Forecast.
 For North Dakota: Fair tonight and Saturday; warmer tonight and in eastern and central portions Saturday.

OBRIEN W. ROBERTS,
 Section Director.

EGG CROP.
 Estimates of the value of the yearly production of eggs run all the way from \$387,000,000 to \$750,000,000. In his last annual report Secretary Houston of the Department of Agriculture, in speaking of poultry products of the United States, said that they had reached a point where their annual value was about one-half that of the cotton crop. The cotton crop in 1914 was valued at about \$800,000,000.

When parties are hard up for political issues they can always fall back on the Philippines.

BUY SEALS TODAY.
 Red Cross Christmas Seals have been potent factors in fighting the white plague. Do your part today and from now until Christmas to swell the receipts in Bismarck. There is a satisfaction in receiving letters and parcels bearing the stamps, as well as in sending them with the dainty seal attached.

Precedent seems to have repealed several vital sections of North Dakota's constitution.

DECISIVE EFFORT.
 The Allies are preparing for what is termed in official circles "the decisive effort." This is planned for the spring. England and France are straining every nerve to have men and supplies on the front so as to make another drive, in the hopes of driving the Germans from French soil.
 This is one of the reasons given for calling to the colors recently 400,000 boys of the Class of 1917. All the reports from the Entente nations have nothing in them that suggest peace. Everywhere are indications that a supreme effort will be made early next year to break down the Teutonic resistance.

Austria is reported as being ready to make separate peace. Of course, this is the British view of Emperor William's recent trip to Vienna, when the government faced a cabinet crisis. It is a matter of fact, however, that Austria is finding it difficult to finance the war. In sixteen months, only after the most strenuous efforts, she has been able to raise only \$260,000,000, while France in two days subscribed half a billion to the "loan of victory." This is the most remarkable example of national thrift in history.

From this distance, observers of conditions in Europe are prone to believe that peace is near. This is emphatically denied by the Allies, who maintain that Germany's victories were gained while they were preparing for a war into which they had been thrust without warning.
 Lord Kitchener at the opening of the struggle insisted that the conflict would last at least three years. It has more than a year of that time to run.
 Estimates as to the length of the

struggle and guesses as to the winners are futile at this stage. There have been no decisive results. Russia has not been defeated. The Allies have men and money in abundance. Germany is a powerful fighting machine. The humiliation of Serbia and the entry of Bulgaria, while factors to be reckoned with, are in no sense decisive.
 Neither side as yet can point to victories emphatic enough to precipitate peace negotiations.

The woman who slipped a negro porter a kiss by mistake must have been color blind.

There does not seem to be enough harmony among the Democrats at Washington to force through a closure rule that will eliminate filibustering.

TO ENFORCE ATTENDANCE UNDER COMPULSORY LAW

Mandan, N. D., Dec. 3.—Hon. Geo. Wallace of the state tax commission has been asked by States Attorney Langer of Morton county, to present to the supreme court the constitutional cases involved in the famous wine seizures at Hebron. Over \$6,000 worth of wine was seized by Mr. Langer and its disposal will depend upon the decision.

States Attorney Langer found 1600 children of school age in Morton county whose education was being neglected despite the compulsory education law, and he has compelled their parents to send them to school. He has also required school directors to obey the law and put flags over the school houses.

EDITH BOLLING PINK NAME OF NEW FLOWER

Washington, Dec. 3.—In the government experimental greenhouses here is a small plant which, in its present state of evolution, is the strangest in the assortment. With a pale green stem pushing awkwardly upward, it resembles a small and anomalous variety of orchid.

But it is destined for fame because it has been named after the woman who will become the mistress of the White House during the last of this month. The flower is to be called the "Edith Bolling pink." It is a carnation, a hybrid of the Malmesbury bloom and old-fashioned pink. It is a blend of white and deepest pink.

"QUALITY FIRST" AT FIRESTONE PLANT

When President H. S. Firestone of the Firestone Tire & Rubber Company, was asked concerning the new additions to the big plant at Akron, Ohio, he replied, "Our growth, no doubt, seems remarkable, but more than any other force, our rigid insistence on "Quality First" in everything connected with the manufacture of our tires, is responsible for our vast volume of business.

