

A Too-Thin Oil!
A Too-Thick Oil!
A Gritty Oil!
A Non-Durable Oil!

The Standard Oil Company is making a motor oil that has done away with all common lubricating troubles.

Seven years ago their experts placed this new but tested oil on the market. 1,100 gallons were sold the first year. Then motorists found it out.

1909's demand was for 335,000 gallons—1910's was for 1,118,400. In 1914 nearly 7,000,000 gallons were used in the Middle West alone.

Polarine has gained in sales an average of a million gallons yearly simply because its use eliminated the annoyance and delays incident to unsuitable lubricating oils. Hundreds of thousands of good cars have been saved from the scrap heap by its use. Use it in your motor. See what it does.

Polarine maintains the correct lubricating body at every motor speed and temperature.

It is produced by experts, with the help of perfect facilities, in the largest plant of its kind in the world.

Judge Pollock will preside at a hearing to be held August 2 at Watertown, S. D., on an application for an injunction to restrain the board of education from building a new high school at that place.

The Six of '16

Mitchell

\$1250

The Greatest Car Value the World Has Ever Known

You are impressed with its value at first sight. Its equal has never before been offered by us or anyone else. This luxurious car is not a "Little Six"—cut down in size to meet a price. It is a real car with a powerful, flexible, economical motor and long wheel base. It possesses all that these features imply in beauty, satisfaction, comfort, roominess and is the most accessible car built. Illustrations cannot picture the real car from every viewpoint nor convey the right conception of its beauty, size and power. Words alone cannot describe the thrill of its smooth action, its easy handling, its luxurious comfort.

Study This Mitchell—You'll Long to Drive It
Drive This Mitchell—You're Sure to Own One

125-inch wheel base; 42 horse power; large tires, anti-skid rear; state-of-the-art steering with Date cantilever springs; chrome vanadium steel construction; overalls body; ten-inch upholstery. With seven-passenger body \$2,500 extra. Send for descriptive booklet—Address Dept.

The new Six of '16 is now being shown by Mitchell dealers everywhere

We are factory distributors and control the entire southwest quarter of the State. Write for liberal agency proposition. 1916 cars now in stock.

Model 43 Oldsmobile
A Large Smooth-riding Car, Comfortable as an Arm Chair

The body sides are high; the seats deep, wide and well cushioned; doors are full 23 inches in width. The front compartment measures 41" from the inside of the seat back to the clutch pedal. The tonneau measures 47 7/8 inches from rear seat to front seat. Compare this with other cars.

○ In refinements and equipment Model 43 is so far in advance of other light cars that comparisons can scarcely be drawn. It compares rather with cars of the class priced from \$2,000 to \$3,000.

Model 43 lists at \$1,095, f.o.b. Lansing, Mich.

Let us demonstrate to you.

Oldsmobile
Established 1890
Incorporated 1899

Many of the geniuses of the automobile industry are the product of the House of Oldsmobile—a school where men are trained to be thorough and accurate.
