

CHICAGO WOMAN SHOOT'S POLICE

Holds Off Force of Seventeen Policemen Who Tried to Arrest Her.

Chicago, Oct. 12.—Mrs. Stella Strueter, wife of Captain George Willington Strueter, "dictator" of the District of Lake Michigan, today shot and slightly wounded a detective sergeant, according to the police and at the point of a revolver held up 17 other officers who had come to arrest her.

Her husband was arrested on the charge of selling liquor without a license. Captain Strueter was taken into custody without difficulty. Mrs. Strueter, however, according to the account given by the attacking party, refused to accompany the officers and opened fire with a revolver, wounding Detective Sergeant Cudmore in the shoulder. When reinforcements arrived Mrs. Strueter barricaded herself in her home and threatened to shoot anyone who approached.

The police withdrew. Later the woman appeared at the office of the federal commission and demanded the release of her husband. This was accomplished when bonds had been furnished. Mrs. Strueter was not arrested.

Late tonight Mrs. Strueter walked into the police station and gave herself up. She was held in custody but was not booked.

BOSTON NABS FOURTH GAME FROM PHILLIES MAKING THREE STRAIGHT

Two were out at the time. Luders slammed out his third single of the day, and sent Cravath scampering over the field. Whitted might have tied the score, but his fast inner went directly at the Boston pitcher, who gamely knocked it down and threw the Phillies' left fielder out at first.

Boston was lucky to score its first run today. Berry walked to begin the third inning. Cady laid down a bunt, that ordinarily would have been an easy out, but Chalmers in the box for the Phillies slipped, as he went for the ball, and could not recover himself until Cady was safe at first. Shore sacrificed Berry to third, and Cady to second, and the former scored a moment later, when Hooper was credited with an infield hit on a ball that Ntehoff should have taken.

Won in Sixth. The second and winning run came over in the sixth, when Hohlitzel singled and raced home on Dady Lewis' scorching double to the left field fence. Lewis had driven in the winning run yesterday and he was easily the hero of the crowd today. His defensive work in the field this afternoon was little short of wonderful. He was credited with six put outs, and each chance that came his way was a difficult one.

George Chalmers, the third Philly

pitcher to fall before the American league champions, hurled a fair game of ball. He allowed only eight hits, Hohlitzel getting three of that number.

Receipts, \$144,899.50. Today's game was the last in which the players shared the receipts. A total of \$144,899.50 awaits division among the members of the two teams. The winning team will receive 60 percent of the total. As 23 players of each team are eligible contestants in the series, the individual's equal share would amount to \$3,779.98.

To the losers will go \$57,959.50, or 23 shares of \$2,519.12 each, if the division is equal.

The crowd which witnessed the game today, 41,096, unexpectedly proved smaller than yesterday's record breaker. That today's figures did not eclipse those of yesterday, however, was not the fault of the Boston fans. Between 15,000 and 20,000 of them were turned away at the gate. Many ticket holders were caught in this way and were unable to make their way to the gates, which were closed long before the game started.

Ideal Day. The day was made for baseball, a brilliant October sun having in its rays the warmth of early summer. Overcasts were cast aside and some of the fans sat in shirt sleeves.

Tomorrow manager Carrigan undoubtedly will send George Foster to the mound to oppose Alexander. Foster pitched a brilliant game in Philadelphia last Saturday, winning it with his own timely hitting, and he is rather anxious for a fling at the Philadelphia star.

Support of Villa Is Now Collapsing

Washington, Oct. 12.—Secretary Lansing conferred today with Elito Arredondo, representative here of General Carranza. It was their first meeting since the Pan-American diplomats decided that recognition should be extended to the Carranza government in Mexico.

The secretary described the conference later as a general talk on the situation and said no new steps had been taken as he still was awaiting responses from South and Central American governments.

Recognition in all probability will be given formally by the United States, however, within another week.

URIC ACID IN MEAT Clogs the Kidneys

Take a Glass of Salts if Your Back Hurts or Bladder Bothers You — Drink More Water.

If you must have meat every day, eat it, but fusa your kidneys with salts occasionally, says a noted authority, who tells us that meat forms uric acid, which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in uric acid, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia water drink.—Adv.

panied from Minot by Deputy J. E. Reed, a well known officer. Henry Volt, E. T. McCarthy, Al. Condon and Thomas Smith, all of Cando, are each sentenced to serve six months for bootlegging. Sim Hudson, colored, of Cando was given two years and one month, being convicted on a holiday charge.

Edward Smith of Graton will serve eight months for bootlegging. Mr. McGillis will leave today with a patient for the state hospital for the insane at Jamestown and also has a number of prisoners in the eastern part of the state to bring in.

PIERCE DRIVE INTO SERBIA CAUSES CRISIS

(Continued from page one)

In concluding his speech, which placed the onus of the failure to come to an agreement with Bulgaria directly on the Balkan government, the premier said: "Never has an accord been more direct or more complete between the Allies, and never have we had greater confidence in a common victory."

The Politikan says that British submarines in the Baltic sea are causing the German mercantile fleet great losses. "Five steamers are now known to have been sunk," says the newspaper. "How many British submarines have gotten through the narrow sound is not known, but it is evident that Germany was too late in laying the Baltic mine field."

A dispatch to Reuter's Telegram company from Karlskrona, Sweden, says that the German steamer, Direktor-Reppenhausen, 1683 tons, of Stettin, has been torpedoed by a German submarine. The fate of the crew is not known.

A British agent has unearthed a submarine base in the gulf of Manupia, southeast of Greece, from which it is believed here the submarines have received their supplies. The discovery was reported to the Greek authorities, who immediately seized a large quantity of petroleum and other supplies at the base.

GREECE STILL NEUTRAL. London, Oct. 12.—When the Serbian minister at Athens officially advised Premier Zamais of the beginning of the Bulgarian offensive against Serbia, Premier Zamais, according to a dispatch to the Star from Athens, replied: "Greece remains in the position of armed neutrality."

LOAN PRACTICALLY APPROVED.

London, Oct. 12.—A loan bill to confirm the action of the government in raising a loan of \$500,000,000 in the United States in conjunction with France passed through this evening. It is expected to receive the royal assent as soon as the House of Lords has formally passed it. It is not believed here that the passage of the loan bill will have an immediate effect on the rate of exchange, in fact, it is believed the government will have to come into the market and sell exchange before any pronounced or permanent improvement can be attained.

GERMAN FREIGHTER SUNK. Kalmars, Sweden, Oct. 12.—The German steamer, Nicomedia, with a cargo of 6,800 tons of iron ore from a Swedish port for Hamburg, was sunk in the Baltic yesterday by the British submarine, E-119.

The crew was given 15 minutes to take to the boats. It is reported that they all landed safely. The Nicomedia belonged to the Hamburg-American line. She was of 4,391 tons gross, 384 feet in length and was built in 1901.
