponement of the events until tomorrow, when the semi-finals and finals will take place.

BOY MURDERER INSANE

Ganini, Who Killed His School Teacher, Sentenced to Mateawan.

Herkimer, N. Y., May 28.—Jean Ganini, the 16-year-old boy, charged with murdering his school teacher, Lida Beecher, was sentenced to the Matteawan asylum for the criminal insane, after being acquitted of the murder charge on the ground of imbecility. The jury was out 23 hours. The girl was murdered at the village of Poland, N. Y., March 2. A farmer discovered the body in the bushes near the roadside. The boy confessed.

VICTIM OF HARD LUCK.

Jud, N. D., May 28.—Vaughn Steele was the victim of a serious accident. Early in the morning he started for Jud to get the doctor when the team ran away. He caught them and was taking them back to the house for some reason and in going through a gate the rig struck the post. The impact brought post, fence and all in to the rig in such a manner that Vaughn was compelled to jump to save himself from serious injury, in doing so he broke a leg.

PEACE PRELIMINARIES SAID TO BE SETTLED

Niagara Falls, May 28.—Plans for the pacification of Mexico through mediation will be virtually completed as to the major issues before being presented to Wilson and Huerta for approval. When this is obtained the secondary questions will be taken up and a protocol, covering the basis of principles, will be signed.

The mediation conference here will close and the delegates will return home, the mediators to complete the details of the undertaking, in conjunction with the authorities at Washington and Mexico City. This may require several months. It is expected the responsibility of dealing with the constitutionalists will be thrown upon the United States. Among the points still to be disposed of will be the selection of persons to compromise the new provisional government and exact manner which it will take office in succession to Huerta.

On these questions the mediators conferred with the delegates today. A protocol concerning the conferences here probably will be signed within a week.

STATES HIS POSITION.

El Paso, Texas, May 28.—General Carranza has sent to his representative at Washington an announcement regarding the position of the constitutionalists in the mediation proceedings at Niagara Falls.

PROBING ARMS SHIPMENT.

Washington, May 28.—An official statement issued at the navy department late tonight said: "After making every effort to verify positively the reported landing of arms by the steamers Bavaria and Ypiranga at Puerto Mexico, the department is unable to confirm the rumor. In view of all the circumstances it is disposed to await confirmation of the landing of the arms.

Believed Arms Were Landed.

The only facts known to the navy department, the statement said, are that the steamer Ypiranga arrived at Puerto Mexico in the regular course of her itinerary and landed a considerable cargo of some sort during the day. It added that Badger has been requested to secure more definite information.

Keep Away From Tampico.

Urgent recommendations that Americans be not allowed as yet to return to Tampico were transmitted to the navy department tonight by Rear Admiral Mayo, through Rear Admiral Badger.

PROGRESS TOWARD PEACE.

Washington, May 28.—Conferences, which indicated the rapid progress in the mediation of the Mexican situation (Continued on Page Three.)
