**FOR RENT OR SALE—**The prettiest, richest, improved 480-acre farm in the state of North Dakota, all in alfalfa but 125 acres, making 359 acres of as rich and fine alfalfa as you can see in any country. Part of this land is the Henry Suttle place, the old townsite, and the rest adjoins on the west. It is within one-half mile of the depot and is close to town. You can raise anything you will plant and be assured of a crop every season if it is properly put in. You can raise as fine a garden on this farm, or fruits and vegetables, as John Millet does, and I have never seen any finer or richer vegetables or fruits in California, the south or west, than he raises. This soil is especially adapted for fruits and vegetables, or grain or anything you might plant on it. You can drive a well any place and get all the water you want. I have seen sugar beets grown on this land which are larger and richer than any sugar beets grown in the sugar beet country, where I have personally investigated many times. When I bought this farm I figured to move my stock yards on the Suttle place, but now I feel that I must retire from the business on account of my health. There is also an eighty west of the Gottlieb Huber place, with all timber cut off and roots grubbed out, with the rich rubbish plowed in to a depth of fourteen or sixteen inches, making as fine an eighty as you can see any place. All my farms are fenced with light woven wire on steel posts, making a fence that will hold any kind of stock. I also have some land just north of the capital for rent, which could be connected with my farms. For a suitable, first, reliable tenant I would build a house, stable and conveniences on the Suttle place. The city waterworks, electric light and power wires run through this place. Abundance of sand and gravel for all buildings. The closest they can get gravel to Bismarck. Some of this land I am willing to sell; the eighty west of Gottlieb Huber's I would sell. Also, some of the other land in forty-eight or one hundred and sixteen. I would give the right kind of a man splendid terms to help him get along and become successful. I have one thousand loads of manure on my stock and feed yards, which a man might haul and would find it worth thousands of dollars for the right kind of a man. It is only a short distance to haul. I also have one hundred sixty acres up the river bottom, between the Ward and Sperry's farms, all bottom land, excepting a corner suitable for building on the up land. This land raises a big hay crop every year, 40 acres are in oats this year. Also, a small piece of alfalfa. I have three quarters of land in Naughton township, which I will sell cheap, and all of this land can be bought on part payment or part time. For further particulars, address or see George Gusser, Bismarck, N. D.
