

TEACHERS ENDORSE SUFFRAGE

VOTES FOR WOMEN ADVOCATES WIN PARTIAL VICTORY AT CONVENTION.

EQUAL SALARIES ARE URGED

Teaching of Sex Hygiene Will Be Endorsed—the speeches.

JORDAN NEXT PRESIDENT.
St. Paul, Minn., July 7.—The unanimous election of Dr. David Starr Jordan, of Leland Stanford University, to the presidency of the National Education Association, one of the most coveted positions in the educational world was assured tonight when Dr. David B. Johnson of Rock Hill, S. C., suddenly withdrew from the contest, thereby terminating one of the most active political campaigns in the history of the association.

Johnson's action followed a long conference with a number of his supporters, who claimed a majority of votes of the nominating committee for their candidate.

The election takes place Thursday. Also it is authoritatively announced there will be no opposition to the selection of Oakland, Cal., as the meeting place next year.

St. Paul, Minn., July 7.—Suffragists won a measure of success, when the resolutions committee agreed to report to general session of National Education association a resolution approving woman's suffrage and equal pay for teachers, regardless of sex. The committee will make its report probably next Thursday.

Welfare of Child.
Welfare of the child from the time he enters the kindergarten until graduation from college was discussed at various departmental meetings. The (Continued on Page Two.)

TRAP SHOOT AT MANDAN

Conditions There Better Than When Tournament Opened Monday at Bismarck.

The conditions for the first day of the two days' tournament tendered by the Mandan Gun club were a little more favorable for the betterment of scores than the preceding day on the grounds of the Bismarck Gun club, as the wind was not in such evidence, and conditions are reflected in the scores.

Thirty-five entrants responded to the word, "pull," and the events passed rapidly under good management, and this insures the success of the tournament, for which the members of the Mandan Gun club are to be congratulated. The high amateur for the day was J. P. White of Watertown, with a total of 163 targets, out of a possible 175; Frank Ray of Dickinson, 159; A. R. Chezik, Portal, 156; W. H. Cowley of Conde, S. D., 155; L. S. Royer of Mandan, 154; H. E. Peck of Kenmare, 152. The above constitute the high guns in the amateur class. For the professionals, J. E. Dickey of Minneapolis scored 164, out of a possible 175, and proved himself high gun, with R. R. Barber of Minneapolis a close second, with 160; followed by J. H. Stair of Crookston, with 156; Jas. Curran, 155, and C. W. Hymer, 152.

This will be the last day of the tournament and on Friday and Saturday, July 10 and 11, Dickinson extends its hearty welcome to all the shooters, and there is no doubt the attendance will be above the average on this occasion.

ACCEPTS WILLIAMS' RESIGNATION.

Washington, July 7.—President Wilson accepted the resignation of George Fred Williams, minister to Greece, by cable. Frederic O. Biller, secretary, was instructed to take charge of the legation.

FOUND DEAD ON HOMESTEAD.

Dooley, Mont., July 7.—Albin Linde, a homesteader living two miles west of this city, was found dead in his home July 4. Mr. Linde had been in poor health for the past year, and on this account had relinquished his homestead the preceding Monday to Albert Anderson of this city, with the intention of returning to the old country. A coroner's inquest was held Sunday and the verdict given was death due to heart failure. The deceased was buried at Plentywood, Mont., on Sunday.

Mr. Linde was an energetic young man, with excellent qualities.

ELECTION RIOTS IN ROME.

Rome, July 7.—Violence marked the elections for the city and provincial councils, which have been going on throughout Italy the last few days. In a constituency where Prince Borghese was a candidate, serious riots occurred and one man was killed and another seriously injured.

Mutiny Among Federals May Cut Off Huerta's Flight

FIGHTING TAKES PLACE NEAR VERA CRUZ BETWEEN FACTIONS.

REBELS REACH AGREEMENT

Washington Officials Still Hoping For Success of Mediation Conference.

Washington, July 7.—Reports tonight from Torreon that peace conference between representatives of Carranza and Villa, which ended last night, resulted in differences in constitutional ranks being adjusted satisfactorily, served to encourage the Washington government and constitutionalist agents here, who are hopeful that mediation of the Mexican embargo soon will be successfully concluded.

