SIX CYL SAXON. Probably no new car announced for 1915 has caused so much speculation and argument, as the six cylinder Saxon, distributed out of Bismarck by the Corwin Motor Co. When the factory first published a photograph of the car, the question at once arose as to how it would be possible to build a big six cylinder motor car with starter and every modern appliance for so low a price. Hugh Chalmers and Harry Ford knew the secrets of quantity production in a big factory, and today the new Saxon stands as proof. The first shipment of these cars so far sent into the northwest, has left the factory, and will be on display at the Corwin Motor Co. later in the week. Clayton Scott registered at the North Dakota building at the Panama Exposition recently. Wear-U-Well shoes direct from factory to you. For sale by Freise & Son.—Adv. # Vudor Porch Shades

Vudor porch shades outlast many seasons. One of the greatest advantages of Vudor shades is the fact that they keep out the sun and the gaze of passers-by—but yet let in all the light and air you want.

It is a Vudor feature and is the result of much experimenting until we found just the right way to space and bind the strips. Even the raising cords do not curl or loop up and stick in the pulleys—an annoyance that you have probably experienced with other shades and screens.

If you are looking for comfort and service, you'll buy nothing but Vudor Porch Shades. The Vudor aluminum name plate on each marks the genuine.

## A. W. LUCAS CO.

her charming personality are well known, and those who have heard her before have hastened to secure their reservations, while those not so fortunate are improving the opportunity, with the result that distance is not counted as an obstacle to people of other towns who enjoy the best in vocal music. There are still many desirable seats left because every seat in the Bismarck Auditorium is a good one, and because the acoustic properties of the house are such that all seats are equally fine to hear from. It would not be surprising if for the first time in the history of the Auditorium the G. R. O. sign would be shown Wednesday night. The following is the program for next Wednesday night: Madame Ernestine Schumann-Heink assisted by Mr. Edward J. McNamara, baritone; Mrs. Katherine Hoffman, at the piano. The splendid patronage afforded Mme. Schumann-Heink betokens a keen interest in the program she will offer. Many will be pleased to learn that one group of three songs will be sung by Mr. McNamara, a distinguished baritone, who has accompanied the diva for the past two or three years in her concert tours. Aside from this treat, the entire program will be sung by the Madame, and it is filled with the noblest examples of musical art. Especially noteworthy is the "Cry of Rachel," by Mary Turner Salter, a number calling for the most intensely dramatic interpretation. Bismarck is given exactly the same program as that offered to Chicago and the Eastern audiences—a compliment indeed to its musical taste. Should a special favorite in the way of encore be desired, Mrs. Cushing, under whose management Mme. Schumann-Heink comes, will be glad to see that, if possible, such be granted.
