A SUGGESTION.
The successful gift-maker at Christmas is the one who makes appropriate gifts, rather than pretentious ones of great intrinsic value. A more appropriate gift for anyone than The Bismarck Tribune is hard to find. Why not stop hunting and just send the name of the person to whom the gift is to be made, and we will send The Bismarck Tribune for a year by mail for \$4 or by carrier by to the home for \$6, and convey your greetings. If this idea strikes home, why not send the order now? Christmas will soon be here. Ladies' winter coats of last season, \$1.95 each today. Lucas.—Adv.

YOUR BRONCHIAL TUBES

When a cold settles in the bronchial tubes, with that weakening, tickling cough, immediate treatment is very important. The breath seems shorter because of mucous obstructions; usually fever is present, your head jars with every cough and your chest may ache. This is no time for experimenting or delay—you must get Scott's Emulsion at once to drive out the cold which started the trouble, and it will check the cough by aiding the healing process of the encrusted membranes. If you have any symptoms of bronchitis, or even a stubborn cold, always remember that Scott's Emulsion has been relieving this trouble for forty years. It is free from alcohol or drug refuse substitutes.
