Says Simple Laxative Better than Castor Oil

Case of Chronic Constipation Yields to Mild Laxative Compound.

Writing from The House of the Good Shepherd, at Sunnyside Ave. and 50th St., Seattle, where she is the guest of her life-long friend, the Reverend Mother, Mrs. Mary Austin, widow of a wealthy San Francisco, who lost everything in the fire of 1906, says she experienced speedy relief from the use of Dr. Caldwell's Syrup Pepsin and that she found this gentle, pleasant tasting laxative more effective than several doses of castor oil.

The active principles of certain laxative herbs are combined in Dr. Caldwell's Syrup Pepsin to act on the eliminative organs in an easy, natural way, without griping or other discomfort. Its freedom from opiate or narcotic drug of every description, combined with its gentle action and positive effect, make it the ideal laxative for family use. Druggists everywhere sell it for fifty cents a bottle.

A bottle of Dr. Caldwell's Syrup Pepsin should be in every home for use when the occasion arises. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 404 Washington St., Monticello, Ill.

The "SILENT SMITH"

—Model 8 shows what should now be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

- Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.
- Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.
- Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.
- Faster Ribbon Feed—Insures new place of impact for each typeface.
- Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.
