Some 48 pigeons from St. Paul were recently released at 8 p. m. in Larimore, N. D., and most of them made the 300 mile trip back home in less than ten hours. When released at 8 a. m. the birds flew upward, described a few circles in the air and then headed straight for St. Paul, the first one reaching there in six hours and 44 minutes.

Did This Ever Happen To You?

Did you ever buy a suit or an overcoat during the season at say \$20.00 or \$25.00 and within a few weeks see the same identical garment in the windows at from \$3.00 to \$6.00 less?

Well, it didn't seem hardly fair did it? It looked as if you'd paid the long price so that the fellow who came late could have his at a great big saving.

No More of That One-Sided Business Here

We're taking the reductions that formerly were made in sale time and we're spreading them out over every month in the year, so that every man will get his share whether he buys early or late.

No more January or July on any other cut price clothing sales here. Instead we're giving every man a discount every day of every month in the year.

We Have Only Two Prices, \$15 and \$20, for Suits Sold Everywhere From \$5 to \$10 Higher

1916 BUICK VALVE IN HEAD SIX \$985

We are in the midst of a new era in the automobile industry. Owing to the enormous increase in the number of cars sold, the Buick Motor Co. has been able to greatly lower the cost of manufacture and give better value at lower prices. The Buick factory is the largest in either America or Europe.

It owns subsidiary companies which make practically everything used in Buick cars, even to the paint and spark plugs. Owing to these most favorable conditions, the Buick line for 1916 will stand alone in workmanship and price. Read the following specifications of the new Six and judge for yourself. There will be no four cylinder Buicks. The entire output has the Six motor, with the famous valve-in-head. Smooth running, powerful, and wonderfully economical on gas.