"We make the very best tire we know how. The best brains, the finest materials, the most painstaking efforts and the utmost care are used in producing Firestones. The one idea of Quality is uppermost, both in the factory and in the many places that offer Firestone Service.

Naturally, the public is a factor in our increase, for motorists use Firestones and realize that Quality is their foremost feature. The result is more orders and the factory grows that it may keep up with this demand—a logical outcome, and one of which we are justly proud, for our plant is the world's largest tire concern. Quantity in production is excellent, but when Quality goes hand in hand with quantity, there is your ideal combination. We feel very much gratified in feeling that we are in possession of that combination."

ECCLESIASTICAL COUNCIL MADE NEW MINISTER

With the services of tomorrow the Evangelistic campaign which has been conducted by the First Baptist church will come to a close. The services have been highly profitable and many good results have been brought about. Rev. E. A. Gilmore has spoken every night this week. His sermons have been masterpieces of eloquence, his logic has been forceful, and his appeal earnest. In all the messages have been greatly enjoyed by all who have heard him. The attendance and interest has been steadily on the increase since the beginning of these meetings, two weeks ago. It is expected that the church will be crowded tomorrow to hear the final messages of the campaign.

Mr. Gilmore will speak tomorrow at the morning hour of worship, upon the theme, "The Upper Room." There will be special musical numbers by the church quartet. There will be a boys' and girls' meeting at 3:00 p. m., which will be addressed by Mr. Jackson. Mr. Gilmore will speak again at the evening service, his theme being, "The Lost Christ." At this service the church chorus, which, under the direction of Prof. J. E. Fuerbringer, has been leading the songs in a most effective manner, will be present in full force and render a special musical program.

REQUISITIONED BOATS TO LONDON

Where the Prize Court Will Decide Their Status; Several Have Been Seized.

London, Dec. 3.—The British government, it is affirmed in official quarters, has requisitioned the steamship Hocking and Genesee of the American Trans-Atlantic steamship company, but this action, it is added, is only of a temporary character and no procedure is contemplated which would prevent the restoration of the ship to the company in the event that the action of the prize court was unsuccessful.

Central London. It is explained that the government having decided to centralize the prize court proceedings in London, and vessels of the American Trans-Atlantic which have been seized—the Humber being given as "several"—are to be held there. The requisition will in reality only cover the trip from the port where the ship has been captured to London, after which the prize court will take control. The cargoes, where no proceedings have been taken, are being discharged.

FIRE DESTROYED "LESLIE" PAPER

St. Paul, Dec. 3.—A fire of undetermined origin that broke out at noon today, gutted the four-story building of the F. G. Leslie Paper company and the Barret & Barret wholesale vinegar house here, resulting in an estimated loss of \$210,000 to building and stock.

Girl injured. Only one person, a girl employee of the paper company, who was about to leave from a second story window, was injured, though a company of firemen on the fire escape and roof narrowly escaped injury or death in the swift rush of the flames.

The blaze started in the Leslie Paper company. A pedestrian asserted that every window was filled with flames inside of five minutes after he had passed the building. A crowd estimated at 15,000 people filled the street to watch the flames and the work of the firemen. The blaze was one of the most spectacular in recent years, particularly in the way of thrills for the crowd.

BANKER WAS SHOT MESSENGER HURT

New York, Dec. 3.—Allen P. Gardner, a bank president, was mortally shot and George deBross, his assailant, was dangerously wounded by Walter F. Orignan, another messenger, in a sensational attempt to steal a bag of coin containing \$4,000 at the Fourteenth avenue subway station, during the rush hour late today.

JAP STEAMER RETURNS TO PORT AFTER SAILING

Tacoma, Wash., Dec. 3.—The Japanese steamer, Hokkai Maru, which sailed from Tacoma last night, heavily laden with war supplies for Russia, was reported as returning to port. She passed out to the Pacific early today and a few hours later headed back into the Strait of San Juan de Fuca; the reason for her return has not yet been learned.