Information direct from the scene of the conference asserts that terms of settlement had been reached. These reports generally are credited here and it is believed the adjusting of these affairs will be followed by a decision soon on the part of the constitutionalist generals regarding the invitation of the mediators for constitutionalist representatives to meet with Huerta delegates and discuss Mexico's international affairs.

Mutiny Breaks Out.

A mutiny which broke out among the Mexican federals near American outposts near Vera Cruz is subject of keen interest in American official quarters. Several messages on the subject were received from General Funston, who reported fighting between the federals and mutineers.

The Mexican federal commander previously warned Funston that the mutineers threatened to attack the American lines, and with this information Funston ordered a force to go on the defensive, but not to consider such irresponsible movement as an attack.

Element of Humor.

An element of humor was injected into the situation, when a representative of the revolutionary junta at Vera Cruz asked Funston's permission for himself and others to go out and direct the mutiny.

Officials see danger for Huerta should the mutiny cut off his means of exit from Mexico City. His early departure is expected, but if the mutineers triumph it is pointed out that Huerta hardly can expect safe conduct to the Gulf coast through the enemy's lines.

General Carranza has been recognized as first chief of constitutionalist revolution and Villa is subordinate to him. This confirmation relative to positions of Carranza and Villa, regarded as most important step taken by the international peace party at Torreon and is intended to reunite Villa and Carranza factions.

In settling the division of the north, which Villa commands, with coal and ammunition probably will find automatic solution. The conference is ended as far as vital facts are concerned. The statement was made that results are satisfactory.

PROBE BEGINS THURS.

Grand Jury at That Time Will Take Up the Bailey Murder Mystery.

Freeport, N. Y., July 7.—The grand jury will begin its investigation of the murder of Mrs. Louise Bailey, Thursday, at the Minnesota county seat, District Attorney Smith announced tonight. He added that he would demand an indictment be returned against the woman who he said he is positive shot Mrs. Bailey in the office of Dr. Edwin Carman.

Upon what evidence the demand for an indictment would be based, the district attorney would not say. He admitted the possibility that the grand jury might not heed his demand because of insufficient evidence. The man who said he knew who killed the woman gave particulars of shooting, and is not being held, but he promised to remain at his home here. He will be available when wanted.

TO HOLD PUBLIC FUNERAL.

New York, July 7.—The ashes of the three victims of last week's dynamite explosion will be object of public mourning by anarchists, I. W. W. and other sympathizers in Union Square, Saturday afternoon, according to announcement tonight by Alexander Berkman, an anarchist. Apparently, the city has no way to stop Saturday's demonstration. It cannot prevent agitators from taking ashes into Union Square. There, according to Berkman, friends of the dead purpose to set up urns containing the ashes and pronounce the men martyrs, while the police are being denounced.

BUBONIC PLAGUE VICTIM.

New Orleans, July 7.—The third case of bubonic plague was announced by federal health officials today. John Jackson, 19, a negro, died July 2, at his home, about three miles from the original infected district. Bacteriological experiments gave positive evidence of the disease. This makes the second death since the outbreak of the disease.

WELSH WINS OVER RITCHIE

ENGLISH LIGHT WEIGHT CHAMPION OUTPOINTS AMERICAN LAD.

WAS TWENTY ROUND BOUT

Both Are Evenly Matched But Britisher Shows Better Form in Punches.

London, July 7.—Fred Welsh, light-weight champion of England, defeated Willie Ritchie on points, in a 20-round fight for the light-weight championship of the world. In the opening rounds Welsh scored more points than Ritchie. In the fifth, however, Ritchie forced the fighting.

In this and the next two rounds there were some sharp exchanges of heavy fighting, in which Ritchie got the upper hand.

American Cautioned.
Several times the American was cautioned for holding in clinches. In the eighth Welsh revived his liveliness for two rounds and forced the fighting and had the best of the encounter.

When half the match was over Welsh led easily on points, but Ritchie revived somewhat in the eleventh. The next three rounds were his.

