BERGESON'S ARE NOT VIOLATORS OF THE LAW Firm Denies Truth of Unfounded Rumor That It Kept Store Open on Sunday

The following statement was issued today by Bergeson & Son: "A report has gained currency and, we regret to say, has been given credence by some, that it has been our practice to keep our store open on Sunday. "This report is absolutely false. Our store is not open on Sunday, has never been and never will be open on that day. "We do not know whether the spreading of this report was caused through misapprehension or done with intent to injure. The fact remains that we have been able, so far, to build up a successful and growing business six days in the week, and we expect to continue along that line. Should we find that we are unable to make a living without violating both the Divine and the civil law, we shall retire from business—willingly. "Trusting that we may not be called upon again to put a public quietus upon such baseless rumors, we are, Yours respectfully, S. E. BERGESON & SON."

HANDICAP TOURNAMENT Twelve Weeks' Tournament Now On, and Many Competing For Fine Prizes. A 12 weeks' handicap tournament started last Tuesday (or Wednesday), for which a very handsome cup is up for a prize, and the eight best scores out of the 12 will count; so that any player who missed playing last week ought not to fall to start this coming Tuesday (or Wednesday). This is to be played in the same manner as the July tournament, no two players playing together but once during the days of tournament play, and each player to keep the other one's score. This means to announce the number of your stroke each time before hitting the ball, and in case of a miss (foul) it counts as one stroke. Players are asked to read the notices posted from time to time on the bulletin boards, and in case of misunderstanding is to consult the Framed Printed Rules that are near the men's locker room. The scores will not be posted for two weeks, when more players will probably be in. In playing every week there is more advantage, not only in improving one's game, but in being able to turn in the best average at the end of the tournament, which is in October. Any ringer made will also count in the Ringer tournament, which is still on. The first nine holes played on a Tuesday (or Wednesday) are only to count in this tournament and cards should be carefully dated, and signed.

INSTALL FINE PHONE SYSTEM Bismarck Hospital Thoroughly Equipped by Independent Telephone Company. The North Dakota Independent Telephone company completed the installation of a new push button intercommunicating telephone system at the Bismarck hospital last Friday. The demand for a system saving many steps and furnishing almost instantaneous communication between different departments in all progressive institutions has been met by the telephone companies in the perfection of their equipment. The system installed for the Bismarck hospital is wired for service to 23 stations, 51 wires are required for each instrument. Three trunk lines connect the system with the local exchange and will prevent any congestion of traffic to and from the hospital. The installation, which is quite complicated, was in charge of W. L. Parsons, the company's district wire chief. On completion of the new building, a similar system will be installed for the St. Alexis hospital. This is the largest system of the kind in service on the Missouri Slope.

A FALSE STANDARD OF CULTURE. has gained ground in this century, which looks upon the bearing and rearing of children as something coarse and vulgar and to be avoided; but the advent of Eugenics means much for the motherhood of the race. Happy is the wife who, though weak and ailing, depends upon Lydia E. Pinkham's Vegetable Compound to restore her to health, and when headaches and hiccups are a thing of the past, brave sons and fair daughters rise up and call her blessed.—Adv.

"Then make the man take it straight back to the dealer. I ordered trout." VIOLENT CREATURES. Mr. Ambury, the superintendent of the penitentiary, was escorting a party of woman visitors through the building. They entered a room where three women were busily sewing. As they turned to leave the room one of the visitors said, "What vicious-looking creatures!" "What are they in for? They really look capable of committing any crime." "Well," replied the superintendent, "you see, they have no other home. That is my private sitting room, and they are my wife and two daughters." —Harpers Magazine. OUT OF COMMISSION.
