WILL DIRECT BIG SHOOTING TOURNEY AT SAN FRANCISCO

Director Blasse and some of the medals he has won.

San Francisco is preparing to greet a regiment of marksmen who will participate in the great international shooting tournament in connection with the Panama-Pacific exposition, August 8 to September 26. The director of the International Shooting Tournament association, who will have charge of the event, is William F. Blasse, a famous marksman of California.

Batteries: McConnell and Fisher; Bluejacket, Upham and Simon.

Pittsburg-Buffalo game postponed on account of rain.

Only three games scheduled.

A Backward Season

Throughout the Northwest, and to a lesser extent all over the entire country, summer has been a trifle slow in taking hold of the job.

Some blame the weather man, some blame the war, but all agree that the ultimate effect of this or any other backward season is a shortening of the available time in which to dispose of seasonable merchandise.

Commencing Friday - August 6th - Commencing Friday

SYSTEM CAUSES EXTRAVAGANCE

London, Aug. 4.—One of the first witnesses who will ask for a hearing before Premier Asquith's new committee to inquire into the possibility of effecting economies in the management of the British government's affairs, is Sir A. B. Markham, Member of Parliament for Nottingham, Hampshire. For several years, both in and out of the House of Commons, he has advocated the necessity of a thorough supervision of the expenditure of every branch of government activity. Here is what he will tell the committee, as outlined in an interview: "There is fearful waste going on in almost every department of the government, due to the system of leaving our great war organization in the hands of half-pay officers. We do not encourage young men; they are snubbed by their older superiors whenever they suggest a new business proposition, and all their initiative is killed. "Every tap is running to waste, for in almost every case the wrong man has control of the tap. In Germany

the spending departments were given over to business men at the beginning of the war. We ought to have done the same. We have tried to work with a system which may have done well enough for peace time, but which is useless now. Instead of putting the colossal arrangements into the hands of experienced business men, the War Office called up retired officers from all parts of the country—men who, however keen, could not possibly be expected to understand the intricacies of the various organizations necessary. It is simply a scandal the way food is being wasted. Take meat. A man is allowed one and a quarter pounds of meat daily. It is impossible to eat so much meat. The result is a quantity is thrown away or sold. "Another shameful waste of money is taking place in billeting. Hundreds of huts, to my knowledge, have been empty for several months because they are not fit to live in. This means that thousands of men are billeted at 17s. 6d. per week when they ought to be living in huts for which we paid to be comfortable and draught and rain proof. "The greatest scandal of the whole lot has been taking place in the buying of horses. I know of cases where horses have been bought by the War Office authorities, sent to camp, and rejected as unfit. They were then sold at an auction, bought

again by dealers, sent to the country and bought again by the War Office authorities. A brand is now being used, I am told, on the quarters of the horses, but hitherto the horses were branded on the hoofs, I believe, at any rate, somewhere where the dealers could simply rasp the brand off. "Take the railways as an instance. They certainly are under government control, but they are managed by business men who meet, I understand, every day. "I know for a fact that if you want a sixpenny rubber stamp in a certain government military office you have to get the initials of men in eight different departments. "Another great waste of the people's money is in coal. Our great railway companies alone consume 40,000 tons of coal per day. They are paying something like 30s a ton for it. The government having guaranteed the dividends of the railway companies, the money of this extra cost comes out of the people's pockets. "A division consisting of the cities of Elberfeld, Barmen, Solingen and Remscheid, and the country districts of Lennep and Mettmann was given the sponsorship for Margrabowa, and was charged with raising 342,000 marks for rebuilding purposes.

PLAN WORKED OUT TO AID DUSSELDORF

Elberfeld, East Prussia, Aug. 5.—To aid stricken East Prussia to reconstruct and rehabilitate itself and recover from the effects of two Russian invasions representatives of the municipalities in the general district of Dusseeldorf, at a recent meeting, agreed to divide up the district equally and assess each division proportionately to take over the sponsorship of some given part of East Prussia. "Another great waste of the people's money is in coal. Our great railway companies alone consume 40,000 tons of coal per day. They are paying something like 30s a ton for it. The government having guaranteed the dividends of the railway companies, the money of this extra cost comes out of the people's pockets. "A division consisting of the cities of Elberfeld, Barmen, Solingen and Remscheid, and the country districts of Lennep and Mettmann was given the sponsorship for Margrabowa, and was charged with raising 342,000 marks for rebuilding purposes.
