LITTLE TOT HEROINE

Little 7-Year-Old Girl of Crosby Saved Life of Baby Sister

When House Caught Fire.

Crosby, N. D., July 18.—Eleanor M. Cain, age 7, risked her own life to save that of her baby sister, age 2 years, when the Cain residence, five miles from here, was destroyed by fire.

The elder girl was lying in a bed room downstairs when the fire broke out during the absence of the parents. Unmindful of her own weakness from an attack of mumps, the girl made her way through the blinding smoke to a bedroom on the second floor, where the baby was asleep. Taking the child in her arms she escaped from the burning house by climbing out of a window on a lean-to over which she made her way to the ground by jumping several feet.

BEACH LINE ASSURED

Northern Pacific Right of Way Men Arrive to Map Out New Road.

Beach, N. D., July 18.—Messrs. Watson and Kaufman, Northern Pacific right of way men, arrived in the city this week with plans showing the exact route of the south branch and with instruction to secure the right of way from the local people as promised. The local committee immediately got busy and have already got considerable right-of-way signed up, ranging in price from \$20 to \$35 per acre according to distance from town.

The south branch out of Beach is a sure thing and it will only be a matter of a few months when trains will be running.

No information has been given out as yet on the location of townships, but it seems to be the general opinion of the committee that a town will be located on school section 38, 12 miles south of Beach, through which the line will run.

HID HIS LIGHT.

Mandan, July 18.—The four-year-old son of Dr. and Mrs. B. D. Rowley started a fire in the family residence which might have resulted seriously had not the same been discovered in time and the department responded promptly.

In the absence of his parents the child, who had been put to bed by the maid, found a box of matches and a candle; he lighted the candle and, crawling under the bed placed it there and retired. In very short order the bed was too warm for the youngster, and the room filled with smoke. The damage will amount to about \$200.

CROPS BEST IN YEARS.

Kenmare, N. D., July 18.—"Crops look better this year than they have in any of the 14 years that I have lived in Kenmare county," said John Noren, one of Denmark township's prosperous farmers, the first of the week. And it is safe to say that his opinion is held generally by all the farmers of Kenmare county.

Ideal growing weather has prevailed in Kenmare county for the past several weeks, which, with the abundant rainfall of the months of May and June has given the nicest looking crop that has ever been raised.

SKIPPED OUT.

Williston, N. D., July 18.—The McKenzie county horse stealing cases which were tried in Williston developed some sensational situations. The first case called was that against Ray Forsman, in which he was charged with stealing a horse from Tom Dean. It was considered the strongest of the three cases.

The second witness called was Dick Dickenson, who has been considerably in the limelight during recent months. His cross-examination had not been completed when court adjourned for the noon hour. When court reconvened Dickenson failed to appear.

Diamonds

Now, and always, we have in stock a choice line of blue white Wesseltons in both the loose and mounted stones. These are of the finest quality, carefully selected, bought right and will be sold at the lowest possible prices.

appear, although he had been seen less than a half hour before. A bench warrant was immediately issued for his arrest and the sheriff of Williams county and his deputies scoured the city and the surrounding country but were unable to apprehend him.

FOOT CAUGHT IN MOWER

Kindred Boy Seriously Injured When Team Started While in Front of Mower.

Kindred, N. D., July 18.—While mowing on his father's farm, south-east of town, the sickle became clogged and little Richard Falland, 12 years of age, who was running the mower, had succeeded in clearing the same when one of the horses had switched the line from his hand in front of the cutting bar. The little fellow stepped in front to recover the line when the team started and his foot was caught in the sickle cutting all the tendons in the back of the ankle and half way through the joint. He was hurried to Kindred where Dr. Haugen dressed the wound and he was taken immediately to a hospital in Fargo. The foot will no doubt be saved but he will never have free use of it again.

RAIL AT CARRINGTON

One of Most Terrific Storms of History Swept Center of Foster County.

Carrington, N. D., July 18.—A terrific hail storm, the first of the season, swept through the center of Foster county and through the city of Carrington, Wednesday evening about 6:45 o'clock.

While it lasted only about 15 minutes, it wrought considerable havoc, crashing all the windows in the west side of the Foster county courthouse, all the west windows of the Kirkwood hotel, amounting to over \$500, and did much damage to other buildings in the city and rural districts in the storm's path.

