

NATURE STUDY CLUB MEETS

Organized for Purpose of Encouraging Young People to Study Nature.

A week ago a Nature Study club was organized by Rev. Bruce E. Jackson, for the purpose of encouraging nature lovers, especially high school young people, to deepen their acquaintance with the great outdoor world of birds, plants and insects. The club plans to take a weekly hike every Wednesday morning, beginning at 6 o'clock and returning about 8:30 in time for school. The first hike of this character was held a week ago, and the second yesterday morning, when about 10 nature enthusiasts wended their way over the hills to the Indian village near the river, and back again, studying the birds, and with their eyes open for the first spring flowers.

It was an ideal morning for walking, the sky was clear and blue, a brisk, invigorating breeze played over the hills, and the morning sun was warming up the atmosphere in that peculiarly bewitching manner as only the morning sun in the early hours can do, and which nature lovers find is such a delightful feature of early morning strolling.

The party did not proceed far when the bird lovers were rewarded with a splendid view of a young meadow lark. The little creature had apparently wandered from its nest and it was walking upon the ground. One of the party easily caught it in his hands so that all could examine it more closely. It was not long before a song sparrow was seen perched upon a small bush singing his gay, sweet song. Other meadow larks came in view in quick succession and their songs echoed among the hills. Flickers, chickadees, and a picturesque magpie were also seen and identified. The magpie was located over the high hills along the river. Various specimens of the homely and sometimes despised crow were in evidence, as well as the chicken hawk and blackbirds.

The botanist of the party meanwhile was on the lookout for flowers, and a number of the early bloomers were found. The beauties of the dis-

It does away with greasy ointments, salves, pads, cotton rings, hammers, knives, scissors, razors, files, and the limping and the painful pig-toe walk of so many corn-pestered people. All you do is put 2 drops of "GETS-IT" on the corn, rub it up—and good-bye. Nothing else in the world like "GETS-IT." Millions are using it. There's no pain, no trouble, no changing shoes because of corns.

tant landscape and the charming vistas down the river did not escape the eyes of the jolly hikers, who were keenly alive to all that was going on about them. The spirit of youth and of beauty-loving, care-free nature devotees was manifest and everyone returned with the conviction that the hike had been eminently worth while. Next Wednesday the club plans to take a hike along the river banks, studying especially the birds which frequent the river low lands, which are quite different in species from those which choose the hilltops and the open prairies.

Three dray loads of booze were seized by Sheriff J. P. French and State's Attorney H. R. Berndt at the Soo depot yesterday and hauled to the courthouse. The shipment consisted of thirty barrels of beer and six cases of whiskey, all shipped from a Minneapolis brewery on the same date but consigned to thirty-six different parties.

BROKE LEG, NOT ARM.

Mr. Marquette, the laundry man, received a broken leg and not a broken arm when his horse fell upon him at the Marquette ranch near Moffit, the other day. The leg was broken just below the knee and above the ankle. Mr. Marquette is doing very nicely now.

DESTRUCTIVE PRAIRIE FIRE.

Mrs. Walter Anderson was in town Tuesday with news of a destructive prairie fire which devastated her husband's farm, located near Moffit, when a prairie fire started by sparks in the heavy wind storm last week swept over their premises. It was only with the greatest difficulty, favored by a shifting of the wind, that they succeeded in saving the house. The barn, machinery, hay, sixty hogs and most of the chickens were all destroyed, only the house being saved. Mrs. Anderson in trying to fight the fire was herself burnt about the face, and one eye was badly hurt. Insurance was carried on the barn and house, so it is to be hoped that Mr. and Mrs. Anderson may in part recover something of the great loss which they have sustained.

SUPT. NEWCOMB HAS BEEN BUSY

Many Cases Have Been Investigated for the Society for Friendless.

Superintendent Newcomb of the Society for the Friendless has been a busy man during the past month. In one instance he was called to investigate a case on the Mott line where a reprobated child and a truant girl were being neglected by the parents. Another trip was taken on the Stanton branch in the interest of a man who was to have his case come up before the parole board. Twenty interviews were had and 20 miles were traveled overland in order to give an intelligent report in this case.

The next trip was on the Soo Line to investigate another case wherein the mother was charged with neglecting her children. The trip required an 85-mile auto drive and interviews to the number of about 25, with the result that the mother will be brought into court to answer to a complaint and give reason why she should not give up the custody of the children.

Two local cases were looked into, one resulting in the guardianship of a child being required to put up bonds to keep the peace on account of maltreatment of the child. Other matters have been looked after during the month, including all of the regular educational work of the society relating to the prevention of crime and the agitation for county jail reforms.

Easily Prepared in a Few Minutes. Cheap but Unequaled.

Some people are constantly annoyed from one year's end to the other with a persistent bronchial cough, which is wholly unnecessary. Here is a home-made remedy that gets right at the cause and will make you wonder what became of it. Rheumatism

A Home Cure Given by One Who Had It.

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.