Both slowed up in the seventeenth and Ritchie got home a number of sharp body blows, but in the eighteenth Welsh obtained more points, causing his opponent's lips to bleed. In the nineteenth Ritchie forced the fighting, but again in the twentieth, the swiftest portion of the whole fight, Welsh increased his advantage.

Some dissatisfaction among American spectators was evidenced at the decision, because neither man bested at the finish, although Welsh scored the greater number of blows, but Ritchie's appeared more telling. The British victory was cheered to the echo.

THE WEATHER.

Dakotas — Local thunder showers Wednesday; Thursday fair.
Minnesota — Partly Cloudy Wednesday; probably Showers west; Thursday cloudy.

PROGRESSIVE LEAGUE DID NOT ENDORSE STATE TICKET

HELD MEETING AND RAISED MONEY TO CLOSE SEASON'S BOOKS.

AN ARGUMENTATIVE SESSION

The Support of Ticket Will Undoubtedly Result From the Discussions.

The executive committee of the Progressive Republican League held an all day session at the Grand Pacific hotel to wind up the affairs of the campaign, just closed. The exchequer had been depleted and an attempt was made to secure the necessary funds to settle all outstanding accounts and leave the slate clean. The subscriptions were secured and the League adjourned after a very argumentative session.

No Endorsements.
The main question which was before the members was regarding and endorsing the republican ticket and Alex McDonald remarked that in order to maintain the organization it was necessary as republicans to endorse the entire ticket. This seemed to be the consensus of all present. No action however, was taken along that line.

Will Support Ticket.
The presumption is, that all will support the entire ticket as nominated at the primaries. The failure to do so on the part of the progressive republican league would fasten upon them the stigma of "primaries for office only" and indicate that the league was only seeking its own aggrandizement at the expense of the entire republican party.

Secretary Langer said:
"We endorsed no one, and we will probably not do so but it is likely that each one will support the ticket this fall."

Those Present.
Among the prominent men present at the meeting were, Hon. James A. Buchanan, Buchanan; S. N. Putnam, New Rockford; William Courtenay; George J. Smith, Plaza; S. E. Ellsworth, Jamestown; E. J. Conrad, Mandan; C. Lundquist, Fargo; W. J. Prater, Bismarck; and several others who are identified with the league.

\$75 PER ACRE FOR HAYES' FARM

Land Formerly Owned by Ruth-erford B. Hayes Sold a Top Figure.

Land Formerly Owned by Ruth-erford B. Hayes Sold a Top Figure.

The highest price that has ever been paid for farm land in Burleigh county was in the sale of the Hayes farm, located four miles north of Bismarck, when it was sold by Dan Cahill to a Mr. Williams of Abdon, Nebraska, for \$75.00 an acre.

The consideration was \$72,000.00 for 960 acres and Mr. Cahill is well pleased with his investment as he bought this land about ten years ago for \$10.00 an acre.

After Mr. Williams had looked over the farm he had purchased, he was shown the large alfalfa fields near Bismarck and he stated that in his judgment, land that would grow such alfalfa was certainly not high at \$75 an acre.

This farm was originally owned by President Rutherford B. Hayes, who operated it before his death. This calls to mind that two presidents of the United States have owned farms and ranches in North Dakota as it will be remembered that President Roosevelt for a number of years, operated a stock ranch near Medora.

PRES. HUSTIS LEAVES

Howard Elliott, Former N. P. Chief Will Act as President of New Haven System.

New York, N. Y., July 7.—James Hustis, president of the New York, New Haven & Hartford, who has been elected president of the Boston & Maine, tendered his resignation to the executive committee of the New Haven to be effective August 15. It is understood no successor to Hustis likely will be named as Howard Elliott in all probability will act as president, pending the election of the New Haven.

DAMAGE CAUSED BY BOMB FOR ROCKEFELLER AND I. W. W. LEADER WHO WAS KILLED

FIREMEN RESCUING PETER CASSEMENGO, A CHIEF

Dynamite, believed to have been made into a bomb by Arthur Caron, of I. W. W. notoriety, exploded on an upper floor of a double decker seven story tenement at No. 1626 Lexington avenue, New York, wrecking the building, killing Caron and at least two others, injuring many and driving hundreds of tenants in panic to the streets. The police identified Caron as the man who had been arrested in Tarrytown during the demonstrations against the Rockefellers and also declared the evidence showed that Caron had been making a bomb when he was blown up with the building.

