**FEW MINERS ESCAPE**  
Shut off from fresh air and sunshine, sometimes working in dampness, and often inhaling dust, are the reasons why so few miners escape bronchitis, pneumonia, asthma, throat troubles, or even consumption.  
The hard work and sudden changes from warm mines to icy winds will weaken the strongest constitution, and doctors are advising miners to take Scott's Emulsion after meals, because it is a powerful blood purifier, which creates body-warmth, healthful flesh, and strengthens both throat and lungs.  
If you work in the mines you need Scott's Emulsion to keep up your strength, and for colds, coughs or rheumatism it should never be neglected. Scott's is free from alcohol—insist on the genuine. Scott & Downe, Bloomfield, N. Y.