The path of the storm was about 20 miles in length and three miles wide, reaching from Cranford down to New Home in Stutsman county.

In the country the crops bent with the storm king's sweep, the wheat was badly broken and the farm buildings damaged. The like of this storm has never been experienced in this section before.

No Mail at Lisbon.

Lisbon, N. D., July 18.—A heavy rain storm visited this section Wednesday night, but there was not much accompanying as seems to have been reported in some of the morning papers.

ANTELOPE SEEN IN SOUTH DAKOTA

Pierre, S. D., July 18.—For the first time in several years small herds of antelope are reported in central Perkins county. With the settlement of that region, several years ago, the few bands were either exterminated or drifted down along Cherry creek into the rough land on the reservation, where several bands are reported to be increasing in number.

State Game Warden Hedrick expects to secure a supply for the state preserve this fall from among the herds on Cherry creek and has residents of that section keeping an eye on their feeding places to get them located for a round-up.

MANY INDIANS.

Devils Lake, N. D., July 18.—While the people of the lake region were congregated on the northern shore of Devils Lake across the lake on the Indian reservation occurred one of the most unique celebrations in the history of the Indians in North Dakota.

Close to 1,000 Indians, representing every tribe and agency in the Northwest, are camped on the brow of a hill a few miles east of the Fort Totten Indian agency. Early in the week the delegations began to arrive and every train that stopped at the Little Narrows station brought more. The Sisseton, South Dakota, agency, and the Turtle mountain agency, and the Turtle mountain tribes are all represented.

JAMESTOWN MAN RETIRES.

Jamestown, N. D., July 18.—The sale of the properties of the Lutz Lumber company to the Welles-Thompson company, came as a surprise to the general public, though for some time Mr. Lutz had desired an opportunity to retire for the present from active business in which he has been engaged in Jamestown for many years. The career of Mr. Lutz in Jamestown is one of the longest of any in the city, and exceeded by very few. For 32 years almost to the month, he has been engaged in the lumber business in Jamestown, and with only one vacation, and that was of three months duration when he revisited the scenes of his childhood in Germany.

DIED AT GOLDEN.

Edinburg, N. D., July 18.—Albert Anderson, a young man, 32 years old died at the Ole Nelson home in Golden, where he has been staying since last April, death being due to cancer of the stomach. The deceased has been working in this neighborhood for the last seven years and was quite well known. He came here from Broadhead, Wis., where his parents, Mr. and Mrs. Anton Anderson, and three sisters reside. He has also a brother at Austin, Minn., and

another brother here, Lewis working at the Nelson farm.

NEW GEYSER.

Livingston, Mont., July 18.—Mr. and Mrs. James R. Ferrier of Sydney, Australia, returned from a tour of Yellowstone National park. Mr. Ferrier is assistant harbor master at Sydney. He has traveled much, and although he has seen geysers in New Zealand and has traveled through the most scenic portions of the world, was delighted and more than satisfied with his trip through wonderland. He was particularly pleased with the many wild animals which he saw. He visited New York on his way here and will return by way of Seattle, California and Japan.

Mr. Ferrier won the distinction of discovering a geyser in the park which has heretofore not existed. While out for a walk he strolled about a mile from the Old faithful hotel, and there saw an unnamed and new geyser which has just started its periodical eruptions. It is not large, but erupts regularly at periods of twenty minutes, and was immediately named "The Ferrier," by the guides who had been called to see it, but they declared it must have begun to erupt within the past few days. Since the volcanic eruptions in Japan last winter nearly all the geysers are more violent than for years past, and some which have been idle for years are frequently known to erupt.

No vaudeville at the Orpheum now. Pictures only, at 5 and 10c.—Adv.

GREAT CHANGES.

Devils Lake, N. D., July 18.—Looking back over a quarter of a century, Jens C. W. Anderson, one of the substantial farmers of Ramsey county, recalled the circumstances of the first circus he saw in Devils Lake.