AUSTRIANS HIRE GUARDS TO WATCH THEM WORK

Williston, N. D., Dec. 3.—Five Austrians, arrested several weeks ago in this county at the instance of Canadian immigration officials, who charged the men with leaving Canada, paid two guards to watch them while they worked with a threshing crew near here.

This arrangement was agreed to by officials when the men pleaded earnestly for an opportunity to work.

SEEKING INFORMATION TO START SUIT

William M. Wantland, a real estate dealer of Los Angeles, is making investigations in the office of the railroad commission as to the details of the Northern Pacific wreck about six weeks ago, at Angora. Mr. Wantland is a brother of Engineer Wantland, who was killed in that wreck and it is believed he is about to bring suit.

SEN. CLARKE CHOSEN.

Washington, Dec. 3.—Sen. James P. Clarke of Arkansas was chosen today for president pro tem of the senate by the democratic caucus. Sen. Clarke defeated Sen. Pomeroy of Ohio after a spirited contest, the vote was 28 to 23.

WILTON BANK CHANGES HANDS

McLean County Financial Institution Has Entire New Management.

Wilton, Dec. 3.—Wednesday the control of the McLean County State bank of Wilton passed from the directorate of C. B. Little, Bismarck, S. M. Pve, Los Angeles, California, and J. C. Anderson, of Wilton, who disposed of their stock to August Johnson and Karl Klein, of Washburn, and Simon Jahr, of Wilton.

At a meeting held in Wilton Tuesday evening an organization was effected with the following officers elected: August Johnson, president; Karl Klein, vice-president; Simon Jahr, cashier; Joseph Wright, assistant cashier.

The McLean County State bank is one of the strong financial institutions of the Missouri Slope, being the oldest bank in the county, having been organized in 188 at Washburn, by Col. C. B. Little, Joseph Hare and S. M. Pve, all of Bismarck. In 1905 the bank was moved to Wilton because of other business interests which the directors of the bank had in the Licentia City.

In December, 1905, J. C. Anderson of the First National bank, of Bismarck, bought the stock of Joseph Hare and assumed the position of cashier, which had been held by S. M. Pve. Mr. Pve being elected vice-president.

During the past ten years the McLean County State bank, under the guiding hand of Mr. Anderson, has grown until at the present time the deposits amount to \$80,000, with a surplus and undivided profits of \$7,500. The institution is capitalized at \$5,000.

Both Col. C. B. Little and S. M. Pve are pioneer citizens of the Missouri Slope and have large business interests elsewhere which require their attention.

The new directors of the McLean County State bank are also well known in the business activities of North Dakota. Messrs. Johnson and Klein are the leading real estate dealers in the county and are also directors in the First National bank of Washburn and the Baldwin State bank.

Mr. Jahr, the new cashier of the institution, is a pioneer citizen and business man of Wilton, being for a number of years a member of the Jahr-Eastman Mercantile company.

VISITED SANITORIUM.
 Mrs. J. E. Stevens, of Lawton, made a trip to Dunseith recently in the

rest of the education of the tubercular children being cared for at the North Dakota sanatorium in that city. It is a feature introduced by the anti-tuberculosis society. The sanatorium has 102 children under 18 years of age and there are twenty-four patients under 23 years old. A proposition to educate them all is under consideration.

Permanent Relief for Chronic Constipation

Has Been Prescribed by Well Known Physician for Many Years.

The infirmities of age are especially manifest in a tendency to constipation, and call for treatment that will afford relief in an easy, natural manner. The rapid action of cathartic remedies and purgatives that shock the system should be avoided, more especially as the relief they offer is only temporary and is usually more than offset by disturbance to the vital organs caused by their violent action.

Nearly thirty years ago Dr. W. B. Caldwell, Monticello, Ill., prescribed a compound of simple laxative herbs that has since become the standard household remedy in thousands of homes. It acts easily and gently, yet with positive effect, without griping or other pain or discomfort. Mrs. Rachel Allen, Galesburg, Kans., is seventy-one years old, and after using a bottle of Dr. Caldwell's Syrup Pepsin, wrote that it had done her a world of good and that she intends to keep it in the house always.

Druggists sell Dr. Caldwell's Syrup Pepsin for fifty cents a bottle. It is a splendid remedy and should be in every home. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.