Caron's body was found on a fourth floor fire escape. The south half of the seven story tenement's fifth, sixth, seventh and eighth floors was blown out, tons of debris crashing down on the tenants below, dealing death injury and destruction. That the explosion was the result of a bomb maker's carelessness became certain when Caron's body was identified by Alexander Berkman, the anarchist, who tried to kill Henry C. Frick, and by "Beautiful Marie" Ganz, who was imprisoned for threatening to shoot John D. Rockefeller, Jr., and who was released recently from prison.

In the accompanying illustration is shown Peter Cassemengo, a merchant, being rescued by firemen. He was dug out of the debris in a doorway leading to the basement and was in a critical condition.

TRAIN RUNS DOWN AUTO; ONE KILLED

N. P. NO. 7 STRIKES MACHINE HURLING BANKSTON TO HIS DEATH.

CAR WAS CROSSING TRACK

Younger Brother Was Driving Auto and Became Alarmed At Situation.

Beach, N. D., July 7.—Ned Bankston, 19, bookkeeper for Morris & Mathison, was dragged under train No. 7 and instantly killed last evening. The engine struck his automobile as it was clearing the crossing approaching the station. The young man's brother, who was driving the car, seems to have been so frightened on the sudden appearance of the train that all he thought of was to try to get across ahead of it by throwing on the full power. The train caught the back of the car and pulled it along several feet and then hurled it across the walk about 20 feet. At the same time Ned Bankston was dragged under and his head beat against the depot platform. His body was pulled out from under the last car badly mutilated. The brother, John L., escaped with but a few injuries. A coroner's inquest was held tonight. The engineer and train crew were sent back from Glendive to appear.

BURLEIGH CO. SEED SOUGHT

Selected By Several Companies As Best Place to Grow Corn For Seed.

Several seed houses are contracting with Burleigh county farmers to supply them with seed corn for next season. Burleigh county grown seed corn is being featured in several catalogues. One of the houses which has a demand for Burleigh county seed is located in Minnesota.

That this county should be picked as an ideal place to grow seed corn indicates the prominence of the county as a corn producing section. Seed matures and hardens here earlier than in most regions and the quality of the seed has a reputation over several states.

DEMAND GARBAGE MAN

Active Campaign on to Secure Some Action From City Commission.

The following petition has been signed by more than 60 householders. An active campaign is on foot to secure some kind of garbage disposal for Bismarck:

"We, the undersigned, householders and residents of the city of Bismarck, being desirous to make our city clean, healthy and attractive, do petition and request that your board appoint an official scavenger, whose duty it shall be to remove all rubbish, garbage and other waste matter from private houses and premises at regular intervals.

"A clean town is a flyless town and the prevention of fly-breeding adds to the comfort and health of our citizens and visitors."

HAS INVENTED ENGINE.

Carrington, N. D., July 7.—L. K. Sivertson, inventor of the steam wheel engine, has received his complete model and will give it a thorough test in a short time. The invention is a remarkable one in many respects and if it comes up to expectations it will almost revolutionize steam engines for smaller plants. The plans and model has been inspected by many competent engineers who insist the idea appears flawless. Local people have backed Mr. Sivertson in the enterprise and many of them visions of becoming millionaires.

MYSTERIOUS DISAPPEARANCE.

Arnegard, N. D., July 7.—The disappearance of Ole Skovly, a homesteader in this county, is still a mystery. Five weeks ago he left his farm ostensibly for Schafer and asked a neighbor to care for his horses. He has not since been seen. He owns a half a section of land and his horses and is not thought to have been in debt. He was a bachelor and lived alone. He told the neighbor he would be absent for three days but has now been away six weeks. It was thought at first he had gone to Williston or the cities by train, but none of the train crews can recall a man of his description and his friends are now inclined to believe it is a case of suicide or murder.