"I cannot help but contrast the present with the past," he said. "Twenty-five years ago there was a circus in Devils Lake and I started early in the morning with my family for town. We drove oxen then, and it was mighty slow traveling. We were in time to see the parade, but none of us went to the show, for the reason that we could not afford to. Today I brought in my family in my automobile, saw the parade went home for dinner, and came

back in plenty of time to attend the circus. I noticed several of my neighbors came today as I did, and certainly we all have much to be thankful for that we live in such a prosperous state as North Dakota."

TRUBSHAW HEADS COMMITTEE.

Valley City, N. D., July 18.—P. R. Trubshaw heads the republican county committee of Barnes county. A. B. Cox was selected member of the state central committee. The democratic chairman is Hugh McDonald, and Charles W. Pollock and W. W. Smith were selected to serve on the state committee.

MOTORCYCLE DITCHED.

Minto, N. D., July 18.—John Jesonek of Minto was the victim of a motorcycle accident. He was on his way to Warsaw, and in trying to make a bridge, lost control of his machine and went into the ditch. The motorcycle was badly damaged and Jesonek bruised and shaken, but not seriously injured.

SAME AS BUZZ SAW.

Grafton, N. D., July 18.—Little James Sherman met with an accident last Friday evening, in company with his older brother he was playing with the lawn mower and in some manner got the index finger of his right hand into the machine so as to cut the tip of it completely off. The services of a surgeon were needed for the wound.

AUTO CAUSED RUNAWAY.

Fairdale, N. D., July 18.—An automobile passing through Fairdale at a high rate of speed frightened the team of Oscar Ole. The team ran away, throwing Mr. Ole and his mother out of the rig. Mr. Ole's nose was broken and she was otherwise injured. The buggy was smashed to splinters. The driver of the machine did not stop and his identity is unknown.

ACCIDENTS AT LAKE.

Devils Lake, N. D., July 18.—Devils Lake played in horseshoes luck when a head-on collision on the Chautauque line, a lake accident in which a ferry was capsized a half mile from shore, and a head-on automobile collision occurred, without a fatality, or even a serious injury.

Attorney Rollo F. Hunt, formerly of Mankato, Minn., and Dean Jacobson, were perched on an overturned yacht, the victims of a squall, when rescued on the lake.

GRAND FORKS PIONEER DEAD.

Grand Forks, N. D., July 18.—R. T. Smith, of Grand Forks, who was stricken with apoplexy some time ago, died Wednesday at Arvilla, according to reports received here. Mr. Smith had been a resident of the city for a long time and was well known. He was a member of the Loyal Order of Moose. The members of this organization will meet at 8 o'clock this evening to make arrangements for attending the funeral in a body.

Funeral services yesterday were held in this city at 2 o'clock in the afternoon.

SHE IS A WISE WOMAN.

Who recognizes in the tell-tale symptoms such as headache, dizziness, dragging sensations, nervousness and irritability the true cause and relies on Lydia E. Pinkham's Vegetable Compound to restore her to a healthy, normal condition. For forty years this root and herb remedy has been pre-eminently successful in controlling the diseases of women. Merit alone could have stood such a test of time.—Adv.

Think of it! you will be able to see the great serial picture, "The Perils of Pauline," at the Orpheum, for 5 and 10c, hereafter.—Adv.

Osteopathy

A Word to Women Regarding Osteopathy

Osteopathy has done much for women, for it is relieving the troubles of women that Osteopathy has won many of its most signal triumphs. It has not only cured diseases that had never before been reached by medicine, doing away with very much of the suffering of childbirth and after effects, but it has also done away with much of the disagreeableness of medical examination and treatment. The treatment is never given on the nude body. Adjustment of twisted bones is always made while the patient wears a loose gown and her natural modesty is not shocked by the process. The women who have tried it, cling to Osteopathy, and you will always do so.

Everywhere that Osteopathy has gone the women can testify that to them the system of adjustment has come as the greatest blessing offered by healing science. It places woman in a physical condition to take advantage of her improved social and industrial position, and to do her best work in the world. It does more than other advance in medicine to make her the happy mother of vigorous children and to give her strength equal to the demands made upon her by the more complicated intellectual and social life of our times. In helping the mother, Osteopathy benefits the whole race and we must reckon its discovery among the greatest achievements in medical science of the twentieth century. Osteopathy has made greater strides than any other system of the healing art in the same period. This is not because other systems are valueless, but because Osteopathy offers more and is better.
